On the conversion date, the Listed Issuer shall cancel the surrendered share certificates. Up until the business day preceding the conversion date, the Listed Issuer may, on the basis of a relevant request and on its own responsibility, make corrections to the Physical Securities Conversion File provided these are accepted by ATHEXCSD, submitting the corrected version to ATHEXCSD. ATHEXCSD may request the opinion or approval of the Trading Venue Operator for the acceptance of the relevant correction, wherever this is deemed necessary for the smooth and lawful completion of the process.

3. On the basis of the application of the Listed Issuer, ATHEXCSD proceeds to open an Issuer Share and, in the latter, a Transitory Account prior to the conversion date. This recording is temporary and the relevant balance of the Transitory Account is set to zero upon completion of the transfer of dematerialised shares recorded as above to the Securities Accounts declared for beneficiary shareholders. The aforesaid transfer is carried out by the conversion date at the latest.

In the case of a joint account or co-ownership, a Joint Investor Share or Co-Owner Share is opened respectively, in accordance with the terms of Part 5, Section III. As of the date of conversion of the certificated shares into dematerialised ones, the rights in rem of all kinds are exercised and any transfers of the relevant dematerialised shares through Securities Accounts are carried out in accordance with article 13, Law 4569/2018.

5. Shares corresponding to physical securities which were not deposited with the Listed Issuer in accordance with par. 2 of this article and which have been recorded in the Transitory Account in accordance with par. 3, shall be subject to the forced sale procedures of article 7, Law 4569/2018. For the needs of such forced sale, Issuer Shares are opened in the name of the non-appearing beneficiaries on the basis of the details provided by the Listed Issuer to ATHEXCSD and the

shares to be sold are transferred to the respective Securities Accounts operated by ATHEXCSD. For the needs of recording, shareholders must have declared Participants, otherwise the recording will not be made.

The Listed Issuer notifies ATHEXCSD regarding the forced sale and provides any necessary assistance for the settlement of the relevant sale transactions so that the relevant balance of shares to be sold becomes zero.

ATHEXCSD carries out the settlement of the relevant forced sales on the basis of the procedure of article 4.3, Part 4, Section V. By virtue of a relevant Decision, ATHEXCSD may specify any technical issue and necessary detail relating to transfers of Securities to be sold as well as the settlement procedures in respect of the relevant forced sales.

In such a case, ATHEXCSD also takes into consideration whether the transferable securities to which the request relates are deleted from the Trading Venue, to which they had been admitted, on the basis of the applicable provisions governing the relevant deletion, such as of article 17, Law 3371/2005.
- b) If the transferable securities are deleted from the Trading Venue, where they had been admitted, compulsorily following a decision of the Competent Authority or the Trading Venue Operator, in accordance with Law 4514/2018 and Directive 2014/65/EU.

3.2. Special conditions

1. For the acceptance of the relevant dematerialisation or immobilisation application, as appropriate, the following conditions must be met:

- a) If the Non-Listed Issuer is a legal entity that issues transferable securities in the capital market which have neither been admitted nor are to be admitted to trading on a Trading Venue, such as, by way of indication, when the relevant shares are made available in a public offering, the application is accepted following approval of the prospectus or information document, as appropriate, or after fulfilment of the terms governing the sale of the relevant shares in a private placement in accordance with applicable provisions.
- In such a case, for the purpose of providing the Initial Recording Service, ATHEXCSD examines the reasons why the relevant securities have not been or are not being admitted to a Trading Venue. ATHEXCSD may refuse the application, giving its reasons, if it takes the view that the non-admission is due to reasons that could jeopardise the smooth operation of the market or the operation of the relevant recording in the DSS.
- For the acceptance of the application, the aforesaid legal entity must have adopted the necessary statutory or regulatory arrangements, depending on its form, for the issuance of its transferable securities in dematerialised or book-entry form and their relevant recording in the DSS. By virtue of these arrangements, the legal entity must have also specified the procedures on the basis of which it adopts the relevant decisions on the issuance of its transferable securities in dematerialised or book-entry form as well as the corresponding decisions for the deletion of the relevant securities from the DSS.
- b) If the Non-Listed Issuer does not fall under item a) but is a public limited company in accordance with the provisions of article 12, Law 4569/2018, the following specific terms shall apply:
- (i) the legal status of the company must be in conformity with the laws and regulations to which it is subject;
 - (ii) the company must fulfil its obligations regarding the publication of annual financial statements as well as other data on registration and publication in the Hellenic Business Registry in accordance with applicable provisions;
 - (iii) the legal status of the company's transferable securities for which an application is submitted to ATHEXCSD for their recording in dematerialised or immobilised form must be in conformity with the laws and regulations which govern them;
 - (iv) the relevant securities must be freely transferable and fully paid up;
 - (v) the recording application must refer to all the transferable securities of the same class which have been issued;
 - (vi) the company must have adopted the necessary statutory arrangements that allow it to issue transferable securities in dematerialised or book-entry form in accordance with par. 1, article 12, Law 4569/2018;
 - (vii) the company must provide the data and supporting documents that are requested by ATHEXCSD pursuant to its relevant Decision.

2. ATHEXCSD may, by virtue of its Decision, specify any necessary technical or procedural term relating to the implementation of the conditions of the preceding paragraph, as well as the data and supporting documents that Non-Listed Issuers must provide to it.

3. A Non-Listed Issuer must notify ATHEXCSD without delay in the event of circumstances or changes with respect to its operation which affect or could affect fulfilment of the terms and conditions on the basis of which its application was accepted in accordance with par. 1 and 2. A Non-Listed Issuer must also notify ATHEXCSD in any case of modification of its statutory arrangements relating to the operation of its transferable securities in dematerialised or book-entry form with a relevant entry in the DSS.

4. A Non-Listed Issuer shall be obliged to inform ATHEXCSD regarding any corporate or other related events pertaining to its Securities recorded in the DSS, adhering to the provisions of Section VIII.

3.3. Completeness of data of beneficiaries and Participants

1. For the acceptance of the dematerialisation or immobilisation application, the Non-Listed Issuer must provide to ATHEXCSD the Physical Securities Conversion File or Beneficiary Allocation File or Physical Securities Immobilisation File, depending on the instance of recording in the DSS, with full details not only of the beneficiaries of the dematerialised or immobilised securities but also of the Participants designated for the opening and handling of the relevant Securities Accounts for beneficiaries.

If the above details are incomplete, the relevant application of the Non-Listed Issuer will be rejected, unless it falls under one of the cases of paragraphs 2 and 3 hereof. ATHEXCSD may set reasonable time limits for the Non-Listed Issuer to provide the above details, if it deems this expedient for the successful outcome of the relevant application.

2. In the case of a beneficiary for which no Participant is declared and which maintains an Own Securities Account or Client Securities Account, ATHEXCSD – after verifying the details of the beneficiary in accordance with its procedures – shall transfer the dematerialised or immobilised securities to the Securities Account of the beneficiary. The Participant will be notified of this transfer accordingly.

If the beneficiary has more than one Own Securities Account or Client Securities Account, the aforesaid transfer is made to the Securities Account that has been opened at a later time.

The above-mentioned transfers are carried out on the instruction of the Non-Listed Issuer.

3. In the case of a beneficiary that does not maintain a Share in the DSS or no Client Securities Account has been opened in such Share or no Clients Securities Account is declared for the relevant Securities of the beneficiary, the Issuer may – on the basis of relevant decisions of its competent bodies – designate in accordance with the procedures of ATHEXCSD a Participant that will carry out the following actions:

- a) The Participant opens a Securities Account in the Issuer Share by entering the details of the beneficiary as provided by the Issuer.
 - b) Following this and in accordance with the procedures of ATHEXCSD, the Securities of the beneficiary are transferred from the Transitory Account to the Securities Account of the Issuer Share.
4. Securities Accounts that are opened in the Issuer Share in accordance with paragraph 3 hereof are terminated by ATHEXCSD by transferring the balance of Securities to Securities Accounts declared for beneficiaries. The aforesaid transfer is carried out on the instruction and responsibility of the Issuer. In such a case, termination takes place in accordance with the terms of Part 9, Section III of the Rulebook.
5. ATHEXCSD shall, by virtue of its Decision, specify any technical matter and necessary detail relating to the implementation of the terms of the preceding paragraphs, particularly in respect of the content of the applications that must be submitted in the cases of paragraphs 2 and 3, the details and supporting documents that must be submitted by Non-Listed Issuers where the cases of paragraphs 2 and 3 apply, as well as any specific procedural terms pertaining to the implementation of these cases.¹⁴

3.4. Deletion of transferable securities of Non-Listed Issuers which have been recorded in the DSS

1. Transferable securities of a Non-Listed Issuer which have been recorded in the DSS in the framework of use of the Initial Recording Service are deleted from the DSS following a relevant decision of ATHEXCSD in the following cases:
- a) If the Non-Listed Issuer submits a request for their deletion to ATHEXCSD. In order to submit such a request, the competent body of the Non-Listed Issuer must have taken a decision to this effect in accordance with its statutory or regulatory arrangements as applicable.
 - b) If the Non-Listed Issuer enters into a state of insolvency, particularly bankruptcy, or some other collective enforcement measure is imposed against it. In such a case, the deletion process is undertaken by the duly authorised liquidator or other person with powers corresponding to those of the liquidator, who is appointed in accordance with the relevant enforcement procedure in each case.
 - c) If the Non-Listed Issuer fails to fulfil its obligations towards ATHEXCSD in accordance with this Rulebook or if keeping the transferable securities of the Non-Listed Issuer at ATHEXCSD becomes impractical on the basis of a comprehensive risk assessment,

Notification may be provided to unit-holder

investors by any appropriate means of notification and communication, including announcements through the mass media or the internet.

ATHEXCSD may request the opinion or approval of the Trading Venue Operator for the acceptance of the relevant correction, wherever this is deemed necessary for the smooth and lawful completion of the process.

3. On the basis of the application of the Exchange-Traded Fund Manager, ATHEXCSD proceeds to open a Fund Manager Share and, in the latter, a Transitory Account prior to the recording date, as publicly disclosed in accordance with par. 2. The Transitory Account is used to record all the units issued directly in dematerialised form in accordance with the application of the Exchange-Traded Fund Manager. This recording is temporary and the relevant balance of the Transitory Account is set to zero upon completion of the transfer of the dematerialised units recorded as above to the Securities Accounts declared for beneficiary unit holders. In such a case, the Fund Manager submits to ATHEXCSD the Physical Securities Immobilisation File in accordance with the relevant procedure. For recording purposes, ATHEXCSD sets the immobilisation date as the recording date, adhering in other respects to the formalities of article 4.2.

4.4. Creation and redemption of Exchange-Traded Fund units

4.4.1. Creation of Exchange-Traded Fund units

1. The number of units of an Exchange-Traded Fund which are recorded in the DSS may be increased on an ongoing basis by the Exchange-Traded Fund Manager, in satisfaction of applications for the creation of new units in the framework of the admission number approved in each case.

Following the transfer of the units to the aforesaid Transitory Account, the units are cancelled and deleted from the DSS.

3. In cases where the redemption of units is combined with a return of Securities to applicants, ATHEXCSD carries out the transfers of the Securities from the Securities Account of the Fund

Share of the Exchange-Traded Fund to the Securities Accounts of the Participants acting for the applicants, on the basis of instructions from the Participant of the Securities Account of the Fund Share, following transfer of the units to be redeemed to the aforesaid Transitory Account. b. If the Exchange-Traded Fund Manager fails to fulfil its obligations towards ATHEXCSD in accordance with this Rulebook or if keeping the units of the Exchange-Traded Fund at ATHEXCSD becomes impractical on the basis of a comprehensive risk assessment, implementing in such a case provisions corresponding to those of par. 3, article 49 of Regulation (EU) No 909/2014.

2. ATHEXCSD provides standard and customised multilateral settlement services. In the case of standard services, in addition to the provisions of article 4.3.1, the specific provisions of article 4.3.2 are also applicable. Customised services may be provided at the request of the Market Infrastructure Operator. ATHEXCSD may decline the provision of customised services, adhering to the terms of article 53, Regulation (EU) No 909/2014. By virtue of a relevant Decision, ATHEXCSD specifies the terms for the provision of customised settlement services on a case-by-case basis.²⁴

4.3.2. Standard services

4.3.2.1. General terms

1. In the case of standard services, the following general provisions apply.

2. With regard solely to the cash leg, settlement is performed on a netting basis per Participant and Cash Settlement Account. More specifically, the cash claims and corresponding obligations per Participant which have arisen from transactions on the same day are subject to netting.

3. Settlement is carried out with respect to all Participants, while the obligation or claim of each of the latter is independent of the fulfilment of obligations of the counterparty to the relevant transaction.

4. The furnishing of Securities and cash for settlement purposes at the end of each cycle is deemed to be part performance, which cannot be rebutted by the Operator.

5. Settlement is carried out irrespective of fulfilment or non-fulfilment of the cash obligations of the obligated clients or principals of Participants towards Participants and vice versa.

4.3.2.2. Multilateral settlement procedure

1. During each cycle of multilateral settlement, ATHEXCSD endeavours to settle all transactions on the basis of the procedure and relevant algorithm described in the following paragraphs.

²⁴ Article 4.3.1 was replaced as above by virtue of decision 324/28.01.2022 of the Board of Directors of ATHEXCSD with effect as of 01.02.2022.

2. Each settlement cycle is divided into the following phases:
 - a. Phase A: Settlement of notified buys, to which sells of the same security correspond, from the same Participant in the same transaction code of the relevant Market Infrastructure.
 - b. Phase B: Settlement of other notified buys.
3. The first settlement cycle has two stages, in each of which Phases A and B of the preceding paragraph are completed:
 - a. Stage A: Settlement is carried out without the participation of the Cash Settlement Agent that performs the cash settlement.
 - b. Stage B: Settlement is carried out with the participation of the Cash Settlement Agent that performs the cash settlement.
4. During each settlement phase or stage, ATHEXCSD calculates:
 - a. The coverage limit of each Participant, which is equal to the monetary value of its notified sells plus the amount deposited in its Cash Settlement Account and has, on the instructions of the Market Infrastructure Operator, been blocked by ATHEXCSD up to the total value of its buys to be settled, less the monetary value of its buys that have already been settled. Specifically in stage A of the first settlement cycle, the Participant's coverage limit is equal to the value of its notified sells.
 - b. The settlement limit of each Participant, which is equal to the total monetary value of its notified buys.
 - c. The priority ranking of Participants, whose buys take precedence in settlement. Priority in settlement is given:
 - (i) during stage A of the first cycle, to the buys of the Participant with the highest coverage limit,
 - (ii) during Stage B of the first cycle and in each subsequent cycle, to the buys of the Participant with the highest cash amount blocked at the Cash Settlement Agent.
5. If Participants have the same priority based on the criterion of instance c), par. 4, precedence is given to the Participant randomly selected by the algorithm.
6. ATHEXCSD may, on the instructions of the Market Infrastructure Operator, carry out Phase B of each settlement stage or cycle by simultaneously settling (batch settlement) the notified buys of more than one Participant occupying the top positions in the priority ranking.
7. In each cycle, ATHEXCSD endeavours to settle buys by applying the priorities of instance c), par. 4 and of par. 5. Each Participant may receive settlement for its buys up to a maximum of its settlement limit, provided the latter is equal to or less than its coverage limit.
8. Among the buys of a Participant or group of Participants during Phase B of each cycle, priority is given to the one involving the greatest quantity of Securities for settlement. During Phase A of each cycle, priority is assigned at random by the algorithm.

9. Among the sells of Participants which have been analysed, settlement priority is given to the sell whose quantity of securities is nearest in number to the quantity of the buy pending settlement.
10. A trade (buy or sell) may be settled in more than one settlement cycle. The cost of a bought or sold Security is deemed to be the monetary value corresponding to the quantity of Securities settled each time per cycle.
11. At the end of each cycle in which a Cash Settlement Agent participates, ATHEXCSD, on the instructions of the Market Infrastructure Operator, credits the Cash Settlement Account of the Participant (payment) with that part of the cost of its settled sells which was not offset against the cost of its notified buys. This payment shall be made only if the total value of the Participant's sells exceeds the total monetary value of its buys and up to the amount of such difference.
12. ATHEXCSD allows for the partial settlement of settlement instructions provided that this is requested in accordance with the rules of the Market Infrastructure Operator.
13. ATHEXCSD carries out an annual assessment of the cases in which partial settlement is applied or the 'Hold' or 'Release' condition is used, subject to the provisions of paragraph 2, article 12 of Regulation (EU) 2018/1229.²⁵

4.3.2.3. Bilateral settlement

1. ATHEXCSD carries out bilateral settlement on the basis of the relevant algorithm of the Market Infrastructure Operator in respect of transactions in Securities which are submitted by the latter in cases of pre-agreed trades that are carried out and cleared, as applicable, with the bilateral procedures of the Market Infrastructure Operator, subject to the following conditions:
 - a) Settlement instructions must contain the mandatory data of article 5.2, Part 5 of this Section.
 - b) Settlement instructions are not required to contain the optional settlement instruction data of article 5.3, Part 5 of this Section.
 - c) Settlement instructions do not contain the 'Hold' condition or 'Release' condition of article 5.4, Part 5 of this Section, unless otherwise stipulated in the rules of the Market Infrastructure Operator, such as in the case of settlement of article 4.5, Part 4 of this Section.
 - d) Settlement instructions are matched on the basis of the systems of the Market Infrastructure Operator and the rules of the relevant Trading Venue, without application of the terms of article 5.5, Part 5 of this Section.
 - e) Settlement instructions may not be modified in accordance with article 5.6, Part 5 of this Section, unless otherwise stipulated by the specific rules of the Market Infrastructure Operator.

²⁵ After par. 11 of article 4.3.2.2, new paragraphs 12 and 13 were added as above by virtue of decision 324/28.01.2022 of the Board of Directors of ATHEXCSD with effect as of 01.02.2022.

- f) Settlement instructions may not be cancelled in accordance with the procedure of article 5.7, Part 5 of this Section, unless otherwise stipulated by the specific rules of the Market Infrastructure Operator.
- g) Settlement instructions are settled subject to the terms of article 4.3.2, Part 4 of this Section.
- h) Settlement instructions are settled in settlement cycles subject to the terms of article 5.9, Part 5 of this Section.

- j) Market Infrastructure Operators and their Members, as Participants in the DSS, receive updates about settlement instructions and the monitoring of their execution, in accordance with article 5.11, Part 5 of this Section.²⁶

2. Bilateral settlement is also used for transactions subject to mandatory cancellation on the basis of the applicable law in each case, such as in accordance with article 29 of Law 2579/1998.

3. In cases of pre-agreed trades conducted for the purpose of meeting clearing obligations in accordance with the provisions of the Rulebooks of the Market Infrastructure Operator, settlement is carried out on the same day (T+0).

4. ATHEXCSD allows for the partial settlement of settlement instructions provided that this is requested in accordance with the rules of the Market Infrastructure Operator.²⁷

4.4.2. Standard settlement services in respect of Derivatives Market Infrastructures

4.4.2.1. General terms

1. With regard solely to the cash leg, settlement is performed on a netting basis per Participant and Cash Settlement Account. More specifically, the cash claims and corresponding obligations, as these arise per currency in accordance with the admission characteristics of the relevant Derivatives and per Participant, are subject to netting, provided they are settled on the same settlement day. These do not include cash settlement obligations and corresponding rights which are settled with simultaneous delivery of the underlying asset on the basis of the 'delivery versus payment' method.²⁹

2. In the case of standard services, provisions corresponding to those of par. 3 to 5 of article 4.3.2.1 also apply.

4.4.2.2. Multilateral settlement

1. ATHEXCSD performs every type of settlement in respect of Derivatives, regardless of whether they are settled by cash settlement only or with delivery of the underlying asset, by applying the 'delivery versus payment' method.³⁰

2. The settlement of derivatives which, on maturity, are settled by delivery of the underlying Security against payment of the cost, is carried out through the DSS, on the basis of the Settlement File and/or individual settlement instructions of the Market Infrastructure Operator to ATHEXCSD, upon maturity or exercise of a right by withdrawing the Securities to be delivered from the Securities Account declared on behalf of the person having the delivery obligation and transferring them, through the Securities Settlement Account of the Market Infrastructure Operator, to the corresponding Securities Account declared on behalf of the person entitled to receive them or by their direct transfer from and to the above Securities Accounts and

4.4.2.3. Bilateral settlement

ATHEXCSD carries out bilateral settlement on the basis of the relevant algorithm of the Market Infrastructure Operator in respect of transactions in Derivatives, applying procedures corresponding to those of article 4.3.2.3.

4.4.3. Standard settlement services in respect of transactions in Securities Financing Agreements

1. The settlement of transactions in Securities Financing Agreements which are carried out or cleared, as applicable, through a Market Infrastructure Operator to which relevant services are provided in accordance with Section VI, is conducted by ATHEXCSD on the basis of the settlement instructions of the Market Infrastructure Operator in accordance with the provisions of the following paragraphs.

2. The transfer in the DSS of Securities from a Securities Account, which has been declared on behalf of the person having the delivery obligation, to the Securities Account of the Market Infrastructure Operator, in fulfilment of obligations arising from a Securities Lending Agreement of par. 1 or the exercise of repurchase or reverse repurchase rights and in general of retransfer relating thereto may be carried out in either of the following two ways:

- a) The Participant, under whose management the Securities to be delivered are recorded, makes a declaration of their delivery by electronic means through the DSS, designating them as “available in favour of Market Infrastructure Operator”. The Market Infrastructure Operator then directly withdraws the aforesaid Securities designated as above and transfers them to its Securities Account.
- b) The Securities are transferred directly by electronic transaction on the part of the aforesaid Participant in the DSS from the Securities Account declared on behalf of the person having the delivery obligation to the Securities Settlement Account of the Market Infrastructure Operator.

3. The transfer of Securities from the Securities Account of the Market Infrastructure Operator to the Securities Account declared on behalf of the person entitled to receive them for the settlement of the Securities Financing Agreement is carried out by ATHEXCSD, which directly credits the Securities Account declared on behalf of the beneficiary. The credited Securities are automatically blocked by the DSS in favour of the Market Infrastructure Operator in a “delivery by Market Infrastructure Operator” balance, under the management of the Participant acting on behalf of the person entitled to receive delivery. Securities that are blocked in accordance with the above may either be designated as available or returned compulsorily to the Securities Account of the Market Infrastructure Operator on the instructions of the Market Infrastructure Operator.

4. For the purposes of carrying out the above transfers, the Market Infrastructure Operator specifies by electronic means through the DSS the quantity and type of securities being delivered,

the Participant that is obliged to make delivery on behalf of the person having the delivery obligation and the date of transfer in the DSS.

5. The Market Infrastructure Operator keeps two balances for information purposes in the Securities Accounts declared on behalf of the persons obliged to deliver Securities and the persons entitled to receive them, which enter into Securities Financing Agreements as follows:

- a) "Securities owed" balance: the progressive total of Securities which have been bought for the person entitled to receive them with a Securities Financing Agreement and must be returned in accordance therewith.
- b) "Securities expected" balance: the progressive total of securities which have been sold on behalf of the person that has the delivery obligation with a Securities Financing Agreement and is entitled to receive in accordance therewith.

6. If the Securities Financing Agreement is concluded and settled on the business day following the day set as settlement day for the unsettled transaction, the securities delivered in execution thereof shall retain all the rights they had on the aforesaid settlement according to the data recorded by the Market Infrastructure Operator in the DSS.

7. With regard solely to the cash leg, settlement is performed on a netting basis per Participant and Cash Settlement Account. More specifically, the cash claims and corresponding obligations, as these arise per currency in accordance with the admission characteristics of the relevant Securities Financing Agreement and per Participant, are subject to netting, provided they are settled on the same settlement day. In other respects, corresponding terms to those set out in par. 3 to 5 of article 4.3.2.1 shall apply.

4.5. Settlement of Trading Venue transactions through Provisional Intermediary Accounts – Fail rectification

1. For the needs of settlement in respect of beneficiaries of transactions, which are carried out through a Trading Venue in the name of Intermediaries and on behalf of the beneficiaries, Participants may maintain Provisional Settlement Accounts. In such cases, the settlement of Securities is carried out on the basis of the settlement instructions of the Intermediary itself as Participant or through another Participant, which maintains the relevant Provisional Settlement Account, between it and the Securities Accounts declared for the beneficiaries for settlement purposes.

2. The settlement instructions of par. 1 are executed in the DSS before and after each cycle of settlement of the trades to be settled which have been carried out in the name of the Intermediary on the Trading Venue.

3. The Intermediary links the Provisional Settlement Account to the Securities Settlement Account it maintains in its same Share in the DSS.

4. Securities of Securities Accounts of the same Share maintained by the Intermediary may be transferred on the basis of settlement instructions to the Provisional Settlement Account of the

Intermediary for fulfilment of the relevant obligations of delivery to beneficiaries, either to supplement the quantity of Securities owed or in fulfilment of an overdue obligation of delivery to them.

5. The settlement of transactions of par. 1 may also be performed with the successive use of more than one Securities Account declared on behalf of beneficiaries on the basis of corresponding settlement instructions.

6. If the Provisional Settlement Account of the Intermediary at the end of the time period set by the Market Infrastructure Operator and in any event at the end of the settlement day has a balance of Securities, these are automatically transferred, on the relevant instructions of the Market Infrastructure Operator to the DSS, to the Securities Account of the own Share of the Intermediary which it is linked in accordance with par. 3 to its Provisional Settlement Account.

7. The execution of settlement instructions between the Intermediary and beneficiaries is carried out in the DSS, on the basis of Settlement Files of the Market Infrastructure Operator submitted to ATHEXCSD subject to the terms of article 4.3.2.3, Part 4 of this Section.³¹

8. Settlement instructions involving transfers of Securities between Provisional Settlement Accounts of Intermediaries and the corresponding Securities Accounts declared for beneficiaries must have the same settlement date (SD) as the date of the transactions to which they relate in accordance also with the provisions set out in the rules and regulations of the Market Infrastructure Operator.

9. In the event that the settlement of an Intermediary's transaction is completed with its own funds, in accordance with the data of the Settlement File transmitted by the Market Infrastructure Operator to ATHEXCSD, for the purposes of fail rectification between it and beneficiaries, settlement instructions may be entered in the DSS which, on the responsibility of the Intermediary, must be specified as follows:

- d) they must state the serial number (s/n) of the transaction order and the settlement date of the relevant transaction to which the fail rectification applies.

³¹ Par. 7 of article 4.5 was replaced as above by virtue of decision 324/28.01.2022 of the Board of Directors of ATHEXCSD with effect as of 01.02.2022.

In the event that the Securities are not delivered on the settlement date of point b), the settlement instructions entered for such delivery are considered cancelled on the initiative of the Intermediary and the beneficiary.³²

4.6 Settlement of Trading Venue transactions through Provisional Settlement Accounts of Members – Fail rectification

In the event that the settlement of a transaction carried out through a Trading Venue is completed with the use of a Provisional Settlement Account of a Member Share which belongs to a Member in accordance with the data of the Settlement File transmitted by the Market Infrastructure Operator to ATHEXCSD, for the purposes of fail rectification between the Member and the client, for which the relevant transaction was carried out, settlement instructions may be entered in the DSS which, on the responsibility of the Member, must be specified as follows:

- a) they must stipulate "fail rectification" as the operation reason, in accordance with the technical specifications set by ATHEXCSD,

In the case of cash claims of the Participant, resulting from its own transactions, against ATHEXCSD, these shall be set off against its obligations to pay the aforesaid fines. Imposition of the said fines shall be without prejudice to any claim of ATHEXCSD for compensation for a loss caused to it by the Participant.
