**24/02/2022**

## **Honorary distinction for Space Hellas from Rittal**

Space Hellas was awarded by Rittal, with the "RITTAL PARTNER AWARD 2021" in the "Top Performer and Growth" category, during an internet event conducted by the company for its partners.

Space Hellas was distinguished as "Top Performer and Growth" for its performance in 2021 in the implementation of projects for the supply and installation of infrastructure equipment, in Data Centers.

Rittal is one of the largest manufacturers of IT infrastructure systems, power distribution, air conditioning and integration software, with a worldwide presence in more than 75 countries.

Rittal's wide range of product solutions covers the housing, cooling, and monitoring needs of IT equipment of organizations regardless of size and needs. In this way, any compatibility issues between equipment are minimized, while at the same time Rittal's ability to deliver its equipment in a very short time, significantly reduces the implementation schedule of a project.

Space Hellas is among the "Certified IT Partners" of Rittal. The two companies maintain a long-term relationship while in recent years they have further developed their strategic cooperation, aiming to offer the market complete and certified state-of-the-art Data Center infrastructure solutions, both in Greece and abroad.
