Item 13: a) Activation of the provisions of article 27A, L. 4172/2013 (“DTC”), building up of special reserve, free issuance of warrants for common shares in favor of the Greek State, increase in share capital through the capitalization of the special reserve and the respective amendment of article 5 of the Articles of Association regarding Share Capital and granting to the Board of Directors the authority to undertake all necessary actions.

b) Reduction of the Company’s share capital through a reduction of the nominal value of each share for the purpose of building up a special reserve pursuant to article 31, par. 2, L. 4548/2018,

relevant amendment of article 5 of the Bank's Articles of Association regarding Share Capital and granting of relevant authorizations to the Bank's Board of Directors.

a) The Bank, following the resolutions of the General Meetings of 06.07.2015 and 22.11.2015 was subject to the special framework of article 27A of Law 4172/2013, as amended, for the conversion of deferred tax assets (DTA) to an amount receivable as cleared and settled claim against the Greek State on the following occasions:

- Deferred tax on the amount of accumulated provisions from credit risk.
- Deferred tax on the remaining amount of a debit difference resulting from the depreciation of Greek Government Bonds.

The balance of the two aforementioned categories on 30.06.2015 is stated in the financial statements submitted to the General Meeting for approval, as well as the deferred tax asset, after the annual depreciation, from 2011 until 31.12.2021 and after the activation of the provisions of article 27A in the fiscal year 2020 and the collection of the amount of €151,854,439.86. The accounting result after taxes for the fiscal year 2021 is loss, according to the legally audited and approved corporate financial statements from the Bank's Ordinary General Meeting of shareholders. With the activation of the provisions of article 27A of the aforementioned Law, as amended, a conversion of the deferred tax assets on temporary differences to receivables that have been identified as clear and settled claims against the Greek State takes place. The amount of the cleared and settled claim is determined by multiplying the total amount of the deferred tax asset stipulated by the percentage represented by the accounting loss after taxes for the fiscal year on total equity, as the latter is stated in the Bank's annual financial statements that have been drafted for the same fiscal year, not including the accounting loss for the fiscal year [Tax Asset = Amount of the Deferred Tax Asset in financial statements x accounting loss after tax for the fiscal year/(equity - accounting loss after tax for the fiscal year)] and amounts to € 22,817,998.42

Taking into account that the accounting result after taxes for the year 2021 is a loss, according to the legally audited and approved corporate financial statements by the ordinary general meeting of the Bank's shareholders and for the purposes of implementing the above the BoD proposes again to the General Meeting the activation of the provisions of article 27A of L.4172/2013, as amended, by converting deferred tax claims on temporary differences into final and settled claims against the Greek State, the formation of a special reserve (equal to 100% of the tax asset) intended exclusively for the increase in share capital, the free (without remuneration) issuance of warrants in favor of the Greek State (that are equivalent to common shares of a total market value equal to one hundred per cent (100%) of the cleared and settled tax claim, while as market value means the average of their stock exchange price, weighted on the volume of transactions during the previous thirty (30) working days from the date when the aforementioned tax asset becomes receivable (par. 2 last sub. par. of L.4172/2013)), the conversion - without remuneration - of warrants into common shares through the capitalization of the special reserve and the respective amendment of article 5 of the Articles of Association regarding Share Capital.

The existing shareholders can exercise their redemption right regarding conversion rights. In this way,

shareholders have the option to maintain their participation percentage by paying the relevant cost to the Greek State.

The exercise of the redemption right by the existing shareholders is performed at the redemption price, by submitting an application to the Custody Department of the Bank, within a period decided by the regular general meeting and which cannot be less than fifteen (15) days and exceeds thirty (30) days from the date of issue of warrants. The Board of Directors proposes to the General Meeting to set as a period of time within which the existing shareholders can exercise the right of redemption of warrants of five (5) working days, which will begin on the first working day after the expiration of fifteen (15) days from the date of issue of the warrants, with payment of the redemption price at the same time as the exercise of the right and to be authorized to be able to modify the above time intervals according to the evolution and the requirements of the process.

The acquisition of conversion rights, the exercise thereof, the exercise of call option and the transfer thereof do not constitute a public offering.

The aforementioned warrants that will be converted to common shares can be also issued above par and can be freely transferred by the holders thereof.

According to article 7 of the Cabinet Act 28 / 06.07.2021: *"1. After the expiration of the total deadline provided in article 6 of this Act, the warrants are transferable securities within the meaning of par. 44 of article 4 of law 4514/2018 (A '14) and circumstance e of par. 3 of article 1 of law 3371/2005 (A '178) and are freely transferable and negotiable in a regulated market. 2. The warrants are admitted to trading on a regulated market, within the meaning of par. 21 of article 4 of law 4514/2018 at the request of the legal entity, together with the required supporting documents, if this is allowed by the rules of the regulated market. The commencement of trading of warrants takes place at the redemption price of each warrant, as specified in paragraph 2 of article 6 of this Act within a period decided by the board of directors of the legal entity and which may not be less than five (5) days and exceed the fifteen (15) days from the expiration date of the redemption period, as specified in Article 6 of this Act. The trading of the securities ends within fifteen (15) days from the date of the start of their trading. The listed warrants shall be kept and transferred in accordance with the terms and procedures of the relevant central repository where they are held and of the regulated market in which they were traded."*

Furthermore, the Board of Directors proposes to the Ordinary General Meeting of shareholders the granting of authority to the Bank's Board of Directors so that the latter may undertake all necessary actions in order to implement the above as well as to specify the special conditions and the timetable of DTC activation and implementation, the Share Capital Increase with capitalization of special reserve and the relevant amendment of Article 5 of the Articles of Association of the Bank such as to determine the market value and the number of warrants and to take all the necessary actions for the issuance, admission to trading and conversion of securities.

The Board of Directors notifies the General Meeting that the issues related to the implementation of the mechanism, such as monitoring and certification of the annual balance of the definitive receivable of the cleared and settled claim against the Greek State that has not been set-off, the method of payment to the

Bank, whether in cash or in cash equivalent, as defined in Standard 7 of the International Accounting Standards, the main terms governing conversion rights, the transfer thereof, the transfer value, the time and process of exercising the redemption right by the shareholders, the time when these become tradable in a regulated market, etc. are specified in No 28/6-7-2021 Cabinet Act as amended by No 34/28-08-2021 Cabinet Act.

b) As mentioned, the market value of the warrants and the corresponding shares means the average of their stock price weighted based on the volume of transactions, during the previous thirty (30) working days from the date the tax claim becomes receivable (paragraph 2 last sub. par. of law 4172/2013). Furthermore, the shares corresponding to the documentary titles can be issued in favor of the par value (article 5 par. 6 of act no. 28 / 6-7-2021 of the Cabinet Act), and it is not possible to issue them under the par value.

The nominal value of the Bank's value as at 30.06.2022 amounts to € 0.20.

The average stock price of the share weighted based on the trading volume, during the previous thirty (30) working days with reference date as of today is calculated at 0.08. Therefore, it becomes necessary to reduce the nominal value of each share (and consequently of the share capital) in order to allow the issuance of warrants in favor of the State and their conversion into shares, in the context of activation of the provisions of article 27A of L. 4172/2013 ("DTC"), at par without equity shares being issued.

Taking into account the above calculation and in order to cover the abovementioned average of the stock market price under current data, and after receiving relevant opinions from an external legal advisor, the Board of Directors recommends to the Ordinary General Meeting of shareholders the reduction of the Bank's share capital by amount of €159,149,827.85 by reducing the nominal value of each share from €0.20 to €0.07, with the aim of forming an equal amount of special reserve amount according to article 31 par.2 of L. 4548/2018, as amended , accordingly amending article 5 of the bank's articles of association regarding share capital.

The aforementioned corporate deed does not create any cost and, therefore, does not have any impact on the Bank's profitability and does not change its total regulatory capital in any way.

Furthermore, the Board of Directors proposes to the Ordinary General Meeting of shareholders the granting of authority to the Bank's Board of Directors so that the latter may undertake all necessary actions in order to implement the aforementioned corporate deed.

As a consequence of the above change in the share capital of the Bank, the Board of Directors proposes the amendment of article 5 by adding a new paragraph at the end of said article of the Articles of Association as follows and based on the amounts decided by the General Meeting: *« According to the resolutions of the Ordinary General Meeting of shareholders of 05.07.2022, the reduction of the Bank's share capital by the amount of € 159,149,827.85 was approved, through a reduction of the nominal value of each common share from € 0.20 to € 0.07, without change of the total number of common shares, with the aim of forming an equal amount of special reserve, in accordance with article 31 par. 2 L. 4548/2018. After the above, the total share capital of the Bank amounts to Euro 85,696,061.15 and*

is divided into 1,224,229,445 common, registered shares, with a nominal value of seven euro cents (€ 0.07) each. »
