2. Content		
2.1 Market reality BMR27(1)(a)	The benchmark statement shall clearly and unambiguously define the market or economic reality measured by the benchmark and the circumstances in which such measurement may become unreliable.	<p>The Hellenic Corporate Bonds Indices include bonds issued by Greek companies, by their subsidiaries domestic or foreign, and by foreign companies operating in Greece listed or not in Regulated Markets.</p> <p>The purpose of this index family is to be a useful tool for measuring the performance of Hellenic corporate bonds that will be widely used by institutional investors, mutual fund managers and professional consultants. These bonds are either listed on the Regulated Market or are traded in Multilateral Trading Facilities (MTF) abroad or are listed on Regulated Market or traded on Multilateral Trading Facilities (MTF) of Athens Stock Exchange.</p> <p>The eligibility criteria for participation in the composition of the Greek Corporate Bonds Indices are described in detail in the Ground Rules for the Management of Hellenic Corporate Bond Index.</p> <p>Inaccuracies may arise as a result of a range of events, including the complexity of certain corporate events, late announced, pricing errors, external disruptions or market distortions, incorrect, incomplete or late data input whether occurring internally or externally to ATHEX, and incorrect application of index eligibility criteria.</p>
2.2 Use of discretion BMR27(1)(b)	The benchmark statement shall lay down technical specifications that clearly and unambiguously identify the elements of the calculation of the benchmark in relation to which discretion may be exercised, the criteria applicable to the exercise of such discretion and the position of the persons that can exercise discretion, and how such discretion may be subsequently evaluated.	<p>The methodology of the Hellenic Corporate Bonds benchmarks calculation is described in detail in the Ground Rules for the Management of Hellenic Corporate Bond Index which are written with the intent of removing the need for judgement or discretion to be exercised in so far as is feasible.</p> <p>There is no discretion in calculating them.</p> <p>In case of non-application of some of the rules, the process of exercising discretion and expert judgment takes place.</p> <p>The ATHEX Index Oversight Committee oversees this process and the Hellenic Corporate Bond Advisory Committee provides advice on dealing with problems or malfunctions related to the management of indices to the ATHEX Index Oversight Committee which decides and approves.</p>
2.3 External factors BMR27(1)(c)	The benchmark statement shall provide notice of the possibility that factors, including external factors beyond the control of the administrator, may necessitate changes to, or the cessation of, the benchmark.	<p>ATHEX has the primary responsibility for all aspects of the process of management regarding the indices it calculates. ATHEX has automated electronic systems and infrastructures for calculating the indices and disseminating their prices in real time and makes every effort to maintain its indices to high standards.</p> <p>Nevertheless, inaccuracies may arise in the index and constituent data from time to time and investors, index constituents, licensees or other market participants should be aware of this. In such case, ATHEX has defined the "Index Recalculation Guidelines" procedure which applies to stock market indices always in relation to the Ground Rules for the Management of Hellenic Corporate Bond Index.</p> <p>The guidelines outlining the procedure to be followed when considering decommissioning an index or index series that ATHEX provides independently or in cooperation with other index compilers, institutional associations and companies are described in the procedure of "Decommissioning an Index or Index Series".</p> <p>When contemplating the decommissioning of an index or an index series, ATHEX considers a number of matters before reaching a decision to decommission an index or index series.</p> <p>ATHEX index methodologies are subject to review to ensure that they continue to meet the current and future requirements of investors and other index users and lead global standards in indexing.</p> <p>Proposals to modify an index calculation methodology are submitted to the relevant Index Advisory Committee - for each family of indices that ATHEX provides - which advises or gives guidelines for changes to the rules for managing and calculating indices, where final approval is given by the ATHEX Index Oversight Committee.</p>
