## **Announcement for the Annual Presentation to Analysts of the Financial Results of EYATH Group for the year 2022**

---

On Friday 21 April 2023 at the Stock Exchange Center, Katouni 16-18 in Thessaloniki at 11 a.m., the annual presentation of the financial results of EYATH SA Group for the financial year 2022 was held.

The results were presented by the Chairman of the Board of Directors, the CEO and the CFO of EYATH SA.

The macro-environment of the last two years, which was characterized by high uncertainty, geopolitical developments and high energy costs, was referred to by the Chairman of the Board of Directors, Mr. Agis Papadopoulos, stressing that "at EYATH we demonstrated flexibility and adaptability, we designed and implemented projects for energy saving and self-generation and we achieved a 9.2% reduction in consumption, with a corresponding reduction in CO<sub>2</sub> emissions. Despite the high energy costs and subsequent losses in FY 2022, we managed to keep consumer tariffs stable and protect economically vulnerable groups, consistently moving towards the goals of sustainability, resilience and social cohesion."

The Managing Director, Mr. Anthimos Amanatidis, referred to the significant increase in investments, the practical initiatives in the triptych of sustainable development and the memoranda of cooperation with the local government and with foreign water supply companies. Further emphasis on the above issues was given to the "green investments" that are being implemented or are in progress, aiming at reducing energy and protecting the environment, the company's expansion opportunities through partnerships and exchange of know-how, the conclusion of a bilateral contract (PPAs) within 2023 for the supply and consumption of energy from renewable sources and the reduction of energy costs, as well as social solidarity through support for organizations and vulnerable groups.

The financial and comparative data were then presented in detail by the Director of Finance Mr. Dimitris Alexandris.
