

**PRESS RELEASE**

**Protergia keeps electricity prices stable in September to benefit consumers by absorbing the increasing energy costs**

**Athens, Greece – 28 August 2024** – In September, which marks the third consecutive and final warm month when prices note the highest upward pressure, an integral part of METLEN Energy & Metals, with respect to all consumers, will keep the final electricity prices stable, at the same level as those that were in effect in July and August.

The following comparative table presents Protergia's prices for September for household consumers, in comparison to July and August:

	July 2024	August 2024	September 2024
<b>Protergia's Prices of Variable Residential Tariffs (€/MWh)</b> <i>This does not include fixed assets which remain unchanged</i>	Protergia's Final Price	Protergia's Final Price	Protergia's Final Price
Protergia Home Value Special (Special Tariff)	159.9	159.9	159.9
Protergia Home Value Simple	136.7	136.7	136.7
Protergia Home Value Easy	90.9	90.9	90.9
Protergia Home Value Fair	134.0	134.0	134.0

If the Ministry of Environment and Energy decides to subsidize consumers, this amount will be deducted as such from these prices.

Consequently, Protergia values the loyalty of its customers and strives to make an important contribution to relieving households and businesses from the increased energy costs.

Protergia's strategic priority is to provide confidence and security to its customers, both new and existing, with competitive products and services and, of course, the reliability of METLEN Energy & Metals, supporting the entire energy market.

**METLEN Energy & Metals:**

METLEN Energy & Metals – evolution of MYTILINEOS Energy & Metals - is a multinational industrial and energy company, a leader in the metallurgy and energy industries, focused on sustainability and circular economy. The Company is listed on the Athens Stock Exchange, with a consolidated turnover and EBITDA of €5.492 billion and €1.014 billion, respectively. METLEN is a reference point for competitive green metallurgy at the European and global level, whilst operating the only vertically integrated bauxite, alumina and primary aluminum production unit in the European Union (E.U.) with privately owned port facilities. In the energy sector, METLEN offers comprehensive solutions, covering thermal and renewable energy projects, electricity distribution and trading, alongside investments in grid infrastructure, battery storage, and other green technologies. The Company is active in the markets of all five continents, in 40 countries, adopting a full-scale synergetic model between the Metallurgy and Energy Sectors, while undertaking end-to-end development of major energy infrastructure projects.

METLEN, through Protergia, is active in the supply of Electricity and Natural Gas, offering modern and reliable services and combined electricity and natural gas products, with more than 500,000 supplies throughout the country.

Protergia is also the largest energy producer in Greece, with total production from both thermal and renewable plants amounting to 2.2 TWh, which corresponds to 18% of total demand.

The sophisticated way we offer our products shows the future of energy and opens a new path with new possibilities for thousands of homes and businesses.

A road full of possibilities where anything can become a reality.
