## **BOARD OF DIRECTORS' INTERIM MANAGEMENT REPORT**

(According to Greek Law 3556/2007)

During the first half of the year 2008, the conditions in the international capital markets and especially in the banking sector were adverse, since the credit turmoil that was initiated in mid 2007 and was driven by mortgage market crisis in the US, continued. The fluctuations that characterized the banking sector were accompanied by the intensification of inflationary pressures at macroeconomic level in the past months, due to the severe increase in oil and food prices that aggravated an already uncertain atmosphere. The international economy, however, seems more resilient than initially expected, mainly due to the contribution of the emerging economies, with an expected growth rate at approximately 4% for the full year, according to the latest International Monetary Fund forecasts.

Amidst these conditions, the Greek banking system continues its course of growth of the past years, leveraging on the dynamics of the wider geographical area where it operates, while at the same time assessing possible risks and taking the necessary measures. Within this framework, Piraeus Group operates with commitment to its objectives and with great attention to the implementation of its plan, so as to accompany profitability targets with continuous improvement of the loan portfolio quality, maintenance of high levels of liquidity and capital adequacy, as demonstrated in fact in the previous guarters.

Hence, in the first half of 2008 the Group showed positive performance. The Group's total assets exceeded €51 bn, while net profit was increased by 30%\*, reaching €284 mn. After tax basic earnings per share, following the Bank's recent share capital increase and based on the adjusted average number of shares in issue, rose to €0.87 versus €0.79\* last year. More specifically, the increase of net interest income was 35% reaching €556 mn and net commission income 19% at €127 mn. Both of these two sources of recurring profitability constituted 81% of the Group's net operating revenues for the first half of 2008.

At the same time, the Group's effort to balance the growth of operations is bearing results and deposits and loans showed an equivalent increase of €5.6 bn from the beginning of the year until the end of June 2008. Thus, for the third consecutive quarter since the beginning of the credit turmoil, the Group managed to cover the increase in loans in absolute numbers- with the increase in deposits.

The abovementioned fact in conjunction with the €0.8 bn third issue of Piraeus Bank's residential mortgage backed securities, that was completed in April 2008, the expansion of interbanking funding sources, along with targeted policies that were developed, such as the selected expansion of the branch network, new deposit products, marketing initiatives, as well as the beginning of operations in Cyprus, led the Group's liquidity at a historically high level, over €3 billion, while the Group's capital base remains strong.

Regarding the performance ratios, the net interest margin on average interest earning assets was retained at 3.0%, return on equity was 18.3%, return on assets at 1.2%, while the efficiency cost to income ratio improved, reaching 48.8% compared to 51.0%\* in the first half of 2007.

Analyzing the evolution of the Group's volumes, the increase in deposits including retail bonds on an annual basis reached 43% at €30 bn and the loans grew 42% at €36 bn. Since the beginning of the year, the growth rates were 24% and 18% respectively. The acceleration of deposits contributed to the further improvement of the loan to deposit ratio, which was at 121% at the end June 2008 as opposed to 127% at the end of 2007. The increase in loans on an annual basis was moderated from 48% in December 2007 and March 2008 to 42% at the end of June 2008, in the context of a more cautious expansion of portfolios both in Greece and abroad, but still above the average annual growth rates that were considered in the Group's Business Plans Plan for the period through to 2010 (average annual growth in Group loans from 2008 to 2010 at 26%).

The contribution of the figures from international operations were decisive during the first half 2008 as well. The Group is currently present in 9 countries: more specifically the deposits originating from the Group's international activities showed an annual increase of 86% reaching €4,890 mn, while loans showed an annual growth rate of 88% reaching €8,046 mn. The contribution of international operations in the Group's figures was at 17% for deposits and 22% for loans at the end of June 2008, versus 14% and 20% respectively at the end of 2007.

It should be noted that the expansion of the Group's branch network continued during the first half year of 2008, and reached 832 units, 343 of which in Greece and 489 abroad. During the first half of the year, 88 new branches were added to the Group, 23 in Greece and 65 abroad. Included are 12 branches of the Group's new subsidiary in Cyprus, which began operations in 2008 with very positive results in acquiring new deposits (€910 mn at the end of June 2008). The contribution of the new branch network was once more significant in achieving the Group's high growth rates, along with the contribution of the more mature in years of operation branch network, which is performing faster than the market.

As mentioned afore, Piraeus Group attaches special attention to and importance on the retention of the traditionally positive asset quality ratio. Thus, loans in arrears more than 90 days according to the stricter framework of the International Financial Reporting Standards, represented 3.3% of loans versus to 3.4% in December 2007. Equally satisfying was also the level of the capital adequacy ratio according to the supervisory framework of Basel II, which was at 10.5% (estimate), with Core Tier I at 8.5% (estimate).

<sup>\*</sup> excluding the one-off trading gain of first half of 2007

Additionally, it is worth mentioning that during the first half of 2008 and following the relevant resolutions of the Shareholders' General Meeting and the Bank's Board of Directors, 10,407,537 treasury shares were cancelled, while 752,478 new ordinary shares were listed, resulting from the reinvestment of the 2007 dividend.

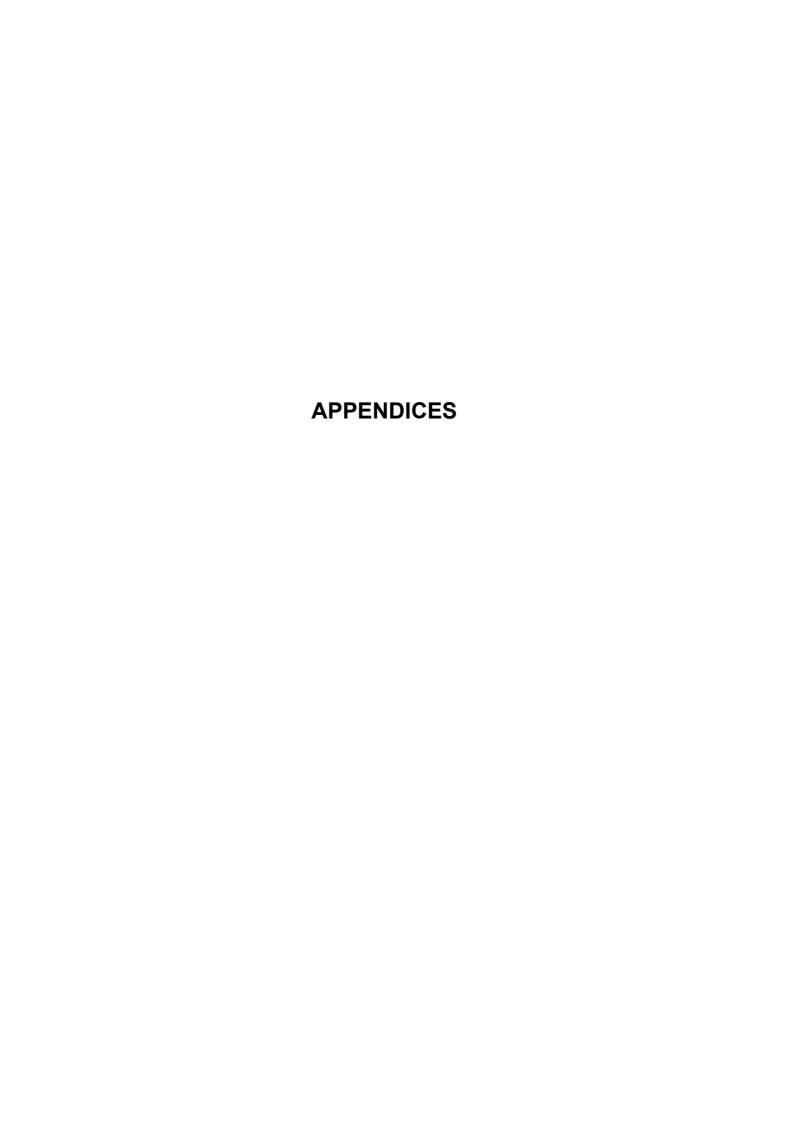

Regarding the related party transactions of the Bank, such as members of Board of Directors and Management of the Bank and subsidiaries, it is noted that these were not significant for the first half 2008, in any case these are included in the Group's financial statements.

With the aim to continue the positive performance and the implementation of its business plan, Piraeus Group will continue its course into the second half 2008, monitoring closely the developments in the economic environment, while focusing on sustaining the qualitative elements characterizing the Group: liquidity, capital adequacy, asset quality, and reduction of cost to income ratio.

The times we are going through are not cloudless. On the contrary: they present many challenges, featured by changing conditions with fluctuations in the development of markets and macroeconomic indices and a combination of factors, that require close attention in order to manage them effectively. Being a banking institution, and in fact a bank well established in the middle sized market for businesses and households, Piraeus Group makes significant adjustments to its development policy, depending on the economic developments and mainly the course of economies, both in Greece and in the various countries it conducts business, and of course the conditions in the European and international economy environment.

The outlook for 2008 regarding the macroeconomic data of the Group's wider area of operations is encouraging. However, we are closely monitoring developments and we take any necessary actions. We are optimistic as far as the accomplishment of our business plan is concerned and dedicated to its implementation, for the benefit of our shareholders, employees and customers.

## 2 General accounting policies of the Group

The same accounting policies and methods of computation as those in the annual consolidated financial statements for the year ended 31 December 2007 have been followed.

The amounts of the consolidated interim condensed financial information attached are expressed in thousand euros (unless otherwise stated).

# 3 Basis of presentation of the consolidated interim condensed financial information

The consolidated interim condensed financial information has been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting" and it should be read along with the Group's annual consolidated financial statements for the year ended 31 December 2007.

## 4 Critical accounting estimates and judgements

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

# 1. Impairment losses on loans and advances

The Group examines, at every reporting period, whether trigger for impairment exists for its loans or loans portfolios. If such triggers exist, the recoverable amount of the loan portfolio is calculated and the relevant provision for this impairment is raised. The provision is recorded in the profit or loss statement. The estimates, methodology and assumptions used are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

# 2. Fair value of financial instruments

The fair values of financial instruments that are not quoted in active markets are determined by using valuation techniques. All models use observable data, however areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Assumptions that affect the reported fair values of financial instruments are examined regularly.

# 3. Impairment of available for sale investments

The available for sale portfolio is recorded at fair value and any changes in fair value are recorded in the available for sale reserve. Available for sale investments are impaired when there is significant or prolonged decline (judgement is required) in the fair value below cost. When this occurs, the relevant portion of the available for sale reserve is recycled to the income statement of the period. Judgement is also required for the estimation of the fair value of investments that are not traded in a market. For these investments, the fair value computation through financial models takes also into account evidence of deterioration in the financial health of the investee, industry and sector performance and changes in technology.

# 4. Securitisations and special purpose entities

The Group sponsors the formation of special purpose financing entities (SPEs) for various purposes including asset securitisation. The Group does not consolidate SPEs that it does not control. As it can sometimes be difficult to determine whether the Group does control an SPE, it makes judgements about its exposure to the risks and rewards, as well as about its ability to make operational decisions for the SPE in question. In many instances, elements are present that, considered in isolation, indicate control or lack of control over an SPE, but when considered together make it difficult to reach a clear conclusion. In such cases, the SPE is consolidated.

# 5. Held to maturity investments

The Group follows the guidance of IAS 39 on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held to maturity. This classification requires significant judgement. In making this judgement, the Group evaluates its intention and ability to hold such investments to maturity. If the Group fails to keep these investments to maturity other than for the specific circumstances - for example, selling an insignificant amount close to maturity - it will be required to reclassify the entire class as available for sale. The investments would therefore be remeasured at fair value.

# 6. Income taxes

The Group is subject to income taxes in the countries in which operates. This requires estimates in determining the provision for income taxes and therefore the final income tax determination is uncertain during the fiscal year. Where the final income tax expense is different from the amounts that were initially recorded, differences will impact the income tax and deferred tax provisions in the period in which the tax computation is finalised.

# 5 Business segments

Piraeus Bank Group has defined the following business segments:

**Retail Banking -** This segment includes the retail banking facilities of the Bank and its subsidiaries, which are addressed to retail customers as well as to small - medium companies (deposits, loans, working capital, imports – exports, letters of guarantees, etc.)

Corporate Banking - This segment includes facilities related to retail banking, provided by the Bank and its subsidiaries, addressed to large and maritime companies, which due to their specific needs are serviced centrally (deposits, loans, syndicated loans, project financing, working capital, imports-exports, letters of guarantees, etc.).

**Investment Banking -** This segment includes activities related to investment banking facilities of the Bank and its subsidiaries (investment advisory and stock exchange services, underwriting services and public listings, etc.).

Asset Management and Treasury – This segment includes asset management facilities for clients of the Group and for behalf of the Group (wealth management facilities, mutual funds management, treasury).

Other – Includes other facilities of the Bank and its subsidiaries that are not included in the above segments (Bank's administration, real estate activities, IT activities etc.).

An analysis of income and other financial figures per business segment of the Group is presented below:

Other business segments results for the first semester of 2007 include amount of € 159.3 million which relates to the sale of the Bank's participation in Bank of Cyprus.

Capital expenditure includes additions of intangible and tangible assets that took place in the period by each business segment.

Revenues and net revenues from other business segments include revenues and net revenues derived from transactions between business segments.

## 6 Gains less losses from investment securities

During the first semester of 2008, gains less losses from investment securities amount to € 17.5 million (30/6/2007: € 167.5 million). It should be noted that during the period 1/1 - 30/6/2007 gains less losses from investment securities include amount of € 159.3 million which derives from the sale of Piraeus Bank's participation in Bank of Cyprus (percentage 8.08%).

## 7 Income tax expense

	1st Semester 2008	1st Semester 2007
Current Tax	(45,768)	(29,957)
Deferred tax	(14,251)	(14,733)
	(60,019)	(44,690)

The tax rate for Greek legal entities, in accordance with the provisions in force of article 109, par. 1 of Law 2238/1994, is 25% for the years 2007 and 2008.

During the first semester of 2008 tax authorities have completed the audit of Piraeus Bank's tax position for the years 2004 - 2006. As a result, the tax years remaining unaudited are 2007 and the current year. The unaudited tax years of the subsidiaries and associates are included in note 12. For the unaudited tax years, a provision has been raised according to International Financial Reporting Standards (IFRS).

For the subsidiaries operating abroad, the tax has been calculated according to the respective nominal tax rates that was imposed in the fiscal years of 2007 and 2008 (Bulgaria: 10%, Romania: 16%, U.S.A.: 35%, Serbia: 10%, Ukraine: 25% and Egypt: 20%). The nominal tax rate in Albania has decreased from 20% in 2007 to 10% in 2008.

# 8 Earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to shareholders by the weighted average number of shares in issue during the period, excluding the average number of ordinary shares purchased by the Group and held as treasury shares.

For the calculation of the diluted earnings per share, all the dilutive potential ordinary shares are taken into consideration. The two share option schemes (note 17) are the only cases of dilutive potential ordinary shares for the Group. Specifically, the weighted average number of ordinary shares used for the calculation of the basic earnings per share is increased by the number of shares that arises from the comparison of a) the number of shares that would have been issued at fair value for the total consideration received from the exercise of the share options and b) the number of shares issued due to the exercise of the share options.

Basic earnings per share	1/1 - 30/6/2008	1/1 - 30/6/2007	1/4 - 30/6/2008	1/4 - 30/6/2007

Piraeus Bank's registered shares are at a nominal value of € 4.77 each. The share capital is fully paid-in.

During the Annual General Meeting of shareholders of the Bank at 3/4/2008 it was decided, according to the article 16 of codified Law 2190/1920, the purchase of treasury shares through the Athens Stock Exchange up to a maximum number of 33,000,000 treasury shares, which is less than 10% of the Bank's total number of issued shares, including the shares that have already been acquired and held by the Bank or by any person executing on his account but for the Bank's interest. The minimum and maximum purchase price for the shares is between  $\le 4$  and  $\le 40$ . The purchases of the treasury shares must be completed within twenty four months from the General Meeting resolution, that is the latest by 3/4/2010 and the treasury shares acquired may be distributed to the staff of the Bank or the staff of any affiliated company.

The 2nd Iterative Ordinary General Meeting of Piraeus Bank's shareholders, held on the 7/5/2008, resolved on the decrease of the Bank's share capital by 49,643,951.49 by cancellation of 10,407,537 treasury shares, in order to fulfill the obligation undertaken in the Prospectus for the Bank's share capital increase dated 6/7/2007. Following the decrease, the share capital of the Bank amounted to 1,568,333,308.50, divided into 328,791,050 shares of nominal value 4.77 each.

In addition, the same General Meeting resolved on the increase of the Bank's share capital up to the amount of  $\leqslant$  26,378,367.12 by issuing up to 5,530,056 new ordinary registered shares. The share capital increase was effected by cash contribution and provided the shareholders the option of reinvesting the dividend of the fiscal year 2007 (that remains following the deduction of the already paid interim dividend) that is  $\leqslant$  0.36 per share. The new shares were issued at  $\leqslant$  21.36 per share. The total reinvested dividend amounted to  $\leqslant$  16,072,930.08. Consequently, the Bank's share capital increased by  $\leqslant$  3,589,320.06, by issuing 752,478 new shares of nominal value of  $\leqslant$  4.77 per share. The additional paid-in value of the shares amounting to  $\leqslant$  12,483,610.02 minus the relevant share capital increase expenses, was credited to the share premium account.

Following all the above corpotate acts, the Bank's share capital currently amounts to € 1,571,922,628.56, divided into 329,543,528 ordinary registered shares.

# Share option plans

The terms of the two existing share option plans are described in the annual financial statements of the year 2007.

The 2nd Iterative Ordinary General Meeting at 7/5/2008 decided on the authorization of the Board of Directors, according to the article 13 par. 14 of codified Law 2190/1920, valid for a year, to establish a five-year stock option plan for the management and personnel of the Bank and its affiliated companies (as they are defined in article 42e of codified Law 2190/1920). The stock option plan enables the issue of new shares up to a total number of 5,000,000 shares (from which 1/5 will be vested each year). The stock option plan enables, additionally or alternatively, the allocation of existing treasury shares or shares acquired to that end. The minimum offering price of these shares shall be € 21.36 per share.

## Report on review of interim financial information

## To the Shareholders of PIRAEUS BANK SA

## Introduction

We have reviewed the accompanying consolidated condensed balance sheet of PIRAEUS BANK SA (the "Bank") and its subsidiaries (the "Group") as of 30 June 2008, the related consolidated condensed statements of income, changes in equity and cash flows for the six-month period then ended which also include certain explanatory notes, that comprise the interim financial information and which form an integral part of the six-month financial report as required by article 5 of L.3556/2007. The Bank's Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Financial Reporting Standards as adopted by the European Union and as applicable to interim financial reporting (International Accounting Standard "IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review
We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" to which Greek Auditing Standards refer to. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Greek Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Review conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34.

# Reference to Other Legal and Regulatory Requirements

In addition to the interim financial information referred to above, we reviewed the remaining information included in the six-month financial report as required by article 5 of L.3556/2007 as well as the information required by the relevant Decisions of the Capital Markets Committee as set-out in the Law. Based on our review we concluded that the financial report includes the data and information that is required by the Law and the Decisions referred to above and is consister with the accompanying financial information.

The Bank makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

# 1. Impairment losses on loans and advances

The Bank examines at every reporting period, whether trigger for impairment exists for its loans or loans portfolios. If such triggers exist, the recoverable amount of the loan or loan portfolio is calculated and the relevant provision for this impairment is raised. The provision is recorded in the profit or loss statement. The estimates, methodology and assumptions used are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

# 2. Fair value of financial instruments

The fair values of financial instruments that are not quoted in active markets are determined by using valuation techniques. All models use observable data, however areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Assumptions that affect the reported fair values of financial instruments are examined regularly.

# 3. Impairment of available for sale portfolio

The available for sale portfolio is recorded at fair value and any changes in fair value are recorded in the available for sale reserve. Available for sale investments are impaired when there is significant or prolonged decline (judgement is required) in the fair value below cost. When this occurs, the relevant portion of the available for sale reserve is recycled to the income statement of the period. Judgement is also required for the estimation of the fair value of investments that are not traded in a market. For these investments, the fair value computation through financial models takes also into account evidence of deterioration in the financial health of the investee, industry and sector performance and changes in technology.

# 4. Held to maturity investments

The Bank follows the guidance of IAS 39 on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held to maturity. This classification requires significant judgement. In making this judgement, the Bank evaluates its intention and ability to hold such investments to maturity. If the Bank fails to keep these investments to maturity other than for the specific circumstances - for example, selling an insignificant amount close to maturity - it will be required to reclassify the entire class as available for sale. The investments would therefore be remeasured at fair value.

# 5. Income taxes

The Bank is subject to income taxes in the countries in which it operates. This requires estimates in determining the provision for income taxes and therefore the final income tax determination is uncertain during the fiscal year. Where the final income tax expense is different from the amounts that were initially recorded, differences will impact the income tax and deferred tax provisions in the period in which the tax computation is finalised.

# 5 Business segments

Piraeus Bank has defined the following business segments:

**Retail Banking** - This segment includes the retail banking facilities of the Bank, which are addressed to retail customers, as well as to small - medium companies (deposits, loans, working capital, imports – exports, letters of guarantees, etc.)

Corporate Banking - This segment includes facilities related to retail banking addressed to large and maritime companies, which due to their specific needs are serviced by the headquarters (deposits, loans, syndicated loans, project financing, working capital, imports – exports, letters of guarantees, etc.).

**Investment Banking** - This segment includes activities related to investment banking facilities of the Bank (investment and advisory services, underwriting services and public listings, stock exchange services etc.).

Asset Management and Treasury – This segment includes asset management facilities for clients and for the Bank (wealth management facilities, mutual funds management, treasury).

Other - Includes other facilities of the bank that are not included in the above segments (Bank's administration etc.).

An analysis of income and other financial figures per business segment of the Bank is presented below:

Other business segments results for the first semester of 2007 include amount of € 159.3 million which relates to the sale of the Bank's participation in Bank of Cyprus.

Capital expenditure includes additions of intangible and tangible assets that took place in the period by each business segment.

Revenues and net revenues from other business segments include revenues and net revenues derived from transactions between business segments.

# 6 Gains less losses from investment securities

During the first semester of 2008, gains less losses from investment securities amount to € 17.6 million (30/6/2007: € 161.6 million). It should be noted that during the period 1/1 - 30/6/2007 gains less losses from investment securities include amount of 159.3 million which derives from the sale of Piraeus Bank's participation in Bank of Cyprus (8.08%).

# 7 Income tax expense

	1st Semester 2008	1st Semester 2007
Current Tax	(24,001)	(16,911)
Deferred Tax	(6,674)	(8,227)
	(30,675)	(25,138)

During the first semester of 2008 tax authorities have completed the audit of Piraeus Bank's tax position for the years 2004 - 2006. As a result, the tax years remaining unaudited are 2007 and the current year. For the unaudited tax years, a provision has been raised according to International Financial Reporting Standards (IFRS).

The tax rate for Greek legal entities, in accordance with the provisions in force of article 109, par. 1 of Law 2238/1994, is to 25% for the years 2007 and 2008.

# 8 Earnings per share

Basic earnings per share is calculated by dividing the profit for the year by the weighted average number of shares in issue during the year, excluding the average number of ordinary shares purchased by Piraeus Bank and held as treasury shares.

For the calculation of the diluted earnings per share, all the dillutive potential ordinary shares are taken into consideration. The two share option schemes currently in force (note 17) are the only cases of dilutive potential ordinary shares for the Bank. Specifically, the weighted average number of ordinary shares used for the calculation of the basic earnings per share is increased by the number of shares that arises from the comparison of a) the number of shares that would have been issued at fair value for the total consideration received from the exercise of the share options and b) the number of shares issued due to the exercise of the share options.

Basic earnings per share	1/1 - 30/6/2008	1/1 - 30/6/2007	1/4 - 30/6/2008	1/4 - 30/6/2007

Piraeus Bank's registered shares are at a nominal value of € 4.77 each. The share capital is fully paid-in.

During the Annual General Meeting of shareholders of the Bank at 3/4/2008 it was decided, according to the article 16 of codified Law 2190/1920, the purchase of treasury shares through the Athens Stock Exchange up to a maximum number of 33,000,000 treasury shares, which is less than 10% of the Bank's total number of issued shares, including the shares that have already been acquired and held by the Bank or by any person executing on his account but for the Bank's interest. The minimum and maximum purchase price for the shares is between  $\le 4$  and  $\le 40$ . The purchases of the treasury shares must be completed within twenty four months from the General Meeting resolution, that is the latest by 3/4/2010 and the treasury shares acquired may be distributed to the staff of the Bank or the staff of any affiliated company.

The 2nd Iterative Ordinary General Meeting of Piraeus Bank's shareholders, held on the 7/5/2008, resolved on the decrease of the Bank's share capital by  $\le 49,643,951.49$  by cancellation of 10,407,537 treasury shares, in order to fulfill the obligation undertaken in the Prospectus for the Bank's share capital increase dated 6/7/2007. Following the decrease, the share capital of the Bank amounted to  $\le 1,568,333,308.50$ , divided into 328,791,050 shares of nominal value  $\le 4.77$  each.

In addition, the same General Meeting resolved on the increase of the Bank's share capital up to the amount of  $\in$  26,378,367.12 by issuing up to 5,530,056 new ordinary registered shares. The share capital increase was effected by cash contribution and provided the shareholders the option of reinvesting the dividend of the fiscal year 2007 (that remains following the deduction of the already paid interim dividend) that is  $\in$  0.36 per share. The new shares were issued at  $\in$  21.36 per share. The total reinvested dividend amounted to  $\in$  16,072,930.08. Consequently, the Bank's share capital increased by  $\in$  3,589,320.06, by issuing 752,478 new shares of nominal value of  $\in$  4.77 per share. The additional paid-in value of the shares amounting to  $\in$  12,483,610.02 minus the relevant share capital increase expenses, was credited to the share premium account.

Following all the above corporate acts, the Bank's share capital currently amounts to € 1,571,922,628.56, divided into 329,543,528 ordinary registered shares.

# Share option plans

Balance at 30 June 2008

The terms of the two existing share option plans are described in the annual financial statements of the year 2007. The 2nd Iterative Ordinary General Meeting at 7/5/2008 decided on the authorization of the Board of Directors, according to the article 13 par. 14 of codified Law 2190/1920, valid for a year, to establish a five-year stock option plan for the management and personnel of the Bank and its affiliated companies (as they are defined in article 42e of codified Law 2190/1920). The stock option plan enables the issue of new shares up to a total number of 5,000,000 shares (from which 1/5 will be vested each year). The stock option plan enables, additionally or alternatively, the allocation of existing treasury shares or shares acquired to that end. The minimum offering price of these shares shall be € 21.36 per share.

## Report on review of interim financial information

# To the Shareholders of PIRAEUS BANK SA

#### Introduction

We have reviewed the accompanying balance sheet of PIRAEUS BANK SA (the "Bank") as of 30 June 2008, the related condensed statements of income, changes in equity and cash flows for the six-month period then ended which also include certain explanatory notes, that comprise the interim financial information and which form an integral part of the six-month financial report as required by article 5 of L.3556/2007. The Bank's Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with International Financial Reporting Standards as adopted by the European Union and as applicable to interim financial reporting (International Accounting Standard "IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

# Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" to which Greek Auditing Standards refer to. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Greek Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Review conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34.

# Reference to Other Legal and Regulatory Requirements

In addition to the interim financial information referred to above, we reviewed the remaining information included in the six-month financial report as required by article 5 of L.3556/2007 as well as the information required by the relevant Decisions of the Capital Markets Committee as set-out in the Law. Based on our review we concluded that the financial report includes the data and information that is required by the Law and the Decisions referred to above and is consistent with the accompanying financial information.
