Yearly Financial Report

For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### MANAGEMENT REPORT

# OF THE BOARD OF DIRECTORS OF EYATH S.A. WATER SUPPLY AND SEWERAGE SYSTEMS COMPANY OF THESSALONIKI S.A. FOR THE 9<sup>TH</sup> FISCAL PERIOD (1st of January 2008-31<sup>st</sup> of December 2008) TO THE REGULAR GENERAL MEETING

Dear Shareholders,

According to the provisions of L.3556/2007 and the respective decisions of the Capital Market Committee, we submit the present Yearly Report of the BoD for the current fiscal period (1/1/2008-31/12/2008).

The present report offers brief financial information on the financial state and the results of the Company EYATH S.A, a description of the most important facts that took place during the closing fiscal period, a description of the important facts that took place after the balance sheet date, a description of the expected development of Group and Company activities, information regarding the management of significant financial risks which the Group and the Company are called to face, a list of the important transactions drawn up between Company and the Group and associated persons as well as other information regarding stocks, equity capital and important agreements valid on the ending of the closing fiscal period.

### A. Brief financial information on the Group and the Company

The Company «WATER SUPPLY AND SEWERAGE SYSTEMS COMPANY OF THESSALONIKI S.A. », under the trade name EYATH (hereafter "COMPANY" or "EYATH S.A") was founded in 1998 (Law no. 2651/3-11-1998 (GN. A´ 248/2-11-1998) deriving from the merging of the S.A "Thessaloniki Water Supply Organization S.A"(OYTH S.A.) and the «Thessaloniki Sewerage Systems Company S.A" (OATH S.A) which had been turned into S.A's in 1997.

The development and further expansion of the Group and Company activities continued also successfully during the closing managerial fiscal period that ended on the 31/12/2008, data that can be found in the attached financial results.

### **Turnover**

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

The Group's turnover for the closing fiscal period reached € 75.919 as opposed to €70.100 during the respective fiscal period last year thus increasing by € 5.819 or by 8,30%.

The company turnover resulted from sales of water supply and sewerage systems services as well as from performing works on behalf of third parties. (L.A.O's, EYATH Fixed Assets, Ministry for the Environment, Planning and Public Works).

The increase in the turnover is attributed to the changes in invoices in 2008 but also to the usual increase of consumers in the existing Zone of activity.

Moreover, by the 24/2007 decision of the company's BoD on the 24/1/2007, default interests were approved on customer bills that had expired and a yearly interest of 12% was also imposed, a fact that led to the increase in revenues from default interests by approximately € 1.382.

### Pre tax earnings

The Group and Company pre tax earnings for the closing fiscal period were improved and amounted to € 22.017 as opposed to € 17.487 and to € 21.999 as opposed to € 17.487 thus increasing by 25, 90% and 25, 80% respectively in comparison with the respective period of last year.

The Group's pre tax profit margin for the closing fiscal period reached a percentage of 29, 00% on sales, improving in comparison to the previous fiscal period when it had reached 24, 95%.

### Net after tax earnings

The Group net after tax earnings for the closing fiscal period reached € 15.128 as opposed to € 12.441, thus increasing by € 2.687 or 21, 60%.

Regarding the parent company, after tax earnings reached € 15.115 as opposed to € 12.441, thus increasing by € 2.674 or 21,49%

The increase in Earnings is the result of a rationalization of expenses. The Group's Gross Profit for the closing fiscal period reached € 31.108 as opposed to € 24.343 in the previous year. That means the increase in Gross Profit reached the amount of € 6.765 or 27,79%.

The earnings before interests, taxes and depreciations (EBITDA), of EYATH S.A in the closing fiscal period reached  $\leq$  25.498 as opposed to  $\leq$  22.906 thus increasing by  $\leq$  2.592 or 11,31%.

### Cash flows from operational activities

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

The Group and Company cash flows from operational activities during the closing managerial period reached € 11.660 as opposed to € 17.149 and € 11.530 as opposed to € 17.149 thus decreasing by 32,01% and 32,76% respectively in relation to the respective previous fiscal period.

### **Total bank loans**

Total bank loans (long term and short term) of the Group in the end of the closing fiscal period reached € 3.110 as opposed to € 4.718 in the respective fiscal period last year, thus decreasing by 34,08%. As a result the leverage factor (the factor is calculated as net debt divided by total capital) reached -12,04% as opposed to -11,70% at the end of the respective fiscal period of last year. EYATH S.A's loan liabilities derive from loans drawn up in the past by the Greek State. EYATH S.A's view is that the repayment of these loans is a liability for EYATH FIXED ASSETS according to article 22 of L.2937/2001 (G.N 169/26-7-2001). The management of EYATH S.A has submitted the relevant claim.

### **Equity Capital**

The Group equity capital that related to company shareholders on the 31/12/2008 reached € 91.315 as opposed to € 80.542 on the 31/12/2007, while the Company equity capital reached € 91.301 as opposed to € 80.542, increasing by 13,37% and 13,36% respectively in comparison with the previous fiscal period, a result of the profitability of the closing managerial fiscal period.

### **Company Financial Indicators**

In the financial indicators that follow, we can see the entire activity of the Group and the profitability in each sector.

Performance and profitability indexes		<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>
- Gross Profit Margin {Sales – Cost of sales / Turnover (%)} - Exploitation profits		40,97%	34,73%	32,29%	32,65%	40,48%
(EBIT) {Pre tax earnings –Interests /Turnover (%)}(	EBIT)	26,82%	25,21%	21,05%	21,79%	16,37%
Capital Profitability indexes						
- Net pre tax earnings / equity capital	(ROE)	24,11%	21,71%	19,04%	19,52%	14,04%
- Net pre tax earnings / Total Assets	(ROA)	14,85%	13,18%	11,34%	11,38%	8,27%
Cash flow indexes						
- General Flow		2,02	2,00	2,03	1,85	2,04

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

{Current Assets / Short term liabilities}

Capital structure and viability indexes

Equity capital / Foreign capital 160,31% 154,40% 147,31% 139,94% 143,34%

**Investment indexes** 

Earnings per stock after taxes 0,4168 0,3427 0,2532 0,2186 0,1055

As seen above the profitability indexes have been showing constant improvement in the past 5 years because of the rationalization of the company's productive funds, the increase in productivity and the decrease in operational expenses. Moreover, the cash flow index is particularly high because of increased profitability, a fact that allows management to suggest an increased dividend. The capital structure index always confirms the effective management of capital and the fortification of the company's capital efficiency. Finally, the earnings/stock index, which has been readjusted accordingly for reasons of comparability, depicts the constant increase in company profitability in recent years.

### B. Important facts that occurred during the closing fiscal period.

The most important facts that occurred during the closing fiscal period are the following:

### Establishment of a subsidiary company

In 2008, the Company proceeded with the establishment of the 100% of the subsidiary company EYATH SERVICES S.A with the aim to provide any Water Supply and Sewerage services, telecommunication services as well as to produce and sell electricity. The subsidiary company is based at 127 Egnatias Street, Municipality of Thessaloniki. The subsidiary's capital stock is € 60.

### Cooperation between EYATH S.A and E.MALAMATINAS S.A.

An agreement for the cooperation between EYATH S.A and E. MALAMATINAS S.A in the field of bottled water production was signed, following a decision of the BoD of EYATH S.A on Monday the 19/5/2008, and was approved by the Regular General Stockholders Meeting on the 20/6/2008. A non disclosure agreement had been previously signed (NDA) on the 19/3/2008 and a Memorandum of Understanding (MoU) on the 8/4/2008. The principles framework agreement regards the realization of a joint investment for the construction of a water-bottling unit. Up until the ending of the current fiscal period, the composition of the new company had not yet been established.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### Freezing of the water supply and sewerage systems invoices

On the 18/11/2008 the BoD decided to freeze the water supply (price of water) and sewerage services (sewerage systems percentage) invoices for 2009 to the prices of 2008 for the first three grades of consumption (low and middle incomes) and the reduction of the invoices by 20% for 2009 for members with more than five members.

### Alteration in the time plan for Raised Capital Use

The Company BoD by the 907/29.12.2008 decision has approved the alteration in the time plan for the materialization of raised capital for the construction of a building in 2009-2010.

### C. Important facts which occurred from the ending of the fiscal period until the date the present report was drawn up.

There are no facts posterior to the financial statements for which mention is called for in accordance with the International Standards for Financial Informing (ISFI).

### D. Predictions on the development of Group and Company activity.

According to article 26 of L. 2937/2001, the Company's territorial jurisdiction, within which it can supply its services and perform activities are the following:

- \* REGARDING WATER SUPPLY, the Municipalities of Thessaloniki, Ampelokipoi, Kalamaria, Neapoli, Sykies, Agios Pavlos, Menemeni, Polichni, Efkarpia, Triandria, Eleftherio Kordelio, Evosmos, Stavroupoli, Panorama as well as the Thessaloniki industrial zone.
- \* REGARDING SEWERAGE SYSTEMS, EYATH S.A 's territorial jurisdiction is divided in five areas:
- «Area A» includes the Municipalities of Thessaloniki, Ampelokipoi, Kalamaria, Neapoli, Sykies, Agios Pavlos, Menemeni, Polichni, Triandria, Diavata, Eleftherio Kordelio, Evosmos, Stavroupoli, Pylaia, Panorama, Oreokastro in the districts of Ionia and Kalochori of the Municipality of Echedoros and the Community of Efkarpia.
- «Area B» includes the area between the Gallikos and Axios rivers until the sea, in which the industrial zone of the wider Thessaloniki region is included, the district of Sindos of the Municipality of Echedoros, the districts of Agios Athanasios, Agchialos, Gefyra of the Municipality of Agios Athanasios and the districts of Chalastra and Anatoliko of the Municipality of Chalastra.

Area C» includes the zone of the high ground of the city complex of Thessaloniki and

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

includes the Community of Pefka and the Districts of Asvestochori, Exochi, Fyliro of the Municipality of Chortiatis.

**«Area D»** extends from the Municipalities of Kalamaria and Panorama to the municipal baths of Sedes and to the Mikra airport and includes the industrial area and Districts of Thermi, Nea Raidestos, Neo Rysio and Tagarades of the Municipality of Thermi and the Agia Paraskevi district of the Municipality of Vasilika.

«Area E» extends from the Mikra airport and the districts of Neo Rysio and Tagarades, Agia Paraskevi until the sea and includes the Districts of Agia Triada, Peraia, Neoi Epivates of the Municipality of Thermaikos and the districts of Nea Michaniona, Emvolo, Aggelochori of the Municipality of Michaniona.

The Company, by signing a contract with the relevant Municipality and EYATH Fixed Assets, can undertake the existing network of the L.A.O in any one of the above-mentioned areas and the obligation to supply water supply and sewerage systems services to the Municipality they signed with.

By a contract signed by the relevant municipality and EYATH Fixed Assets and approved by the joint decision of the Ministers for the Interior and Public Administration, of Finance, Development, for the Environment, Planning and Public Works and the Minister of Macedonia –Thrace, the Company can extend its activities in areas of a Local Authority Organizations outside the above mentioned areas.

In 2008, the replacement of the water meters in the Municipalities of Pefka, Pylaia and Oreokastro was completed and it is now possible to measure the quantity of supplied water and invoice the new customers of the Company. The number of new customers from the completion of the integration of the above-mentioned municipalities is approximately 20.000. Within 2009, we expect to complete the printing of the Municipal Districts of Magnisia, Diavata, Kalochori and Sindos of the Municipality of Echedoros, with the aim to have recorded by the 31/12/2009 all new consumers belonging to those Municipalities, approximately 15.000.

Finally, within 2009, EYATH S.A expect to include in the area of responsibility the areas of Nikopoli, which now belongs, by 80% to the Municipality of Stavroupoli and by 20% to the Municipalities of Polichni and Evosmos. After the completion of the area's internal water supply networks, we expect the contractor in charge of the construction of the external branches to take over up to the water supply valve at the limits of the fields. Afterwards, inhabitants will be called to pay the final connection dues for their building as well as the dues for each specific space. It is estimated that the customers in the Nikopoli area are

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

approximately 4.000.

### E. Group and Company activities in the field of research and development

During the current fiscal period the Group has spend a total amount of € 496 in research and development on the development of new products.

### F. Company Branches

During the current fiscal period as well as in the previous fiscal period the company owned no branches through which to practice its business activities.

### G. Group and Company own stocks

During the current fiscal period, there were no stocks of the parent company owned by the company itself or by any other company included in the integration.

### H. Risk management

### Risks regarding the field the company is active in.

With regards to the possibility of a future free market, in relation to European law and the possible consequences this would have on the company, it is mentioned that due to the nature of the existing infrastructure (mainly underground networks and tanks), the water supply and sewerage systems field is a fine example of a natural monopoly, where it would be extremely difficult to develop alternative networks, and to create competition where consumers could choose their own suppliers of processed water (drinking water).

It is also noted that in the total of European Union countries, as well as in the rest of the world, water supply and sewerage systems services are provided by private or state companies (or Local Authorities) without the possibility of competition within the specific geographical limits where such companies are to provide their services.

The very specific characteristics of the field of water supply and sewerage systems (which distinct the specific field of Public Utility), are recognized by the European Union and up to today there has not been any issue regarding the abolishing of the monopoly of the field and development of competition, as for example there has been in the field of telecommunications services.

Therefore, we consider that there is no such possibility in the foreseeable future at

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

least for the development of competition in the specific field. The only case for which, a possible, future European Union legislation could impose some form of competition is, if it demands, that the selection of a provider of services for water supply and sewerage systems will take place only after an open bid, so that the element of competition can be achieved through these means and not to a level of service supply but to a level of selecting the legal entity who would manage the existing water supply and sewerage systems networks to supply services to consumers.

### **Financial Risk management**

The Group is exposed to various financial risks the most important of which are price risk and credit risk. The relative risks management policies of the Group aim to minimize the negative impact these risks might carry in the Group's financial position and performance. The Company's general management manages risks and the BoD approves the relative policies. The financial risks management includes the recognition, estimation and counter balancing of the financial risks in close cooperation with the Group's operational units.

### **Exchange Risk**

The Group faces no exchange risks as its transactions are in Euros only.

### Price fluctuation risk

Regarding price risk the Company is not exposed to a significant risk of fluctuation of the variables, which determine revenues and cost. EYATH's invoicing policy has been determined for the period from the 1/1/2007 until the 31/12/2011 for water supply and sewerage systems services, expecting a yearly average increase of approximately 4%. Moreover, we would like to point out that, on the 18/11/2008 the BoD decided to freeze the water supply (price of water) and sewerage services (percentage of sewerage services) invoices for 2009 at 2008 prices for the first three grades of consumption (low and middle income) and the reduction by 20% for 2009 in the invoices for families with more than five members.

### Credit risk

Credit risk is managed on Group basis. Credit risk derives from the cash reserves and bank deposits as well as from the credit reports to the customers including important claims and transactions that have been carried out.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

The Company has a clear credit policy, which is thoroughly applied. Moreover, it has a large number of clients and therefore the wide disperse of its customer base contributes to a low credit risk in relation to the claims. The Company's management continuously tracks the financing state of its customers, the size and the limits of the given credit. At the end of the fiscal period, the Management deemed that there is no significant credit risk that could not be covered by a provision of doubtful debt. The maximum exposure to credit risk is reflected by the height of each element of the assets.

### **Liquidity Risk**

Liquidity risk is kept at low levels through the availability of adequate cash flow and credit limits.

### Cash flow risk and risk of fair interest rate value

The Group faces no interest rate risk for its loan liabilities as the loans are in fixed interest. On the contrary, it faces limited interest risk in the interest bearing elements of the Assets (deferred deposits) and therefore, revenues and operational cash flows are depended up to a point on the changes in the interest market.

The Management constantly watches the variations in interest rates and evaluates per case the duration and type of deferred deposits.

### I. Important transactions between the Group, the Company and associated persons

The most important Company and Group transactions with associated persons according to the IAS 24, during the closing fiscal period are as follows (amounts in thousands of euros)):

Amounts in thousands of euros	GROUP	COMPANY
a) Revenues	0	0
b) Expenses	0	157
c) Claims	0	6
d) Liabilities	0	27
e)Transactions and payments of executive members		
and management members	863	797
f)Claims by executive members and		
management members	2	2
g) Liabilities towards executive members and		
management members	51	2

Company expenses amounting to €157 regard services for water meters measurement

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

supplied by the subsidiary «EYATH SERVICES S.A. ». The Company claim for the amount of €6 regards foundation expenses performed by EYATH S.A on behalf of the subsidiary company «EYATH SERVICES S.A. ». The Company's liability for €27 regards services of receipt distribution and water meter measurements services towards the subsidiary company «EYATH SERVICES S.A».

### I. Structure of the Company capital stock.

The Company capital stock amounts to forty million six hundred fifty six thousand euros (€40.656.000) divided in thirty six million three hundred thousand euros (36.300.000) common anonymous stocks with voting right, each of nominal value one euro twelve cents (€1,12).

Company stocks are introduced for negotiation in the Athens Stock Exchange (High Capitalization category). Stockholder rights deriving from the stocks, depend on the capital percentage to which the paid value of the stock responds.

Each stock offers all rights according to the Law and the Company Statute. In particular:

• The right to dividends on the yearly company profits.

A percentage of 35% of the net profits after extracting only the regular reserves is distributed from the earnings of each fiscal year to the stockholders as first dividend, unless it is otherwise determined by the General Meeting, while the granting of an additional dividend is also decided by the General Meeting. Especially for the dividend for the fiscal period 2008 it is suggested to distribute a dividend of 0,14 €/stock, so as to avoid possible liquidity problems due to the Company's high investment program. Each stockholder has the right to a dividend on the date of determination of dividend beneficiaries. The dividend for each stock is paid to the stockholder within two (2) months from the date of the Regular General Meeting that approved the Yearly Financial Lists. How dividends are paid and where, is announced through the press. The dividend collection right is deleted and the respective amount is given to the State after 5 years from the end of the year during which the dividend was approved fro distribution by the General Meeting.

- The right to withdraw the contribution during the settlement or, respectively, the capital depreciation that responds to the stock, if so decided by the General Meeting.
- The right to preference, for every raise in the Company's capital stock in cash and the acquisition of new stocks.
- The right to receive a copy of the Financial Lists and the Reports by the Registered Chartered Auditors and the Company's BoD.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

- The right to participate in the General Meeting, which implies the following rights: legalization, presence, participation in the discussions, suggestions for daily agenda issues, registration of the views in the records and right to vote.
- The General Stockholders Meeting of the Company maintains all its rights during the settlement.

The stockholders liability is limited to the Nominal value of the stocks they hold.

### K. Limitations regarding the transfer of Company stocks.

The transfer of stocks is done as determined by Law 2190/1920 article 8b and there are no limitations in the transfer according to the company statute. The stocks are intangible and introduced in the Athens Stock Exchange. In addition, article 18 par. 8 of L.2937/2001 (G.N 169/26-7-2001) states *«the State can dispose stocks to investors at a percentage of no more than 49% of the occasional company capital stock»*.

L. Important direct or indirect participations according to the concept of articles 9 to 11 of L.. 3556/2007.

Stockholders with a percentage of more than 2% of the total of voting rights of the Company on the 31/12/2008 are the following:

STOCKHOLDER	NUMBER OF STOCKS OWNED	PARTICIPATION PERCENTAGE ON THE 31/12/2007
Greek State	26.868.000	74,02%
SUEZ ENVIRONMENT COMPANY Other Stockholders with a participation percentage	1.885.399	5,19%
lower than 2,0 %	7.546.601	20,79%
TOTAL	36.300.000	100,00%

### M. Stockholders of any kind that provide special control rights.

There are no Company stocks that provide stockholders with special control rights.

### N. Limitations in the voting right – deadline for the practice of the relative rights.

The Company statute does not provide for limitations on the voting right that derives from stocks.

### O. Agreements among company Stockholders.

The Company is not aware of any agreements among its stockholders which would mean

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

limitations in the transfer of stocks or the practice of the voting rights that derive from the stocks.

## P. Rules on the appointment and replacement of members of the BoD and on Statute alterations.

The rules stated in the Company statute on the appointment and replacement of members of the BoD and the alterations of its provisions are not altered by what is stated in E.L 2190/1920.

# Q. Authority of the members or certain members of the BoD for the issuance of new stocks or the purchase of own stocks.

According to article 5 of the Company statute, by a decision of the General Meeting, which is subject to the publication formalities of article 7b of E.L. 2190/1920 as valid, the Board of Directors can receive the right, by a decision of at least 2/3rds of the total of its members, to increase equity capital partially or totally with the issuance of new stocks, up to the amount paid on the date the respective authority was granted to the BoD. For the purchase of own stocks the BoD's authority is not altered by what is stated in article 16 of the E.L.2190/1920. The Company statute holds no opposing provision.

# R. Each important agreement that the Company has signed which comes into effect is altered or expires in the case of changes in company control following a public motion.

There are no agreements that come into effect that are altered or expire in the case of changes in company control following a public motion.

# S. Each agreement that the Company has signed with the members of the Board of Directors or with its staff, which provides for compensation in case of resignation or dismissal without well-grounded reason or termination of a term or employment because of a public motion.

There are no agreements between the Company and the members of the BoD or with its staff that provide for compensation especially in case of resignation or dismissal without well-grounded reason or termination of a term or employment because of a public motion.

### T. Dividends policy

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

Given the increase in company Earnings, the company Management suggest the distribution of a dividend of € 0,14 per stock. In particular it is suggested that the dividend amounts to € 5.082 for the 2008 fiscal year as opposed to € 4.356 in the previous fiscal year of 2007, for the total of the 36.300.000, 00 anonymous stocks.

Closing the present report we stress that we will make ourselves available at your convenience for any further information or clarification u may need on the above-mentioned issues.

Thessaloniki the 26th of March 2009

### FOR THE BOARD OF DIRECTORS

Dr. Skodras I. Georgios Chairman of the Board of Directors And Managing Director Professor Smyris Pavlos A'Vice Chairman of the Board of Directors

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### INDEPENDENT AUDITOR'S REPORT

(Translated from the original Greek version)

To the Shareholders of «Thessaloniki Water Supply & Sewerage Co. S.A.»

### **Report on the Financial Statements**

We have audited the accompanying separate and consolidated financial statements of «Thessaloniki Water Supply & Sewerage Co. S.A. » (the Company), which comprise the separate and consolidated balance sheet as of 31 December 2008 and the income statements, statements of changes in equity and cash flow statements for the year then ended and a summary of significant accounting policies and other explanatory notes.

### Management's Responsibility for the Financial Statements

Company's management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by European Union. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. This responsibility also includes selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Greek Standards on Auditing which conform with International Standards on Auditing. Those Standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the accompanying separate and consolidated financial statements present fairly, in all material respects, the financial position of the Company and the Group as of 31 December 2008 and of their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by European Union.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### **Report on Other Legal Requirements**

We have verified the consistency of Board of Directors' Report with the accompanying financial statements, in the context of the requirements of articles 43a, 107 and 37 of C.L. 2190/1920.

Thessaloniki, March 26, 2008

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### 1. Base for drawing up Financial Statements

#### 1.1 General

The intermediate financial statements of the fiscal period 1/1-30/6/2008 have been drafted according to the International Standards for Financial Informing (ISFI) as issued by the Board for the International Accounting Standards and the Interpretations issued by the Permanent Interpretations Committee as valid on the 31<sup>st</sup> of December 2008.

The financial statements for the fiscal period 1/1-31/12/2008 have been drawn up based on the principle of historical cost (with the exception of certain categories of tangible assets which were depreciated at reasonable values during the transition date, 1/1/2004, in the International Standards for Financial Information used since as imputed, historical cost). Moreover, the said intermediate financial statements have been drawn up based on the principle of continuation of the Company's and the Group's operation.

### 1.2 Statutory Financial Statements

The Group and the Company keep their accounting books according to Greek Commercial Law (U.L. 2190/1920) and the current tax legislation. Since the 1<sup>st</sup> of January 2005, the Group is obliged to, in accordance with the provisions of the existing legislation, draw up its statutory financial statements according to the ISFI adopted by the European Union. Consequently, the above intermediate financial statements are based on those drawn up by the Group according to the existing tax legislation, on which all non accounting registrations have been completed in order to agree with the ISFI.

### 1.3 Fiscal period assessment

The drawing up of the financial statements according to the ISFI's requires the Group and Company management to proceed with assessments and assumptions that affect the balances of the assets, liabilities and the results statement of the fiscal year, as well as the announcement of likely claims and liabilities on the date the financial statements are drawn up. These assessments and assumptions are based on the existing experience and on other factors and data that are considered reasonable and are reviewed regularly. The effects of the reviewed adopted assessments and assumptions is not only recognized in the fiscal

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

period they take place but also in future periods should the reviews affect not only the present but also the future fiscal periods.

### 1.4 Approval of Yearly Financial Statements

The yearly financial statements of the fiscal period 1/1-31/12/2008 were approved for publication by the Company's Board of Directors on the 26<sup>th</sup> of March 2009.

## 2. New standards, interpretations and alterations of existing International Accounting Standards

Particular new standards, alterations thereof and interpretations have been issued, which are mandatory for the accounting fiscal periods beginning during the current fiscal period or later. The group's estimations on the effect of the application of these new standards and interpretations are listed below.

### Mandatory standards for the fiscal period 31 December 2008

No new standards or alterations of the standards have been issued, which would be mandatory for accounting periods beginning during the current fiscal period.

### Mandatory Interpretations for the fiscal period 31 December 2008

### IIIFI 11 - ISFI 2: Group Own Stock transactions

This interpretation applies since the1st of March 2007 and offers guidance on whether stock based transactions that involve own stocks or group entities (e.g. right to parent company stocks) shall be taken into consideration as own capital settlement transactions or settlement transactions in cash based on stocks, in the individual financial statements of the parent company and the Group companies. The interpretation does not affect the Group's financial statements.

### IIIFI 12 – Concession Agreements on service supply rights.

This interpretation applies from the 1<sup>st</sup> of January 2008 and briefly describes an approach on how to handle contract agreements that derive from various agencies of public service. It sets the condition that the handler should not perceive the infrastructure works as fixed

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

assets but to identify such works as a financial element of the assets or as an intangible element of the assets. The IIIFI 12 does not apply to the Group.

### **IIIFI 13, Customer Loyalty Programs**

This interpretation applies since the 1<sup>st</sup> of July 2008 and clarifies that in the cases where products and services are sold along with a 'loyalty award' to the customer (e.g. loyalty points or free products), the agreement is an agreement of multiple elements and the received price from the consumer is distributed in the composing elements of the agreement using fair value.. This interpretation does not apply to the Group, as none of the Group companies uses any customer loyalty award programs.

## IIIFI 14 –IAS 19. Assets limits for defined benefits, minimum required formed capital and their interaction

Interpretation 14 offers instructions for the evaluation of the limit as defined in IAS 19 regarding the surplus value amount that can be identified as assets. Moreover, it explains how the asset or liability of an employee's insurance program can be affected by a minimum capital liability deriving from the statute of the contract. The Interpretation does not affect the financial statements of the Group.

### Mandatory standards after the fiscal period 31st of December 2008

### IAS 1 'Presentation of Financial Statements' -Alteration

The revised standard will dictate the presentation of revenues and expenses (that are changes in equity capital and regard transactions with third parties- not company stockholders) in the equity capital changes board, demanding that the equity capital changes that result from transactions with third parties, are presented separately than the changes in equity capital that result from transactions with company stock holders. All equity capital changes regarding third parties, not company stockholders, will have to be presented in a performance financial statement, however entities can choose to either present a performance financial statement (comprehensive income statement) or two statements (the results statement and the comprehensive income statement). In the case where the entities are reforming or re evaluating comparative information, they are obliged to submit a revised balance sheet from the beginning of the comparative period in addition to the current obligation to present balance

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

sheets at the ending of the current period and the comparative period. The Group will apply the altered IAS 1 from the 1<sup>st</sup> of January 2009.

# IAS 16, Tangible immobilizations – alteration (and subsequent alteration of the IAS 7, Cash flow statements).

This interpretation applies since the 1<sup>st</sup> of January 2009. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. Entities whose usual activities include renting and selling assets present the income from the sale of the assets in question as revenues and should transfer residual value to reserves when they are rendered retained for sale. According to a consequent alteration in the IAS 7, cash flows that derive from the purchase, rental and sale of such assets register as cash flows from operational activities. The alteration will not affect the Group activities as well as none of the subsidiaries as they are not usually involved with the rental and sale of assets.

### IAS 19, Employee Benefits – alteration.

This interpretation applies since the 1<sup>st</sup> of January 2009.. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. We specify that an alteration to a benefits program that leads to a change in the impact of future salary increases constitutes a cut while an alteration that changes the benefits responding to past service leads to a negative cost from past service if it results in a decrease in the present value of the determined benefits obligation. The definition of the return of the retirement programs' investment assets has been altered in order to determine that the managerial cost of these programs is deducted during the estimation of the return of the invested assets, only to the part where these expenses are excluded from the measuring of the determined benefits obligation. The distinction between short term and long-term benefits to employees will be based on whether the benefits will be paid immediately or after 12 months from the service of the employee. According to the IAS 37, Provisions, Probable Liabilities and Probable Claims, an announcement and not recognition of the probable liabilities is required. IAS 19 has been altered to be consistent with all the above. The Group will apply the altered IAS19 from the 1<sup>st</sup> of January 2009.

# IAS 20. Accounting of Government Grants and Announcement of Government Support- alteration.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

This interpretation applies since the 1<sup>st</sup> of January 2009. The debt from a government loan with a lower interest rate than the market interest rate is measured as the difference in residual value according to the IAS 39 Financing Tools: Identification and measurement, and the income received with the debt according to IAS 20. The alteration does not affect the Group activities.

### IAS 23 – Loan Cost -Alteration

The reviewed issue of the above standard applies starting the 1<sup>st</sup> of January 2009. This alteration demands that an entity capitalizes loan costs that are directly attributed to buyouts, construction or production of a specific asset (an asset that requires a long term before it can be sold or operate) as part of this asset's cost. The choice of immediate amortization of this asset, as expenses, is abolished.

### IAS 27, Integrated and individual financial statements-alteration

This interpretation applies since the 1<sup>st</sup> of January 2009. .. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. When an investment in a subsidiary company that is taken into consideration according to the provisions of IAS 39, Financial Tools: Identification and measurement, is registered as available for sale according to the provisions of the ISFI 5, Non circulating assets for sale and interrupted activities, the provisions of the IAS 39 will continue to apply. This alteration will not affect the Group activities, as the Group policy on investments in subsidiary companies is to include them in the purchase value in the individual financial statements of each entity.

# IAS. 28, Investments in affiliated companies – alteration (and subsequent alterations in the IAS 32, Financial tools: Presentation, and ISFI 7, Financial Tools: Announcements).

This interpretation applies since the 1<sup>st</sup> of January 2009. .. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. An investment in an affiliated company is considered, for reasons of control of impairment, as a single asset. Any impairment damage cannot be distributed to the specific assets of the investment, for example to surplus value. The impairment reversions are listed as an adjustment to the balance of the investment, to the amount that the retrievable amount of the affiliated company increases. The alteration does not affect the Group activities.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### IAS 29, Financial informing in hyperinflation economies - alteration.

This interpretation applies since the 1<sup>st</sup> of January 2009. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. The alteration occurred to indicate the fact that a percentage of the assets and liabilities is measured in reasonable value instead of historical cost. This alteration will not affect the Group activities, as there is no activity in any hyperinflation economies.

# IAS 31, Financial Informing on rights in joint stock companies- alteration ( and subsequent alteration of IAS 32 Financial Tools: Presentation and ISFI 7 Financial Tools: Notifications).

This interpretation applies since the 1<sup>st</sup> of January 2009. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. When an investment in a joint stocks company is registered according to the provisions of the IAS 39, it is necessary that only specific, and not all, notifications are made according to the provisions of IAS 31 in addition to the notifications required by the provisions of the IAS 32 Financing tools: Presentation and the ISFI 7 Financial Tools: Notifications. This alteration will not affect the Group activities, as there are no rights in joint stock companies.

# IAS 32. Financial Tools: Presentation – review and IAS 1, Presentation of Financial Statements- Financial tools with the right of premature sale to the issuer and liabilities that result in liquidations- alteration.

The modified standards require entities to list financial tools that offer the right of premature sale to the issuer, and tools or elements of tools which impose on the entity the obligation to deliver to another contacting party a percentage of the net assets of the entity, during the liquidation as equity capital, provided that the financial tools have specific characteristics and abide by certain prerequisites. The Group will apply the altered IAS 32 and IAS 1 from the 1<sup>st</sup> of January 2009, they are however expected not to affect the financial statements.

### IAS 36, Impairment of the assets value - alteration.

This interpretation applies since the 1<sup>st</sup> of January 2009. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. Where reasonable value minus cost of sales is calculated based on discounted cash flows, there should be notifications respective to those of the calculation of the fiscal period

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

value. The Group will apply the altered IAS 36 and make all necessary notifications regarding impairment audits from the 1<sup>st</sup> of January 2009.

### IAS 38, Intangible assets - alteration

This interpretation applies since the 1<sup>st</sup> of January 2009. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. An advance payment will be identified in the case of payment made prior to the acquisition of the access right to products or services. This means that a payment for a product will be identified when the Group has access to the specific product and not when the product is distributed to clients, according to the current accounting principle of the Group. The Group will apply the altered IAS 38 from the 1<sup>st</sup> of January 2009.

### IAS 39. Financial tools: Identification and measurement- alteration.

This interpretation applies since the 1<sup>st</sup> of January 2009. .. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. The alteration specifies that it is possible to transfer inside and outside the reasonable value category through the results statement when a product begins or seizes to be considered a compensating tool of cash flows or net investment. The definition of the financial elements (assets and liabilities) in reasonable value through the results statement has also been altered as it depends on funds saved for negotiation. The alteration in question specifies that a financial claim or liability that is part of a financial tool's portfolio under joint management with proven achievement of short-term profit based on a recent plan is included in such a portfolio during the initial recognition. .The current managerial directives on the determination and recording of the compensations determine that a compensating tool should involve a different entity than the informing entity. This means that according to the current conditions, in order to apply the compensating accounting at field level, the demands for the application need to be met by the respective field. The alteration removes the field's model so that the managerial directions are consistent to the ISFI 8, Operational fields, which demands that the notifications of the fields are based on information mentioned in the head decision maker. Currently, for information purposes, at field level, each subsidiary sets contracts with group treasury as reasonable value or cash flows compensating tool so that the compensations are mentioned in the field the compensating funds refer to. This is consistent with the information examined by the head decision maker. After the alteration comes in effect, the compensation will continue to be presented in the field the

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

compensated funds refer to (and information mentioned in the head decision maker), however the Group will not record and officially examine the relation in question. When the residual value of a tool is re measured in the form of debt at the expiration of the reasonable value compensating accounting, it is specified in the alteration that the reviewed result interest is used ( calculated on the expiration date of the reasonable value compensating accounting). The Group will apply the altered IAS 39 from the 1<sup>st</sup> of January 2009, it is not however expected to affect the Group's financial statements.

### IAS 40, Estate investments- alteration (and subsequent alteration of the IAS16)

This interpretation applies since the 1<sup>st</sup> of January 2009. .. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. Buildings under construction or under development for future use as investment estate are within the analysis framework of the IAS40. When a reasonable value model is applied, estates such as those mentioned before are depreciated to their reasonable value. However, when the reasonable value of an investment estate under construction is not possible to be determined with any credibility, the estate is depreciated to the acquisition value until the soonest date between the date of completion of the construction and the date when reasonable value can be estimated with credibility. This alteration will not affect the Group activities, as there are no investments on buildings under construction.

### IAS. 41, Agriculture - alteration

This interpretation applies since the 1<sup>st</sup> of January 2009. .. The alteration is part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008. The use of an advance interest based on current market values is required and the calculations of reasonable value based on advance cash flows and the lift of the ban taking into consideration the biological formation on the estimation of reasonable value. This alteration will not affect the Group activities as the Group is involved in no agricultural activity.

## ISFI. 1, First application of the ISFI – (alteration) and IAS 27 Integrated and individual financial statements

The modified standard applies from the 1<sup>st</sup> of January 2009. The modified standard allows those who apply it for the first time to use an estimated cost, either reasonable value or the residual value from a prior accounting manipulation to measure the initial cost of investments in subsidiaries, entities of joint control and affiliated companies in the individual financial

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

statements. This alteration also draws back the definition of the cost method by the IAS 27 and replaces it with the claim that dividends are listed as revenues in the individual financial statements of the investor. This alteration will not affect the Groups financial statements.

### ISFI. 2, Payments based on participative titles- alteration.

This alteration applies for yearly fiscal periods starting on the or after the 1<sup>st</sup> of January 2009. The modified standard deals with vesting conditions as well as vesting cancellations in which these prerequisites are mentioned. It also specifies that the afore mentioned prerequisites regard only the terms of service supply and performance. Other characteristic features of a payment based on participative titles are not considered vesting prerequisites. These transactions with employees and others, supplying such services, will have to be included in their fair value on the date of the payment. They will not affect the number of grants expected to be assigned or the depreciation date posterior to the grant date. All cancellations either from the entity or from other contracting parties should receive the same accounting treatment. The Group will apply the altered ISFI 2 from the 1<sup>st</sup> of January 2009. The Group's financial statements will not be affected.

### ISFI. 3, Business Mergings - review

The reviewed standard is valid from the 1<sup>st</sup> of July 2009 and continues to apply the method of purchasing in the business mergings, with few important changes. For example, all payments for the buy out of a company should be listed in the reasonable value on the date of the buy out with the likely payments listed as debt and later re evaluated through the results statement. There is a choice in the base of each buy out to measure the minority participation in the bought out entity, either in reasonable value or by the percentage of the minority participation in the net assets of the acquired company, which relates to the interest for no company inspection. Any costs relative to the buy out will have to be accounted for in expenses. The Group will apply the modified ISFI 3 from the 1<sup>st</sup> of January 2009. No substantial effect is expected on the Group's financial statements because of the adoption of the present standard.

## ISFI. 5, Non circulating assets owned for sale and interrupted activities— modification (and subsequent modifications in the ISFI 1, First application)

The modified standard applies from the 1<sup>st</sup> of July 2009. The modification is part of a study on yearly improvements of the Board for International Accounting Standards, published in May

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

2008. The modification specifies that all assets and liabilities of a subsidiary are characterized as possessions for sale if a sales plan of partial disposal plan leads to loss of control. For this subsidiary a relative notification is required if the definition of an interrupted activity is met. A subsequent modification in the ISFI 1 mentions that these modifications will be applied in the future after the date of transition to the ISFI's.

### ISFI 8 - Fields of activity

The standard applies from the 1<sup>st</sup> of January 2009 and replaces the IAS14, "Financial information per field", aligning information per field with the requirements of the USA standard SFAS 131, "Notifications for business fields and relative information". The new standard requires a management approach, under which information per fields are presented on the same basis with that used for internal informing purposes. In addition, the fields are presented in a way that is more compatible with the inside informing offered to the head decision maker. The Group will apply the ISFI 8 and proceed with the necessary changes in the presentation of the financial statements in 2009.

### Mandatory interpretations after the fiscal period of the 31<sup>st</sup> of December 2008

### ISFI 15 – Agreements for the construction of buildings

The interpretation applies from the 1<sup>st</sup> of January 2009 and specifies whether the IAS 18, Revenues, or the IAS 11, Construction contracts, will have to be applied in specific transactions with the possible result the application of the IAS18 on a wider spectrum of transactions. Interpretation 15 is irrelevant to the Group activities.

### ISFI16 – Counter balance of a net investment from exploitation abroad.

This interpretation applies from the 1<sup>st</sup> of October 2008 and applies to a financial entity which counter balances the risk of foreign currency that derives from a net investment on an exploitation abroad, and meets the terms of accounting counter balance in accordance with the IAS 39. The interpretation offers guidelines regarding the manner in which a financial entity should determine the amounts reclassified by equity capital in the results for the means of counter balance as well as for the counter balanced element. The interpretation does not apply to the Group, as the Group does not use the accounting manipulation of counter balance for any investment on exploitation abroad.

### ISFI 17, Distribution of non-monetary assets to stockholders

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

The interpretation applies from the 1<sup>st</sup> of July 2009 and offers guidelines regarding the measurement of the distribution of non-monetary assets when the liability has been submitted and the distribution has taken place. This includes the distribution of specific assets as well as more complex transactions such as company fragmentations. The said guidelines do not apply when the asset that is transferred is controlled by the same entity before and after the transaction, therefore it is not relevant to distributions between subsidiary and parent company, nor to transitions between subsidiary companies that are considered distribution by estimation. They do not apply either if a parent company distributes part of its investment to a subsidiary, thus creating minority participation but maintaining control. In this case, the distribution is taken into consideration in accordance with the provisions of the ISFI 27 (as modified in May 2008). Moreover, the Interpretation specifies that it apply only to distributions where all stockholders receive the same treatment. If an entity distributes assets to its stockholders who are also a parent company and non controlling, the entire distribution lies outside the field of the Interpretation as parts of the transferred assets are controlled by the same entity before and after the transfer.

There is a number of smaller modifications in the ISFI7 Financial Tool: Notifications, the IAS8 Accounting policies: changes in accounting estimations and mistakes, the IAS10: Facts posterior to the Balance Sheet, the IAS 18: Revenues, IAS 20 State grants accounting and Notification of State Support, IAS29 Financial Informing in economies with hyperinflation, IAS 34 and IAS 38, Intermediate Financial Informing, that are part of a study on yearly improvements of the Board for International Accounting Standards, published in May 2008 (which have not been mentioned above). The said modifications are not expected to affect the Group's Financial Statements and are therefore not analyzed in detail.

### 3. Adopted Accounting Principles

The yearly financial statements for the fiscal period 1/1-31/12/2008 have been drafted based on the same accounting principles, methods and admissions adopted by the Management for the drawing up of the yearly financial statements for the fiscal period ending on the 31<sup>st</sup> of December 2007.Moreover, the Group and Company management has adopted the following accounting principle for drawing up the integrated financial statements for the fiscal period 1/1-31/12/2008.

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### 3.1 Integration

### a) Subsidiaries:

These are all the companies run and controlled directly or indirectly by another Company (Parent), either through holding the majority of the subsidiary company stocks to which the investment was made or through the dependence of the company on the expertise supplied by the Group.

That is, subsidiaries are the companies on which the parent company has control. The parent company acquires control through voting rights. The existence of potential voting rights that can be exercised when financial statements are drawn up is taken into consideration so as to file whether the parent company has control over the subsidiaries. Subsidiaries are fully integrated (full integration) using the method of acquisition from the date control of the subsidiaries is acquired and cease to integrate on the date that such control no longer exists. The acquisition of a subsidiary from the Group is amortized based on the method of purchase.

The acquisition cost of a subsidiary is the reasonable value of the assets given, the issued stocks and the liabilities taken over on the day of transaction, plus any prospective cost directly connected to the transaction. The personalized assets, liabilities and possible liabilities acquired during a business merging, are considered during the acquisition in their reasonable values, regardless of the percentage of participation. The cost of purchase besides the reasonable value of the side elements acquired is registered as surcote. Should the total purchase cost be lower than the reasonable value of the side elements acquired, the difference is directly registered in the results. Intra company transactions, balances and non realized profits from transactions between Group companies are erased. The accounting principles of the subsidiaries have been altered so as to be in unison with those adopted by the Group. Investments on subsidiaries on individual financial statements of the parent company are valuated in the acquisition cost less any probable accumulated compensation losses.

### b) Base for Integration:

The integrated financial statements are composed of the financial statements of the parent company and the Group's subsidiaries. In the below board, subsidiary companies which were included in the integration are presented together with the respective participation percentages, the base country as well as the activity for each subsidiary.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

	%		
COMPANIES	GROUP	COUNTRY	ACTIVITY
E.Y.A.TH S.A	PARENT	GREECE	Water Supply and Sewerage Systems Services
E.Y.A.TH SERVICES S.A.	100%	GREECE	Supply of any kind of Water Supply and Sewerage Systems Services, telecommunication services & production / sale of electricity

More particularly, the Company in 2008 proceeded with the composition of the 100% of the subsidiary company EYATH Services S.A with the aim to provide any kind of Water Supply and Sewerage Systems services, telecommunication services as well as the production and sale of electricity. The subsidiary company is based at the Municipality of Thessaloniki at 127 Egnatia Street. The subsidiary's capital stock amounts to € 60.

The Group has drawn up integrated Financial Statements for the first time on the 31/3/2008 including the subsidiary company, by the method of full integration since the 1/1/2008. Up until the current fiscal period, there has been no change in the integrated companies and /or the participation % or the method of integration.

#### 3.2 Tangible fixed assets

Tangible fixed assets are presented in the financial statements in their acquisition value. On the 1<sup>st</sup> of January 2004 the own fields-parcels of land, the buildings and the Company machinery were depreciated in their reasonable value which was determined base on a study by renowned independent estate evaluators. These reasonable values were used as imputed cost on the date of transition to the ISFI's. The result was a surcuote, credited to new profit. These values appear decreased: a) during the accumulated depreciations b) the probable demerit of fixed assets.

The initial acquisition cost of a fixed asset, facility or equipment is composed of the market price including the import duties and the non returnable market taxes as well as any other necessary cost so that the asset can be operational and ready for intended use.

Posterior expenses, made in relation to tangible fixed assets, are capitalized only when they increase future financial benefits, likely to derive from the exploitation of the affected elements. All other expenses for the maintenance, repair, etc of these assets, are listed in

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

the expenses of the fiscal year within which they are realized.

On the withdrawal or sale of an asset, its relative cost and accumulated amortizations are deleted from the respective accounts for the period in which they are sold or withdrawn and the respective earnings or damages are identified in the results of that fiscal period.

Amortizations burden the Results Statement for the fiscal period, based on the fixed amortization method during the entire estimated working life of the fixed assets. Land property is not amortized. The estimated working life, per fixed assets category, is as follows:

Buildings and Technical works	40	years
Machinery and Facilities	5-24	years
Means of Transport	5-14	years
Furniture and Other Equipment	3-14	years

The residual values and the tangible fixed assets service life are subject to re evaluation in each yearly balance sheet. When the accounting principles of the tangible fixed assets exceed the re acquisition value, the differences (depreciation) are listed as expenses in the results.

#### 3.3 Intangible fixed assets

#### 3.3.1 Software

The software that regards the cost of purchase or own production, payroll, material, services as well as every expense made during the development of software in order for it to start functioning. The expenses that boost or expand the performance of software ,beyond its initial potential, are identified as capital expenses and added to the initial software cost.

The amortizations of the software burden the results account by the fixed amortization method, throughout the working life. The estimated duration of the working life is as follows:

Software 6 years

### 3.4 Impairment of the fixed assets value

Tangible and intangible assets and other non circulating elements of the assets are examined for probable impairment damage, whenever there are facts or circumstances which show that their accounting value may not be recovered. Whenever an accounting value of an asset exceeds the recoverable amount for that asset, the respective

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

compensation damage is recorded in the results statement of the fiscal year. The recoverable value of an asset is the largest amount between the estimated net sale's price of the asset and its use value. We consider net sale's value the feasible revenue from the sale of an asset in the frame of a bilateral transaction in which the parties are fully informed and act on their own will, after deducting any additional direct distribution cost of the asset. Use value is the present value of the estimated future cash flows by the continuous use of an asset and by its distribution at the end of the estimated working life. If there is no option to estimate the recoverable value of an asset for which there is an indication that there will be an impairment of its value, then the recoverable amount of the unit that produces cash flows, and to which the asset belongs, is estimated.

An offsetting of impairment damage of the assets' value reversed in previous years only occurs when there is able proof that this impairment no longer exists or that it has been decreased. In these cases, the above offsetting is identified as revenue.

#### 3.5 Reserves.

Reserves are presented in their lowest value between the acquisition or production cost and their liquid value. Liquid value is the estimated price of sale, decreased by the distribution cost of reserves. The reserves distribution is determined using the method of weighed average and includes the expenses for the acquisition of the reserves, the production expenses (regarding own production) and the expenses for their transport to their location. In particular, the reserves of stock spare parts, bought during the purchase of machinery stage, are considered an indispensable part of the machinery's value and they are amortized along with the machinery, while the replacements of used spare parts are expended at the time of their purchase. The expendable material for the maintenance of the machinery and the general spare parts are included in the reserves and included in expenses at the time they are consumed.

#### 3.6 Commercial and other claims

Customer claims are initially listed in their reasonable value and later assessed in unamortized cost with the use of real interest, minus the impairment damages. The impairment damages (losses from bad claims) are identified only when there is objective proof that the Group and Company are not in a position to collect all amounts that are due according to contract terms. The impairment damage amount is the difference between the

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

accounting value of the claims ad the present value of the estimated future cash flows, discounted with real interest. The impairment damage amount is listed as expenses in the results statement.

#### 3.7 Availables

Available assets include the cash availables balances, such as sight deposits and short-term fixed deposits. Bank overdrafts payable on first demand and an indispensable part of the Group and Company's management of available assets and are included for cash flow statements draft purposes as a component of the cash availables.

### 3.8 Capital stock

Common stocks are referred to as capital. The increased external cost directly paid to the issuance of new stocks appears in the capital less then received amount.

During the acquisition of own stocks, the paid price, including the relative expenses, is depicted less the equity capital.

#### 3.9 Loans

All loans are initially listed in cost, which is the reasonable value of the supply less the acquisition expenses of the loans. Loans are later amortized in the amortized acquisition value using the method of discount rate. Any difference between the supply (less the acquisition cost) and the payment value is identified in the results statement at the duration of the loans.

#### 3.10 Income tax (current and deferred)

Current and deferred income taxes are calculated based on the respective funds of the financial statements in accordance with the tax laws in Greece. The current income tax regards, taxation on the taxed earnings of the Group and the Company as re adjusted according to what the tax law requires and calculated based on the current tax factor.

The deferred taxation is calculated using the liability method in all temporary tax differences at the balance sheet date between the tax base and the accounting value of the assets and the liabilities.

The expected tax impact from the temporary tax differences are determined and appear

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

either as future (deferred) tax liabilities or as deferred tax claims.

Deferred tax claims are registered for all deducted temporary differences and the transferred tax damages, to the extend they are expected to produce earnings that can be taxed, against which the deducted temporary difference can be exploited.

The accounting value of the deferred tax claims is revised at each balance sheet date and decreased to the degree where it is no longer expected to produce adequate taxable earnings against which part of or the total of the deferred tax claims can be used.

The current tax claims and liabilities for the current and the previous fiscal periods are amortized to the amount that will be paid to the tax authorities (or acquired by them), with the use of tax rates (and tax laws) that have been established until the Balance Sheet date.

#### 3.11 Dividends

Paid dividends are presented as a liability at the time they are approved by the general stockholders meeting.

#### 3.12 Provisions for benefits to employees

The Group and Company obligation towards their employees for the future payment of benefits depending on their time of service, is measured and presented based on the right that is expected to be paid at the balance sheet date, discounted at the present value in relation to the estimated time of payment. The discount rate that is used is equal to the performance of the long-term bonds of the Greek state at the balance sheet date.

The relevant liability is calculated based on the financial and actuarial admissions and are determined using the Projected Unit Method. The net retirement cost of the fiscal period are included in the payroll cost in the attached results statement and include the present value of the benefits for the fiscal period, the interests on the benefits liability, the cost of previous service, the actuarial profit or losses and any other additional retirement cost. The previous service cost is identified on a regular basis on the mid term until the benefits of the program are validated. The unidentified actuarial profit and losses are identified on the average residual duration of the service supply period of active employees and are included as part of the net retirement cost of each period if, at the beginning of the period they exceed the 10%

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

of the future estimated liability for benefits. The liabilities for retirement benefits cannot be financed.

### 3.13 Provisions and probable Claims, Liabilities

Provisions are created when the Group has a legal liability or when there seems to be a liability, as a result of a past event, and it is likely that an outflow of funds will be required in order to settle the liability, and a reliable estimation of the respective amount can be made.

Provisions are re evaluated at the end of each fiscal period and adjusted accordingly so as to present the best possible estimates and, if deemed necessary, they are discounted based on a pre tax discount rate. Probable liabilities are not listed in the financial statements but they are announced, unless the probability for an outflow of funds is minimum. Probable claims are not listed in the financial statements but they are announced if the inflow of financial benefits is significant.

#### 3.14 Grants

Grants are initially identified in their nominal value when there is reasonable assertion that the grant will be assigned and that the Company will comply with all the required terms. Grants regarding current expenses are identified in the results statement at the time needed to match the expenses they are meant to compensate for. Grants regarding the purchase of tangible assets (fixed) are included in the long-term liabilities as revenues of following fiscal periods and they are transferred to the results statement of the fiscal period during the working life of the granted asset.

#### 3.15 Financial tools

The Group's basic financial tools are cash, bank deposits and short-term claims and liabilities. Given the short-term nature of these tools, the Group's management believes that their reasonable value basically identifies with the value presented in the accounting books. Moreover, management believes that the interest rates paid in relation to the loans, equal the current reasonable market rates and therefore, there are no prerequisites for any adjustment of the value presented for these liabilities. The Group does not use financial derivatives.

#### 3.16 Revenues identification

Revenues from the sale of products are identified when the important risks and benefits of

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

ownership are transferred to the buyer. Revenues from the supply of services are based on the completion stage, determined by the mention until now to the supplied services, as a percentage on the total supplied services.

Interest revenues are identified on a base of time relation, considering the balance of the initial amount and the fiscal period rate until the end of the fiscal period, when it is determined that such revenues will be payable to the Group.

Revenues from dividends are identified as revenues on the date of approval of their distribution.

### 3.17 Expenses

### 3.17.1 Operational leases

Payments made based on operational leases are listed in the results statement as expenses, for the duration of use of the lease.

### 3.17.2 Financing cost

Net financing cost includes the interests on loans, calculated according the real interest rate method. .

#### 3.18 Earnings per stock

Basic earnings per stock are calculated by dividing the net profits of the fiscal period with the average weighted number of common stocks that are in circulation during the specific fiscal period, excluding the average common stocks that were acquired by the Company as own stocks.

### 3.19 Field analysis of the Group activities

«Field » or «department» of the Group activities is any distinguished business activity with special features as to the nature of the activity and the business risks that entails (business field). There is a similar distinction based on the business environment in which the activity is taking place (geographic field).

The Group is mainly active in the fields of Water Supply-Sewerage Systems, in the wider Thessaloniki region, with the aim to rationally manage the water resources on one hand and also to collect and process sewage in a way that high quality services can be offered to society in favor of hygiene and a clean environment.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

### 4. Financial risk management

The Group is exposed to all kinds of financial risks, most important of which being the price risk and credit risk. The risk management policies of the Group aim to minimize any negative effects from these risks to the financial position and performance of the Group. The Company's General management is responsible for risk management and the Board of Directors approves the respective policies. The management of financial risks involves the identification, estimation and compensation of financial risks in close co-operation with the Groups operational units.

#### A. Market risk

### (i) Exchange risk

The Group faces no exchange rate risk as all transactions are in euros.

#### (ii) Price risk

Regarding price risk the Group is exposed to a fluctuation of the variables that determine mainly the prices for water supply and sewerage services. EYATH S.A's invoicing policy has been determined for the period 1.1.2007 until the 31.12.2011 providing a yearly average increase of approximately 4%, with the exception of 2009 for which the Company has decided to freeze invoices for the basic levels of consumption.

The Group is also affected by the change in payroll cost mainly due to the increase in salaries, as stated in the collective contract and due to the retirement of employees. Finally, the Group is also affected by the changes in the cost for the maintenance and repair of the networks. Management closely monitors the changes in the cost elements and accordingly provides for the limitation of the effects.

### (iii) Cash flows and fair interest value risk

The Group faces no interest rate risk in the loan liabilities as the loans are in fixed rate only. On the contrary it faces a limited risk of interest rates in the interest-bearing elements of the Assets (deferred deposits) and the revenues from the interests is affected by the changes in the interest rates.

Management closely monitors the fluctuations in the interest rates and evaluates per case the duration and kind of deferred deposits.

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

On the 31/12/2008, if the deposits interest were 1,00 % higher/lower and the rest of the variables remained fixed, the after tax results of the ending fiscal period would appear increased/decreased by  $\leq 43$  approximately, mainly due to the higher/lower revenues from credit cards that would occur.

#### B. Credit risk

The Group has a clear credit policy, which is applied with great consistency. Moreover the large number of customers allows the disperse of the customer base and therefore it contributes to low credit risk in relation to such claims. Management constantly monitors the financial state of the customers, the size and limits of the supplied credit. At the end of the fiscal period, the company management maintained there was no significant credit risk that was not covered by a secure or adequate provision for foul claim. The maximum exposure to credit risk is reflected by the height of each element of the assets.

### Γ. Liquidation risk

Liquidation risk is kept at low levels through the availability of adequate cash availables. The maturity of the financial liabilities on the 31<sup>st</sup> of December 2008 (31<sup>st</sup> of December 2007) for the Group is analyzed as follows:

### **MATURITY BOARD OF FINANCIAL LIABILITIES 31/12/2008**

(the amounts are expressed in thousands of euros)

### Δ. Capital risk management

The Group goal when managing capital is to ensure the possibility of continuous activity, in order to provide profit to the stockholders and benefits to other interested parties as well as to maintain a capital structure that would decrease the cost of capital

Capital is previewed based on a leverage factor. The factor is calculated as the net debt divided by total capita. Net debt is calculated as the total loans (including short term and long-term loans as presented in the balance sheet) less cash reserves. Total capital is calculated as equity capital appearing in the balance sheet plus net debt. More particularly:

Total loans
Less: cash availables
Net debt
Total of equity capital
Total capital
Leverage factor

-11,78%	-11,70%			

### Reasonable value

The amounts by which cash reserves appear in the balance sheet, claims and short-term liabilities approach the respective reasonable values due to the short-term expiration.

#### 5. Important accounting judgments, assessments and assumptions

The Group's management proceeds with judgments, assessments, admissions and evaluations in order to select the most appropriate accounting principles and rules in relation to the future development of facts and situations and transaction occurring currently. The said assessments and admissions are re-evaluated sporadically in order to respond to the current data and reflect the occasional risks and they are based on prior experience of the Group's management in relation to the nature and level of the respective transactions and facts.

The basic assessments and evaluations regarding facts whose development could affect the funds in the financial statements for the next twelve months are the following:

#### Recoverability of claims - Foul claims

The management judgment regarding the assessment for the recoverability of claims is an

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

important clue for the evaluation of the rest as foul or not and the measurement of a likely impairment of value.

Bad accounts are presented with the amounts that could be recovered. The assessments for the amounts that are expected to be recovered derive after an analysis as well as by the Company experience regarding the possibility of bad customer claims.

#### **Obsolence of reserves**

The management judgments and knowledge regarding the obsolence or not of the remaining reserves is subject to subjective (judgment regarding the use of the reserves) as well as to objective criteria (natural appropriateness of the reserve).

#### **Provision for income tax**

For the determination of the provisions for the income tax, important assessments are required. There are many transactions and estimations for which the exact determination of the tax is uncertain during the usual course of a company. The Group recognizes the liabilities for probable tax audit issues based on estimations for the additional taxes likely to owe. When the final result from the taxes of these cases differs from the amount originally recognized in the financial statements, these differences affect the income tax of that fiscal period in which the amounts are finalized. The effects from the change in factors in accordance with L.3697/25.09.2008 have been included in the results statement of the fiscal year 2008.

#### Working life of amortized assets

The Group's management examines the working lives of the amortized assets in each fiscal period. On the 31<sup>st</sup> of December 2008 the management estimates that the working lives represent the expected use of the assets.

### 6. Change in the tax accounting policy - re-adjustment of funds in Financial lists (IAS 8)

During the ending period an audit of the inaudited fiscal periods was conducted for the years 2001 to 2003 by the responsible tax authorities, which resulted in differences in taxes and additions of total amount € 1.052. By the opportunity of the given tax audit, the company's management received an updated image regarding the adequacy thoroughness of the books and their elements, which was the basic cause for the change in the adopted accounting tax

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

policy. In particular, according to the adopted tax accounting policy that was valid up until the end of the closing fiscal period, the Company identified the tax liabilities after an audit of the inaudited fiscal periods by the tax authorities after a completion of the audit and finalization of the respective tax amounts. Management decided to change the above adopted accounting tax policy for inaudited fiscal periods to yearly provisions that would cover any likely difference in taxes which might result from a future tax audit. Management believes that by this change, despite the fact that the estimation for a provision for inaudited fiscal periods is not easy because of the various ambiguities in many tax provisions, the thoroughness of the financial statements will be enhanced. Therefore, management, based on the findings of the recently conducted tax audit, proceeded with the determination of a total, relevant tax burden and its presentation in the respective fiscal periods it should burden.

For the re adjustment of the affected funds of the already published financial statements of the previous fiscal periods, the Company has applied the provisions of the IAS 8 "Accounting Policies, alterations in the Accounting Assessments and Faults". From the change I the accounting policy for taxes of inaudited fiscal periods, the Balance Sheet, Equity Capital and Results of previous fiscal years ending on the 31<sup>st</sup> of December 2004, 31<sup>st</sup> of December 2005, 31<sup>st</sup> of December 2006 and the 31<sup>st</sup> of December 2007 re adjusted as follows:

#### 6.1 Re- adjustment of allotments for the Financial Statements for the fiscal year 2004

The Company Financial Statements allotments, which were re adjusted due to the change in the accounting policy, for the fiscal year ending on the 31<sup>st</sup> of December 2004, are as follows: **6.1.1 Fiscal year 2004** – *Balance Sheet*: The Balance Sheet allotments for the fiscal period ending on the 31<sup>st</sup> of December 2004 were re adjusted as follows:

According to recent institutional changes in tax legislation a gradual decrease in the income tax rate is provided, for legal entities, for the years 2010 until 2014 from 24% to 20% respectively. The Group, taking into consideration the new tax rates and in accordance with the provisions of IAS 12 "Income Tax", has re adjusted accordingly the height of the deferred tax claims and liabilities by  $\in$  66 identifying the relative difference (debt) as revenue in the results statement of the closing fiscal period.

#### 15. Earnings per stock

The estimate of the basic earnings (loss) per stock is as follows:

	THE G	ROUP	THE CO	MPANY
	1/1- 31/12/2008	1/1-31/12/2007	1/1- 31/12/2008	1/1- 31/12/2007
Net profit delivered to the company's common stockholders	15.128	12.441	15.115	12.441
Average weighted number of stocks in circulation	36.300.000	36.300.000	36.300.000	36.300.000
<b>Less:</b> Average weighted number of own stock	0	0	0	0
Total average weighted number of stocks in circulation	36.300.000	36.300.000	36.300.000	36.300.000
Basic earnings (loss) per stock (in €)	0,4168	0,3427	0,4164	0,3427

The published earnings per stock of the previous fiscal period  $1/1 - 31/12/2007 \le 0.3510$  have been adjusted to  $\le 0.3427$  on account of the effects of the re adjustment of the Income Tax in the respective fiscal period (see note 6.4.2)

TOTAL	<u>36.300.000</u>	<u>100,00%</u>

The Company's above par capital stock derived during the fiscal period 2002, of total amount

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

€ 2.830, with the issuance of stocks instead of cash at a value larger than their nominal value.

#### 24. Reserves

The Group and Company reserves are analyzed as follows:

	THE G	ROUP	THE COI	MPANY	
	On the 31/12/2008 On the 31/12/2007		On the 31/12/2008	On the 31/12/2007	
Regular reserves	5.316	4.560	5.315	4.560	
Tax free reserves according to special provisions of the law	3.329	3.329	3.329	3.329	
Reserves for own stocks	1	1	1	1	
Other reserves	16.584	16.584	16.584	16.584	
Balance	<u>25.230</u>	<u>24.474</u>	<u>25.230</u>	<u>24.474</u>	

According to the provisions of the Greek corporate law, the creation of a «regular reserve» - with the yearly transfer of an amount equal to the 5 % of the yearly after tax profits-is mandatory until the regular reserve reaches the  $^{1}/_{3}$  of the capital stock. The «regular reserve» is distributed only upon the Company's liquidation, it can however, be compensated with accumulated loss.

The tax law reserves were created based on the provisions of the tax legislation which, either offer the opportunity of transferring the taxation of certain revenues to the time of their distribution to the stockholders, or offer tax relieves as a motive for investment activities.

#### 25. Loans

Group loans have been issued by the Greek State, for the financing of the Company investment programs. All loans are in euros with a yearly nominal fixed interest rate of 3%. The Company provides for accrued interests for the service of loans and burdens the financial statement of the occasional fiscal period. The analysis of the loans expiration is presented in note 4.

There are no guarantees or ownership bindings or uses on the fixed assets and the other assets of the Company.

### 26. Employee Rights

# Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

The Group and the Company's obligation towards their employees in Greece, for the future payment of benefits depending on how long each employee has been employed, is added and depicted based on what is to be rightfully paid for each employee, on the date of the balance sheet, discounted in its present value in relation to the predicted time of payment. The accrued benefits for each fiscal period burden the results of the fiscal period with a respective increase in the retirement liabilities. The payment of benefits to the retiring employees decreases respectively the pension liabilities.

The number of Company employees and the respective salary cost are as follows:

	THE GR	OUP	THE CO	MPANY
	On the 31/12/2008	On the 31/12/2007	On the 31/12/2008	On the 31/12/2007

### Basic assumptions of actuarial study:

Discount rate	4,8%
Inflation	2,5%
Future pay rises	4,0%
Expected remaining working life	8,40

### 27. Provisions for risks and expenses

A provision for the amount of €2.165 regarding probable liabilities which could result from the judicial settlement of litigations with third parties as well as the Group and Company staff has been formed.

Moreover, a provision of  $\leq$ 2.100 has been formed, as analyzed in Note 6, regarding the estimation of the probable tax liabilities likely to occur during the tax audit of the inaudited fiscal periods by the tax authorities. For the closing fiscal period the respective formed provision amounted to  $\leq$  200.

### 28. Future grant revenues

The grants regard fixed assets investments, which have been carried out in accordance to tax laws. The grants are recognized as revenues along with the depreciation of the fixed assets –mostly machinery- that were funded. The grant amount transferred to the results statement of the fiscal period was  $\leq$  290 (2007:  $\leq$  139). Depending on the provisions of the

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

law in the frame of which the grant was given, there are certain limitations as to the transfer of funded machinery, and as to the differentiation of the legal entity of the company receiving the grant. During sporadic audits by the authorities there has been no case of non compliance with these limitations.

### 29. Other long term liabilities

These are received guarantees of new water services customers for water consumption and the installation of water meters.

### 30. Suppliers and Other Liabilities

The total Group and Company liabilities towards suppliers and other third parties are analyzed as follows:

	THE G	ROUP	THE CO	MPANY
	On the 31/12/2008	On the 31/12/2007	On the 31/12/2008	On the 31/12/2007
Suppliers	4.580	4.472	4.561	4.472
Payable checks	1.946	1.738	1.946	1.738
Customer Advance payments	68	0	0	0
Insurance Organizations	867	888	867	888
Liabilities towards associated businesses	0	0	27	0
Payable dividends	30	57	30	57

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

#### 31. Transactions and Balances with Associated Persons

The Group considers the members of the Board of Directors, the Managerial members as well as the stock holders holding a percentage higher than the 5% of its capital stock (including their associated persons) as associated persons. The transactions and balances of the Group and Company associated persons for the fiscal period 1/1/2008-31/12/2008 and on the 31<sup>st</sup> of December 2008 respectively, are analyzed in the below board:

Amounts in thousands of Euros	GROUP	COMPANY
a) Revenues	0	0
b) Expenses	0	157
c) Claims	0	6
d) Liabilities e) Transactions and fees of managerial members and executive	0	27
members	863	797
f) Claims from managerial members and executive members	2	2
g) Liabilities towards managerial members and executive members	51	2

The Company expenses of €157 regard water meter measurement services supplied by the subsidiary company «EYATH SERVICES S.A». The company claim for €6 regards foundation expenses from EYATH S.A on behalf of the subsidiary company «EYATH SERVICES S.A». The Company liability of €27 regards services of distribution of receipts and water meter measurements towards the subsidiary « EYATH SERVICES S.A».

#### 32. Commitments and Likely Liabilities

#### 32.1 Likely liabilities from litigations or disputes under arbitration

On the 31/12/2008 there are legal actions, solicitor's letters and in general future claims against the Group to the total amount of  $\leq 2.552$ . For these cases a provision of  $\leq 2.165$ , has been formed which is included in the long-term liabilities account "Provisions for risks and expenses". The Group's legal department estimates that there will be no other cases, other than those a provision has been formed for, whose judicial outcome could significantly affect the assets and operation of the Group.

#### 32.2 Commitments from operational leases

On the 31<sup>st</sup> of December 2008 the Group had drafted contracts on the operational lease of buildings and means of transport which end until 2012. The rent for the operational leases

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

which were included in the results statement of the current fiscal period amounted to € 533 (2007: 482).

The future minimum rent payments for operational lease of a premises based on a non cancelable contract of operational lease are as follows:

BOARD	NOTES	
	2008	2007
0-1 YEARS	482	533
1-5 YEARS	1.172	1.568
Over 5 years	0	86
	1.654	2.187

#### 32.3 Other probable liabilities

The Company on the 31/12/2008 had granted letters of guarantee for the proper performance of contract works to the amount of € 299 (2007: € 287).

The Company has not been audited by the respective tax authorities for the fiscal years 2004 up until 2008 and therefore, there has been an accumulated provision for probable taxes and surcharges of €2.100 (see note 27).

The subsidiary company has not been audited since its establishment in 2008. No probable taxes and surcharges are expected to be imposed and therefore no such provision has been formed.

#### 33. Number of employees

The Group's number of employees at the end of the current fiscal period was 439 persons while at the end of the previous fiscal period it was 509 persons.

#### 34. Important facts for the fiscal period 1/1-31/12/2008

### Cooperation between EYATH S.A and E. MALAMATINAS Company S.A

A cooperation agreement between EYATH S.A and E. MALAMATINAS S.A in the filed of bottled water production was signed, following a decision of the EYATH BoD, on Monday 19-5-2008 and was approved by the Regular General Stockholders Meeting on the 20.6.2008. A non disclosure agreement had been priorly signed (NDA) on the 19-3-2008 and a Memorandum of Understanding (MoU) on the 8-4-2008. The principles framework agreement regards the realization of a joint investment for the construction of a drinking water bottling unit. In particular, the composition of a joint company is provided in which EYATH S.A will be the main stockholder controlling a percentage of 55%, and appointing

## Yearly Financial Report For the fiscal period from the 1<sup>st</sup> of January 2008 until the 31<sup>st</sup> of December 2008

(the amounts are expressed in thousands of euros)

four members in the board of directors among which the chairman, while E. MALAMATINAS S.A will hold a percentage of 45% and appoint three members in the board of directors among which the managing director.

Up until the ending of the current fiscal period, the new company had not yet been established.

#### Freezing of the water supply and sewerage services invoice.

On the 18-11-2008 The Board of Directors decided to freeze the water supply invoice(water price) and sewerage services (sewerage percentage) for 2009 at 2008 prices for the first three grades of consumption (low and middle incomes) and the reduction of the invoice for 2009 by 20% for families with more than five members.

#### **Composition of subsidiary company**

In 2008, the Company proceeded with the composition of a 100% subsidiary company EYATH Services S.A with the aim to provide all kinds of Water Supply and Sewerage Systems, telecommunications services as well as the production and sale of electricity. The subsidiary company is based at 127 Egnatias Street. The subsidiary's capital stock amounts to € 60.

#### Modification of Fiscal Period Time plan for Raised Capital

The Company's Board of Directors by the 907/29.12.2008 decision, approved and modified the time plan for the materialization of raised capital for the construction of a building in the years 2009-2010.

#### 35. Facts Posterior to the Balance Sheet

On the 4-2-2009, the BoD of EYATH S.A approved the final plan of the union contract proposed by the Organization for Mediation and Arbitration (O.ME.D) the duration of which is for two years, that is from the 1-1-2008 until the 31-12-2009, and provides for a 4,5% increase in basic salaries of employees of all categories for 2008 and an increase of 3,5% in the 2009 salaries.

There are no facts other than those mentioned above posterior to the Balance Sheet of the 31<sup>st</sup> of December 2008 that regard the Group and the Company, which require mentioning according to the International Standards of Financial Reporting.

Results report from the performance of Agreed in Advance Procedures on the Distribution of Raised Capital Report To the BoD of the company «E.Y.A.TH. S.A.»

According to the order received by the BoD of the company EYATH S.A (hereafter «Company»), we have carried out the below agreed in advance procedures in the frame of what is provided by the regulatory framework of the Athens Stock Exchange as well as the relative legislation of the stock market, regarding the Distribution of Raised Capital Report of the Company, which regards the capital stock increase by cash payment, carried out on the 13-09-2001. The Company Management is responsible for drafting the above mentioned Report. We have undertaken this project in accordance with the International Standard of Relative Services 4400, ro which governs any «Assignments to Perform Agreed in Advance Procedures Relative to Financial Informing». It is our responsibility to perform the below agreed in advance procedures and announce the results

- Procedures:

  1. We have compared the amounts mentioned as disbursements in the attached «Distribution of Raised Capital Report from the Capital Stock Increase by cash payment», with the respective amounts recognized in the Company books and data, for the time period they are mentioned.

  2. We have examined the thoroughness of the Report, the consistency of its contents with what was mentioned in the Informative Bulletin, issued by the Company for this purpose, as well as with the respective decisions and announcements of the responsible Company departments including what was mentioned in the alteration of the timetable for the distribution of raised funds.
- Results:

  1. The amounts per fiscal year that show up as disbursements in the attached «Distribution of Raised Capital Report from the Capital Stock Increase by cash payment», agree with the Company books and data at the time period they are mentioned.

  2. The contents of the Report include the minimum information required for this purpose according to the regulatory framework of the Athens Stock Exchange and the relative legislation of the stock market and is consistent with the mentioned in the Informative Bulletin and the relative decisions and announcements of the responsible Company departments including what was mentioned in the alteration of the timetable for the distribution of raised funds.

Given that the performed work is neither an audit nor a review, according to the International Auditing Standards or the International Assignment Review Standards, we do not express any other assurance other than what we have mentioned above. Had we performed additional procedures or performed an audit or review we would be likely to have found further issues other than those we mentioned in the previous paragraph. The present Report is addressed exclusively to the Company's BOD, in the frame of its obligations according to the regulatory framework of the Athens Stock Exchange and the relative legislation of the stock market. Therefore, this Report is not to be used for other purposes as it is limited to the data mentioned above and it does not extend to the financial lists drafted by the Company for the fiscal period which ended on the 31/12/2008 for which we have issued a separate Review Report, dated 26° of March 2000
