ACCOUNTING POLICIES APPLIED

1.1 Basis of prsentation

The Group has prepared the condensed interim financial statements as at 31.3.2014 in accordance with International Accounting Standard (IAS) 34, Interim Financial Reporting.

The financial statements have been prepared on the historical cost basis except for the following assets and liabilities which are measured at fair value:

- Securities held for trading
- Derivative financial instruments
- Available for sale securities
- The convertible bond issued by the Bank which is included in "Debt securities in issue held by institutional investors and other borrowed funds".

The financial statements are presented in Euro, rounded to the nearest thousand, unless otherwise indicated.

The accounting policies applied by the Group in preparing the condensed interim financial statements are consistent with those stated in the published financial statements for the year ended on 31.12.2013, after taking into account the following amendments to standards which were issued by the International Accounting Standards Board (IASB), adopted by the European Union and applied on 1.1.2014:

- Amendment to International Financial Reporting Standard 10 "Consolidated Financial Statements", to International Financial Reporting Standard 12 "Disclosure of Interests in Other Entities" and to International Accounting Standard 27 "Separate Financial Statements": Investment Entities (Regulation 1174/20.11.2013)
- Amendment to International Accounting Standard
 32 "Offsetting Financial Assets and Financial Liabilities" (Regulation 1256/13.12.2012)
- Amendment to International Accounting Standard **36** "Recoverable amount disclosures for non-financial assets" (Regulation 1374/19.12.2013)
- Amendment to International Accounting Standard 39 "Novation of derivatives and continuation of hedge accounting" (Regulation 1375/19.12.2013)

The adoption of the above amendments by the Group had no impact on its financial statements.

The adoption by the European Union, by 31.12.2014, of new standards, interpretations or amendments, which have been issued or may be issued during the year by the International Accounting Standards Board (IASB), and their mandatory or optional adoption for periods beginning on or after 1.1.2014, may affect retrospectively the periods presented in these interim financial statements.

1.2 Estimates, decision making criteria and significant sources of uncertainty

The Group, in the context of applying accounting policies and preparing financial statements in accordance with the International Financial Reporting Standards, makes estimates and assumptions that affect the amounts that are recognized as income, expenses, assets or liabilities. The use of estimates and assumptions is an integral part of recognizing amounts in the financial statements that mostly relate to the following:

Fair value of assets and liabilities

For assets and liabilities traded in active markets, the determination of their fair value is based on quoted, market prices. In all other cases the determination of fair value is based on valuation techniques that use observable market data to the greatest extent possible. In cases where there is no observable market data, the fair value is determined using data that are based on internal estimates and assumptions eg. determination of expected cash flows, discount rates, prepayment probabilities or potential counterparty default.

Impairment losses of financial assets

The Group, when performing impairment tests on loans and advances to customers, makes estimates regarding the amount and timing of future cash flows. Given that these estimates are affected by a number of factors such as the financial position of the borrower, the net realizable value of any collateral or the historical loss ratios per portfolio, actual results may differ from those estimated. Similar estimates are used in the assessment of impairment losses of securities classified as available for sale or held to maturity.

Impairment losses of non - financial assets

The Group, at each balance sheet date, assesses for impairment non – financial assets, and in particular property, plant and equipment, investment property, goodwill and other intangible assets, as well as its investments in associates and joint ventures. Internal estimates are used to a significant degree to determine the recoverable amount of the assets, i.e. the higher between the fair value less costs to sell and the value in use.

Income Tax

The Group recognizes the amounts of current and deferred income tax based on estimates concerning the amount of taxable profits, based on which the amounts of tax expected to be paid or recovered in the current and future periods are determined. Estimates are affected by factors such as the practical implementation of the relevant legislation, the

expectations regarding the existence of future taxable profit etc. Future tax audits, changes in tax legislation and the amount of taxable profit actually realised, may result in tax payments other than those recognized in the financial statements of the Group.

Employee defined benefit obligations

Defined benefit obligations are estimated based on actuarial valuations that incorporate assumptions regarding discount rates, future changes in salaries and pensions, as well as the return on any plan assets. Any change in these assumptions will affect the amount of obligations recognized.

Provisions and contingent liabilities

The Group recognises provisions when it estimates that it has a present legal or constructive obligation that can be estimated reliably, and it is almost certain that an outflow of economic benefits will be required to settle the obligation. In contrast, when it is probable that an outflow of resources will be required, or when the amount of liability cannot be measured reliably, the Group does not recognise a provision but it provides disclosures for contingent liabilities, taking into consideration their materiality. The estimation for the probability of the outflow as well as for the amount of the liability are affected by factors which are not controlled by the Group, such as court decisions, the practical implementation of the relevant legislation and the probability of default of the counterparty, for those cases which are related to the exposure to off-balance sheet items.

The estimates and judgments applied by the Group in making decisions and in preparing the financial statements are based on historical information and assumptions which at present are considered appropriate. The estimates and judgments are reviewed on an ongoing basis in order to take into account current conditions, and the effect of any changes is recognized in the period in which the estimates are revised.

1.2.1 Going concern principle

Following the successful completion of the share capital increase of the Bank, amounting to \in 1.2 billion, which, as

mentioned in detail in note 19, aimed, inter alia, at covering the capital needs of the Group, as these were determined in March 2014 by the Bank of Greece under a diagnostic study for the capital needs of the banks, there are no uncertainties regarding the application of the going concern principle, based on which the financial statements as at 31.3.2014 were prepared.

1.2.2 Estimation of the Group's exposure to the Hellenic Republic

Regarding the uncertainties about the estimations for the recoverability of the Group's total exposure to the Hellenic Republic, there have been no significant changes compared to those disclosed in note 1.31.2 of the annual financial statements as at 31.12.2013.

In addition, it is noted that, on 21.5.2014, the Greek Government Bond, of a nominal value of \in 0,9 billion, which is related to the issuance of the preference shares of the Greek State according to Law 3723/2008, was repaid.

1.2.3 Recoverability of deferred tax assets

The Group recognizes deferred tax assets to the extent that it is probable that it will have sufficient future taxable profit available, against which, deductible temporary differences and tax losses carried forward can be utilized. The main categories of deferred tax assets as well as the methodology applied for the estimation of their recoverability, which is based on the revised restructuring plan that is going to be submitted to the DGCom, are described in detail in note 1.31.3 of the annual financial statements as at 31.12.2013.

The main uncertainties concerning the estimations for the recoverability of the deferred tax assets relate to the achievement of the goals set in the Bank's business plan, which is affected by the general macroeconomic environment in Greece and internationally. At each balance sheet date, the Group reassesses its estimation regarding the recoverability of the deferred tax assets or the recognition of the non-recognised deferred tax in conjunction with the development of the factors that affect them.

3. Income tax

In accordance with article 48 of Law 4172/23.7.2013 "Income tax, emergency implementation measures of Law 4046/2012, Law 4093/2012 and Law 4127/2013 and other provisions", dividends paid either by local or foreign companies of the same Group, are relieved both from income tax and withholding tax provided that the parent company's participation in the share capital of the subsidiary is 10% or higher, is retained for at least 2 years and the legal entity distributing the dividend is not based in a non-cooperating country. The above are applicable from 1.1.2014.

In accordance with article 72 of Law 4172/23.7.2013, the non-distributed or capitalized tax-free reserves of the legal entities as recorded on the last balance sheet issued before 1.1.2014, and deriving from non-taxable profits as defined by Law 2238/1994, in case of distribution or capitalization until 31.12.2013, are subject to taxation at a rate of 15% which exhausts the tax liability of the entity and its shareholders. From 1.1.2014 onwards, the above mentioned reserves are compulsory offset at the end of each tax year against losses incurred by any cause in the last 5 years until they are exhausted. But, in case of distribution or capitalization they are subject to taxation on a self assessment base at a rate of 19%. Since 1.1.2015, the non taxable reserves cannot be established.

For the Bank's subsidiaries and branches operating in other countries, the applicable nominal tax rates for accounting periods 2013 and 2014 are as follows:

Cyprus	12.5
Bulgaria	10
Serbia	15

Romania	16
FYROM	10(1)
Albania	10
Ukraine	19
Jersey	10
United Kingdom	23(2)

According to Law 84/29.4.2011 an additional tax was imposed for credit institutions operating in Cyprus, which is calculated at a rate of 0.095% on their total deposits payable in four installments. After the amendment of Law 28/30.4.2013 the tax rate reached 0.15%.

In accordance with article 82 paragraph 5 of Law 2238/94, for fiscal year 2011 and thereafter, the statutory auditors and audit firms conducting statutory audits to a Societe Anonyme (AE), are obliged to issue an Annual Tax Certificate on the implementation of tax provisions on tax issues. The above mentioned tax certificate is submitted to the entity under audit within 10 days from the submission of the corporate income tax return, as well as, to the Ministry of Finance, electronically, no later than ten days following the date of the approval of the financial statements from the General Assembly of the Shareholders.

After eighteen months from the issuance of a tax unqualified certificate and on the precondition that no tax offences have been identified by the Ministry of Finance audits, the tax audit of the year is considered finalized.

For the fiscal year 2013 the tax audit for domestic entities is in progress and no material findings are expected.

⁽¹⁾ From 1.1.2009 non distributable profits are not subject to tax. When distributed they are taxed at the rate applicable on the date of distribution.

⁽²⁾ For the year 2012 up to 31.3.2013 the tax rate was 24%.

The income tax in the income statement form continuing operations is analyzed on the table below while the income tax from discontinued operations is analyzed in note 22.

For the first three month period 2014, "Retained Earnings" includes a deferred tax liability amounting to €1,782, arising from the share capital issue costs which were recorded on the same account and relate to the share capital increase which was completed during the reporting period.

For the first three month period 2013, "Retained Earnings" includes a deferred tax liability amounting to €439, arising from purchases/sales of hybrid securities.

4. Earnings/(losses) per share

a. Basic

Basic earnings/(losses) per share are calculated by dividing the profit/(losses) after income tax attributable to ordinary equity shareholders of the Bank, with the weighted average number of ordinary shares outstanding, after deducting the weighted average number of treasury shares held by companies of the Group, during the period.

For the calculation of basic earnings/(losses) per share, profit or loss for the period is adjusted by deducting the after-tax amount of dividends for preference shares that have been classified as equity. The after-tax amount of preference dividends that is deducted is:

- The after-tax amount of any preference dividends on noncumulative preference shares declared in respect of the period and
- ii. The after-tax amount of preference dividends for cumulative preference shares required for the period, irrespective of whether dividends have been declared or not.

The Bank has issued non-cumulative preference shares, according to Law 3723/2008.

b. Diluted

Diluted earnings/(losses) per share are calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Group does not have dilutive potential

ordinary shares and additionally, based on the preference shares' terms of issuance and the convertible bond loan with Credit Agricole S.A., basic and dilutive earnings/(losses) per share should not differ.

Weighted average number of outstanding ordinary shares	11,004,957,294	965,652,432

The weighted average number of common shares, on 31.3.2014, is calculated based on the days during which the ordinary shares are in issue compared to the total number of days of the reporting period, taking into account the new total number of common shares resulting from the share capital increase of Bank on 28.3.2014 (note 13).

The weighted average number of outstanding ordinary shares of the comparative period has been adjusted using a factor of 1.8074 in order to reflect the impact to the above ratio from the share capital increase on 6.6.2013 at an exercise price that was lower compared to the implied price.

The Bank and Alpha Leasing A.E. have proceeded in securitizing consumer, corporate loans, mortgage loans, credit cards and finance leases through special purpose entities controlled by them.

The amount of €99,096 as of 31.12.2013 refers to securitized mortgage loans of Emporiki Bank. The transaction was withdrawn on 24.2.2014 after the exercise of the respective option of the Bank.

Based on the contractual terms and structure of the above transactions (e.g. allowance of guarantees or/and credit en-

hancement or due to the Bank owing the bonds issued by the special purpose entities), the Bank and Alpha Leasing A.E. have retained in all cases the risks and rewards deriving from the securitized portfolios.

The Bank has proceeded with the direct issuance of covered bonds, secured by mortgage loans. As of 31.3.2014, the balance of the covered bonds amounts to \in 3.7 billion and the value of mortgage loans provided as coverage for the above mentioned bonds amounted to \in 4.3 billion.

⁽¹⁾ In addition to the allowance for impairment losses and advances to customers, a provision of €67,083 (31.12.2013: €66,986) has been recorded to cover credit risk relating to off-balance sheet items. The total provision recorded to cover credit risk amounts to €7,518,418 (31.12.2013: €7,023,120).

In accordance with the agreement with Credit Agricole for the acquisition of Emporiki Bank, the Bank issued on 1.2.2013 a convertible bond amounting to €150 million, with a nominal value of €100 thousand per bond.

This security is interest free and can be converted in common shares, after the exercise of the owner's relevant right, if on the fourth anniversary following its issuance the following conditions are met:

- The number of the Group's branches in Greece is decreased by at least 20% compared to its issuance date on 1.2.2013.
- The Group's Core Tier I capital ratio while accounting for the capitalisation amount from the Hellenic Financial Stability Fund, is not less than the minimum Core Tier I capital

ratio effective on the date the security is converted into common shares.

The number of shares can be calculated by dividing the nominal value with the higher of a) the price with which the HFSF participated in the Bank's share capital increase in the context of its recapitalization and b) the weighted with the volume of transactions average closing prices of the Bank's common shares for a period of three months preceding the conversion date.

In the case of credit default of the issuer the bonds are repaid immediately for one euro per bond.

This security has been classified in liabilities since the number of ordinary shares that the bonds will be converted into is variable, as depending on the share's price.

EQUITY

13. Share capital, Share premium and Retained earnings

a) Share capital

The Bank's share capital as at 31.3.2014 is analysed as follows:

	Opening balance of shares as at 1.1.2014	Share capital increase	Balance of shares as at 31.3.2014	Paid-in capital
a. Ordinary shares				
Number of ordinary shares	10,922,906,012		10,922,906,012	3,276,872
Share capital increase		1,846,153,846	1,846,153,846	553,846
Balance on 31.3.2014	10,922,906,012	1,846,153,846	12,769,059,858	3,830,718
b. Preference shares				
Number of preference shares	200,000,000		200,000,000	940,000
Balance of ordinary and preference shares on 31.3.2014	11,122,906,012	1,846,153,846	12,969,059,858	4,770,718

On 28.3.2014 the share capital increase of the Bank was completed through payment in cash, cancellation of pre-emption rights of existing ordinary and preference shares and distribution of all new shares through a private placement to qualified investors, as specified in article 2 paragraph 1 of Law 3401/2005. An amount of \in 1.2 billion was raised through the increase while the share capital increased by \in 553.8 million. A total amount of 1,846,153,846 new ordinary non-paper shares with voting right were registered and issued of par value \in 0.30 and a offer price of \in 0.65 each.

Thus, on 31.3.2014 the Bank's share capital amounts to €4,770,717,957.40, divided to 12,969,059,858 shares, out of which:

a) 3,843,792,077 ordinary, registered, voting, non-paper shares of nominal value of €0.30 each

- b) 8,925,267,781 ordinary, registered, voting, pursuant to restrictions of the article 7a of Law 3864/2010, non paper shares owned by the Hellenic Financial Stability Fund of nominal value of €0.30 each and
- c) 200,000,000 preference, registered, non voting, in physical form and redeemable shares, issued in accordance with Law 3723/2008, of nominal value of €4.70.

The share capital increase intended, among other things, to create the conditions for satisfaction of the terms of Law 3723/2008 for the repayment of preference shares issued by the Bank and owned by the Hellenic Republic and its replacement with high quality capital (note 19).

On 17.4.2014, the Bank fully redeemed to the Hellenic Republic the total amount of preference shares of \leq 940 million, issued to the latter by the Bank (notes 19 and 25).

b) Share premium

On 28.3.2014 after the share capital increase and the issuance of 1,846,153,846 new shares with a nominal amount of \in 0.30 and an offer price of \in 0.65, the total difference

of € 646.2 million between the nominal value and the shares' offer price was credited in the caption "Share Premium".

c) Retained earnings

- a) Since in 2013 there are no distributed profits in accordance with article 44a of Codified Law 2190/1920, the Board of Directors of the Bank will propose to the Ordinary General Meeting of Shareholders:
 - the non payment to the Greek State of the respective return for 2013 on its preference shares under article 1 paragraph 3 of Law 3723/2008 and
 - the non-distribution of dividends to ordinary shareholders of the Bank for 2013.

It is noted that on 17.4.2014 the Bank fully redeemed to the Hellenic Republic the total amount of preference shares of \leq 940 million.

b) The caption "Retained Earnings" as at 31.3.2014 includes expenses concerning the share capital increase, which is referred to note 13a, amounting to €5.1 million after income tax.

14. Hybrid securities

d) Off balance sheet liabilities

The Group pursuant to its normal operations, is binded by contractual commitments, that in the future may result to changes in its asset structure. These commitments are monitored in off balance sheet accounts and relate to letters of credit, letters of guarantee, undrawn credit facilities and credit limits.

Letters of credit are used to facilitate trading activities and relate to the financing of contractual agreements for the

transfer of goods domestically or abroad, by undertaking the direct payment of the third party bound by the agreement on behalf of the Group's clients. Letters of credit, as well as letters of guarantee, are commitments under specific terms and are issued by the Group for the purpose of ensuring that its clients will fulfill the terms of their contractual obligations.

^{*} These companies have not been audited by the tax authorities since the commencement of their operations.

^{**} These companies received tax certificate for the years 2011.

^{***} These companies have been audited by the tax authorities up to 2009 in accordance with Law 3888/2010 which relates to voluntary settlement for the unaudited tax years.

18. Disclosures relevant to the fair value of financial instruments

Fair value of financial instruments measured at amortized cost

	31.3.2014		31.12.2013	
	Fair value	Carrying amount	Fair value	Carrying amount
Assets				
Loans and advances to customers	50,270,847	50,709,656	51,383,343	51,678,313
Investment securities				
- Held to maturity (1)	1,296,024	1,303,704	1,301,233	1,369,786
- Loans and receivables	4,340,223	4,315,398	4,333,574	4,308,556
Liabilities				
Due to customers	41,569,998	41,842,348	42,373,924	42,484,860
Debt securities in issue (2)	646,006	681,487	673,565	743,336

The table above presents the carrying amounts and fair values of financial assets and liabilities which are mesured at amortized cost.

The fair value of loans is estimated based on the interbank market yield curves by adding a liquidity premium and spread per loan category and business unit for the expected loss. The fair value of deposits is estimated based on the interbank market yield curves by deducting customer's spread depending on the type of deposit. In both of these cases, the future cash flows (floating rate) are calculated based on the implied forward rates until their maturity.

The fair value of held to maturity securities and of debt securities in issue is calculated using market prices, as long as the market is active. In all other cases as well as for the loan portfolio, the discounted cash flows method is used and all significant variables are based either on observable market data or on a combination of observable and non-observable market data.

The fair value of other financial assets and liabilities which are mesured at amortized cost does not differ materially from the respective carrying amount.

Derivative financial liabilities	212	1,372,706	582	1,373,500
Convertible bond		39,600		39,600

The tables above present the fair value of financial instruments which are measured at fair value based on the inputs used for the fair value measurement.

Securities which are traded in an active market and exchangetraded derivatives are classified into Level 1.

The securities whose fair value is calculated based on non-binding market prices provided by dealers-brokers or on the application of income approach methodology using interest rates and credit spreads which are observable in the market, are classified into Level 2. Level 3 classification includes the fair value of securities with complex cash flows, estimated using significant unobservable inputs, for which external market makers do not provide indicative prices in the market and securities traded in a market which is considered inactive due to lack of liquidity.

The fair value of non listed shares, as well as shares not traded in an active market is determined based on the provisions of the Group which relate to the future profitability of the issuer after taking into account the expected growth rate of its operations, as well as the weighted average rate of capital return which is used as a discount rate. Given that the above parameters are mainly non observable, the valuation of these shares is classified in Level 3.

For the valuation of over the counter derivatives income approach the following methodologies are used: discounted cash flow models, option-pricing models or other widely accepted valuation models. Valuations are checked on a daily basis with the respective prices of the counterparty banks in the context of the daily process of provision of collaterals and settlement of derivatives. If the non observable inputs are significant, the fair value that arises is classified into Level 3 or otherwise in Level 2.

The Group recognizes the transfer between fair value hierarchy Levels at the end of the reporting period.

During the period, non material transfers were made in available for sale portfolio, between Levels 1 and 2 due to the change of the conditions that determined the market as active or not.

The table below presents the valuation methods used for the measurement of Level 3 fair value:

	31.3.2014				
	Total fair value	Fair value	Valuation method	Significant non-observable inputs	
Available for sale bonds	13,668	13,668	Based on issuer price	Price	
Available for sale shares	68,957	68,957	Discounted cash flows – Multiples valuation method –Cost of acquisition	Future profitability of the issuer	
Derivative Financial Liabilities	1,517	25	Discounted cash flows - Black Scholes valuation model with shares basket being the underlying instrument	Coefficient of variation and correlation coefficient between shares	
Denvative imancial Liabilities		1,492	Discounted cash flows with interest rates being the underlying instrument	Valuation of reserve adequacy for payment of hybrid secutities' dividends	

For all financial instruments measured at fair value classified in Level 3 due to the limited exposure of the Group on the specific financial instruments, a reasonable variation in non-observable inputs would not affect significantly the results of the Group.

A reconciliation for the movement of financial instruments measured at fair value in Level 3 is depicted below.

19. The Bank's recapitalization framework

On 6.6.2013, the Bank completed the share capital increase in accordance with the decisions made by the second iterative Extraordinary General Meeting of 16.4.2013 and the Board of Directors meeting of 30.4.2013, based on the provisions of Law 3864/2010 amounting to \in 4.571 billion, covering in this way the capital needs of the Group, as these were determined by the Bank of Greece.

After the completion of the recapitalization, the Coordination Framework between the HFSF and the Bank was signed, which determines the relations between the parties and other issues, related to the corporate governance of the Bank and the preparation of the Restructuring Plan.

As set out in the Memorandum of Economic and Financial Policies of May 2013, the Bank of Greece conducted a new stress test, based on the data as at 30.6.2013, in order to update the capital needs of the banks. The results of the stress test were announced in March 2014. Based on the above exercise the Group capital needs were determined at €262 million.

On 7.3.2014, Alpha Bank's Board of Directors decided the invitation of the Extraordinary Meeting of Shareholders that was held on 28.3.2014 and the agenda included the share capital increase of a total amount of up to €1.2 billion, through payment in cash and cancellation of pre-emption rights. The share capital increase intended to:

- a) contribute to the creation of the conditions necessary to satisfy the provisions of Law 3723/2008 regarding the repayment of preferred shares issued by Bank and owned by the Greek State (article 1 of Law 3723/2008) and their replacement with high quality capital, a fact that will give greater flexibility to the Bank's dividend policy in the future,
- b) meet requirements as defined by the results of the diagnostic assessment of the Bank of Greece,
- c) improve the quality of the Bank's regulatory capital and accelerate its adaptation to the new regulatory framework of Basel III and
- d) to facilitate the Bank's financing from international capital markets under the reinforced creditworthiness.

The share capital increase of the Bank amounting to €1.2 billion was completed on 28.3.2014 through a private placement to qualified investors. On 17.4.2014, the Bank fully redeemed to the Hellenic Republic the total amount of preference shares of Euro 940 million, issued to the latter by the Bank.

20. Capital adequacy

The policy of the Group is to maintain a strong capital base to ensure investors, creditors and market confidence and to sustain future development of the business.

Share capital increases are performed through Shareholders' General Meeting or Board of Directors' decisions in accordance with articles of incorporation or relevant laws.

The Group is allowed to purchase treasury shares based on the terms and conditions of law.

The Group's capital adequacy is supervised by the Bank of Greece, to which reports are submitted on a quarterly basis. The minimum requirements regarding Tier I ratio and the capital adequacy ratio of the Group are determined by the Bank of Greece Executive Committee's Acts.

From 1.1.2008 to 31.12.2013, the capital adequacy calculation was determined under the regulatory framework known as Basel II, which has been incorporated in the Greek legislation by Law 3601/2007 and several Acts of the Governor of Bank of Greece. These Acts were amended during 2010, in order to adopt the corresponding changes of EU Directives on risk management, own funds, capital adequacy and large exposures, and some of them were further amended during 2012. On 1 January 2014, the Directive 2013/36/EU of

the European Parliament and of the Council of 26 June 2013 and Regulation 575/2013 of the European Parliament and of the Council of Europe of 26 June 2013 («CRD IV») came into force, which gradually introduce the new framework of capital adequacy of credit institutions, under the standards of Basel III.

Despite their anticipated gradual application, Alpha Bank is well positioned to follow the new standards. The overall estimated impact on its core Tier I ratio is small and arises from negligible non-controlling interests, limited amount of goodwill and intangibles, no substantial insurance risk and the application of the standardized methodology for credit risk.

The actions that contributed to the enhancement of the capital adequacy of the Group during 2013 are the following

- The completion of the merge with Emporiki Bank and the transfer of the net assets of the acquired to the Bank.
- The share capital increase amounting to €4.571 billion.
- The further reduction of risk weighted assets.
- The approval of the tender offer for the buy-back program of securities that constitute part of the capital, improved Core Tier I Capital by €103 million before tax.

On 6.3.2014 the Bank of Greece announced the capital needs for the greek banks, taking into account the expected losses as they were defined in the Baseline Scenario of the Blackrock Solutions assessment. The capital needs of Alpha Bank amounted to \leq 262 million. The amount of \leq 262 million was covered from the recent share capital increase of the Bank amounted to \leq 1.2 billion that was completed on March 2014, while the preference shares of Hellenic Republic were repaid during April 2014.

The capital adequacy ratio compares the Group's regulatory capital with the risks that it undertakes (risk weighted assets). Regulatory capital includes Tier I capital (share capital, reserves, non-controlling interests), additional Tier I capital (hybrid securities) and Tier II capital (subordinated debt, real estate properties revaluation reserves). Risk-weighted assets include the credit risk of the investment portfolio, the market risk of the trading portfolio and the operational risk.

	31.3.2014 (estimate) (2)	31.3.2014 (estimate)	31.12.2013
Common Equity Tier I (1)	15.6%	17.3%	16.1%
Tier I	15.6%	17.3%	16.1%
Capital adequacy ratio	15.6%	17.3%	16.4%

Since 31.3.2013, besides the 8% capital adequacy ratio limit, new additional limits of 9% and 6% for Core Tier I ratios were set with Act 13/28.3.2013 of the Executive Committee of the Bank of Greece. The above mentioned limits should be satisfied on a standalone and on a consolidated basis. Since 31.12.2013 the new Act 36/23.12.2013 of the Executive Committee has been in effect, abrogating as deductible item, the limit of 20% of the Core Tier I Capital.

The establishment of a Single Supervisory Mechanism (SSM) is the first step for the creation of a European banking union that will be based on a Single Rule Book for financial services and on new frameworks for deposit insurance and sanitation. To this direction, special tasks have been assigned to ECB through the Council Regulation 1024/2013 which concern the prudential supervision of credit institutions in the Euro area member-countries and which allows to other member countries to establish a close cooperation with ECB.

As it was announced in October 2013, in line with the Regulation's provisions regarding the SSM, ECB will perform a comprehensive assessment of the banking system, in close cooperation with the National Competent Authorities (NCAs). ECB will complete the assessment until October 2014, prior to assuming its new supervisory tasks in November 2014.

The assessment will be comprised of the following complementary pillars: a) a supervisory risk assessment, b) an asset quality review, c) a stress test in cooperation with European Banking Authority.

The Bank, based on the available data, the stress test and the assessment of capital adequacy that it has performed, estimates that it maintains adequate capital buffer to satisfy the required minimum Common Equity Tier I of 8% and 5.5% of the base and the adverse scenario, respectively.

⁽¹⁾ For 31.12.2013 according to BoG Act 13/28.3.2013 while for 31.3.2014 according to new framework of Basel III.

⁽²⁾ After the repayment of preference shares to the Hellenic Republic.

21. Related-party transactions

The Bank and the Group companies enter into a number of transactions with related parties in the normal course of business. These transactions are performed at arm's length and are approved by the Group's committees.

a. The outstanding balances of the Group's transactions with key management personnel which consist of members of the Board of Directors and the Bank's Executive Committee, their close family members and the entities controlled by them, as well as, the results related to those transactions are as follows:

22. Discontinued operations

On 18.7.2013, the Bank signed a contract to sell the total number of shares in its subsidiary JSC Astra Bank to the Delta Bank Ukrainian Group for an amount of €82 million. The transaction was completed on 19.9.2013.

Ukraine represented a separate geographical area of operations that is part of the Group's South-Eastern Europe sector for reporting purposes per operational segment. Since the Group's investment in JSC Astra Bank, sole company through which the Group operates in Ukraine, has been classified as

held for sale, operations related to JSC Astra Bank are classified as "discontinued operations".

The results and cash flows arising from JSC Astra Bank are presented as "amounts from discontinued operations", in the Income Statement, Statement of Comprehensive Income and Statement of Cash Flows. In the following table, the amounts presented in the Income Statement, and in the Statement of Comprehensive Income are analyzed.

24. Restatement of financial statements

The finalization of valuation at fair value of the assets and liabilities of Emporiki Group at the acquisition date, was held the fourth quarter of 2013. This fact, led to the retrospective accounting recognition of the merger as if it was completed at the acquisition date. As a result, the Interim Financial Statements of 2013 were restated.

Moreover, the Interim Financial Statements of 2013 were restated due to the recognition of JSC Astra Bank as a discontinued operation.

The restated consolidated income statement, balance sheet and comprehensive income for the period up to 31.3.2013, are depicted below.
