Notes to the financial statements

1. General Information

These financial statements include the financial statements of the Parent Company FRIGOGLASS S.A.I.C. (the "Company") and the consolidated financial statements of the Company and its subsidiaries (the "Group"). The names of the subsidiaries are presented in **Note 14** of the financial statements.

Frigoglass S.A.I.C. and its subsidiaries are engaged in the manufacturing, trade and distribution of commercial refrigeration units and packaging materials for the beverage industry. The Group has manufacturing plants and sales offices in Europe, Asia, Africa and America.

The Company is a limited liability company incorporated and based in Kifissia, Attica. The Company's' shares are listed on the Athens Stock Exchange.

The address of its registered office is:

15, A. Metaxa Street
GR 145 64, Kifissia
Athens, Hellas

The company's web page is: *www.frigoglass.com*

The financial statements have been approved by the Board of Directors on **26 April 2013.**

2. Basis of Preparation

This condensed interim financial information for the **three** months ended **31 March 2013** has been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and specifically in terms of IAS 34, 'Interim financial reporting.

The interim condensed financial report should be read in conjunction with the annual financial statements for the year ended **31 December 2012** that is available on the company's web page www.frigoglass.com.

3 Principal accounting policies

The accounting policies adopted in preparing this condensed interim financial information are consistent with those described in the Company and Group annual financial statements for the year ended **31 December 2012.**

There have been no changes in the accounting policies used from those that were used for the preparation of the annual financial statements prepared by the Company and the Group for the year ended **31 December 2012.**

All International Financial Reporting Standards issued by the IASB and effective at the time of preparing these financial statements have been adopted by the European Commission through the endorsement procedure established by the European Commission, with the exception of certain provisions of International Accounting Standard 39 “Financial Instruments: Recognition and Measurement” relating to portfolio hedging of core deposits.

Since the Group and the Company are not affected by the provisions regarding portfolio hedging that are not required by the EU-endorsed version of IAS 39, the accompanying financial statements comply with both IFRS as adopted by the EU and IFRS issued by the IASB.

The financial statements have been prepared under the historical cost convention with the exception of derivative financial instruments that are measured at fair value.

The preparation of these interim financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

New standards, amendments to standards and interpretations: Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current financial year and subsequent years. The Group’s evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

<u>Standards and Interpretations effective for the current financial year</u>

IAS 1 (Amendment) “Presentation of Financial Statements”

The amendment requires entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be recycled to profit or loss in the future.

IAS 19 (Amendment) "Employee Benefits"

This amendment makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits (eliminates the corridor approach) and to the disclosures for all employee benefits. The key changes relate mainly to recognition of actuarial gains and losses, recognition of past service cost / curtailment, measurement of pension expense, disclosure requirements, treatment of expenses and taxes relating to employee benefit plans and distinction between "short-term" and "other long-term" benefits.

IAS 12 (Amendment) "Income Taxes"

The amendment to IAS 12 provides a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in IAS 40 "Investment Property".

IFRS 13 "Fair Value Measurement"

IFRS 13 provides new guidance on fair value measurement and disclosure requirements. These requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs. IFRS 13 provides a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. Disclosure requirements are enhanced and apply to all assets and liabilities measured at fair value, not just financial ones.

IFRS 7 (Amendment) "Financial Instruments: Disclosures"

The IASB has published this amendment to include information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position.

IFRIC 20 "Stripping costs in the production phase of a surface mine"

This interpretation sets out the accounting for overburden waste removal (stripping) costs in the production phase of a mine. The interpretation may require mining entities to write off existing stripping assets to opening retained earnings if the assets cannot be attributed to an identifiable component of an ore body. IFRIC 20 applies only to stripping costs that are incurred in surface mining activity during the production phase of the mine, while it does not address underground mining activity or oil and natural gas activity.

Amendments to standards that form part of the IASB's 2011 annual improvements project

The amendments set out below describe the key changes to IFRSs following the publication in May 2012 of the results of the IASB's annual improvements project.

IAS 1 "Presentation of financial statements"

The amendment clarifies the disclosure requirements for comparative information when an entity provides a third balance sheet either (a) as required by IAS 8 "Accounting policies, changes in accounting estimates and errors" or (b) voluntarily.

IAS 16 "Property, plant and equipment"

The amendment clarifies that spare parts and servicing equipment are classified as property, plant and equipment rather than inventory when they meet the definition of property, plant and equipment, i.e. when they are used for more than one period.

IAS 32 "Financial instruments: Presentation"

The amendment clarifies that income tax related to distributions is recognised in the income statement and income tax related to the costs of equity transactions is recognised in equity, in accordance with IAS 12.

IAS 34, 'Interim financial reporting'

The amendment clarifies the disclosure requirements for segment assets and liabilities in interim financial statements, in line with the requirements of IFRS 8 "Operating segments".

Standards and Interpretations effective for periods beginning on or after 1 January 2014

IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2015)

IFRS 9 is the first Phase of the Board's project to replace IAS 39 and deals with the classification and measurement of financial assets and financial liabilities. The IASB intends to expand IFRS 9 in subsequent phases in order to add new requirements for impairment and hedge accounting. The Group is currently investigating the impact of IFRS 9 on its financial statements. The Group cannot currently early adopt IFRS 9 as it has not been endorsed by the EU. Only once approved will the Group decide if IFRS 9 will be adopted prior to 1 January 2015.

IAS 32 (Amendment) "Financial Instruments: Presentation" (effective for annual periods beginning on or after 1 January 2014)

This amendment to the application guidance in IAS 32 clarifies some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position.

Group of standards on consolidation and joint arrangements (effective for annual periods beginning on or after 1 January 2014)

The IASB has published five new standards on consolidation and joint arrangements: IFRS 10, IFRS 11, IFRS 12, IAS 27 (amendment) and IAS 28 (amendment). These standards are effective for annual periods beginning on or after 1 January 2014. Earlier application is permitted only if the entire "package" of five standards is adopted at the same time. The Group is in the process of assessing the impact of the new standards on its consolidated financial statements. The main provisions are as follows.

IFRS 10 "Consolidated Financial Statements"

IFRS 10 replaces all of the guidance on control and consolidation in IAS 27 and SIC 12. The new standard changes the definition of control for the purpose of determining which entities should be consolidated. This definition is supported by extensive application guidance that addresses the different ways in which a reporting entity (investor) might control another entity (investee). The revised definition of control focuses on the need to have both power (the current ability to direct the activities that significantly influence returns) and variable returns (can be positive, negative or both) before control is present. The new standard also includes guidance on participating and protective rights, as well as on agency/ principal relationships.

IFRS 11 "Joint Arrangements"

IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The types of joint arrangements are reduced to two: joint operations and joint ventures. Proportional consolidation of joint ventures is no longer allowed. Equity accounting is mandatory for participants in joint ventures. Entities that participate in joint operations will follow accounting much like that for joint assets or joint operations today. The standard also provides guidance for parties that participate in joint arrangements but do not have joint control.

IFRS 12 "Disclosure of Interests in Other Entities"

IFRS 12 requires entities to disclose information, including significant judgments and assumptions, which enable users of financial statements to evaluate the nature, risks and financial effects associated with the entity's interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. An entity can provide any or all of the above disclosures without having to apply IFRS 12 in its entirety, or IFRS 10 or 11, or the amended IAS 27 or 28.

IAS 27 (Amendment) "Separate Financial Statements"

This Standard is issued concurrently with IFRS 10 and together, the two IFRSs supersede IAS 27 "*Consolidated and Separate Financial Statements*". The amended IAS 27 prescribes the accounting and disclosure requirements for investment in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. At the same time, the Board relocated to IAS 27 requirements from IAS 28 "*Investments in Associates*" and IAS 31 "*Interests in Joint Ventures*" regarding separate financial statements.

IAS 28 (Amendment) "Investments in Associates and Joint Ventures"

IAS 28 "*Investments in Associates and Joint Ventures*" replaces IAS 28 "*Investments in Associates*". The objective of this Standard is to prescribe the accounting for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures, following the issue of IFRS 11.

IFRS 10, IFRS 11 and IFRS 12 (Amendment) "Consolidated financial statements, joint arrangements and disclosure of interests in other entities: Transition guidance" (effective for annual periods beginning on or after 1 January 2014)

The amendment to the transition requirements in IFRSs 10, 11 and 12 clarifies the transition guidance in IFRS 10 and limits the requirements to provide comparative information for IFRS 12 disclosures only to the period that immediately precedes the first annual period of IFRS 12 application. Comparative disclosures are not required for interests in unconsolidated structured entities.

IFRS 10, IFRS 12 and IAS 27 (Amendment) "Investment entities" (effective for annual periods beginning on or after 1 January 2014)

The amendment to IFRS 10 defines an investment entity and introduces an exception from consolidation. Many funds and similar entities that qualify as investment entities will be exempt from consolidating most of their subsidiaries, which will be accounted for at fair value through profit or loss, although controlled. The amendments to IFRS 12 introduce disclosures that an investment entity needs to make. These amendments have not yet been endorsed by the EU.

4 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under current circumstances.

4.1 Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year concern income tax.

4.1.1 Income Taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required by the Group Management in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain. If the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax.

4.1.2 Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2.6.1. of the annual financial statements. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (see Note 7).

4.1.3. Estimated impairment of investments

The Group's investments in subsidiaries are tested for impairment when indications exist that its carrying value may not be recoverable. The recoverable amount of the investments in subsidiaries is determined on a value in use basis, which requires the use of assumptions as is further described in **note 14.**

4.1.4. Estimation of useful lives of fixed assets

The Group assesses on an annual basis, the useful lives of its property, plant and equipment and intangible assets. These estimates take into account the relevant operational facts and circumstances, the future plans of Management and the market conditions that exist as at the date of the assessment.

4.1.5. Provision for doubtful debts

The provision for doubtful debts has been based on the outstanding balances of specific debtors after taking into account their ageing and the agreed credit terms. This process has excluded receivables from subsidiaries as Management is of the view that these receivables are not likely to require an impairment provision. The analysis of the provision is presented in **note 9**.

4.1.6. Staff retirement benefit obligations

The present value of the retirement benefit obligations depend on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the relevant obligation comprises the discount rate, the expected return on plan assets, the rate of compensation increase, the rate of inflation and future estimated pension increases. Any changes in these assumptions will impact the carrying amount of the retirement benefit obligations. The Group determines the amount of the retirement benefit obligations using suitably qualified independent actuaries at each year-end's balance sheet date.

4.2 Critical judgements in applying the entity's accounting policies

There are no areas that Management required to make critical judgements in applying accounting policies.

Note 5 - Segment Information

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. Taking into account the above, the categorization of the Group's operations in business segments is the following:

- Ice Cold Merchandise (ICM) Operations
- Glass Operations

The consolidated Balance Sheet and the Income Statement per business segment are presented below:

There are no pledged assets for the Parent Company as at 31/03/2013 and 31/12/2012.

The Parent Company has proceeded to test for impairment its manufacturing operations in Greece as at **31/12/2012.**

The recoverable amount of this operation is determined by calculating its value in use that is based on cash flow projections derived from the operation's financial budgets that have been approved by management and which cover a five year forecast period.

Following the completion of the value in use calculation, the Parent Company's management concluded that no impairment is necessary as at 31 December 2012. The key assumptions for the value in use calculations are as follows:
Discount rate (pre-tax): 15%, Gross margin: 12%-16% , Perpetuity growth rate: 2%

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. At each balance sheet date the Group performs an analysis to assess whether the carrying amount of goodwill is recoverable. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is performed on the cash-generating units that are expected to benefit from the acquisition from which goodwill was derived.

The existing goodwill, which resulted from the business combination of Frigoglass Turkey Soğutma Sanayi İç ve Dış Ticaret Anonim Şirketi (Istanbul, Turkey), Frigoglass North America Ltd. Co, Baffington Road LLC (South Carolina, America) and Frigoglass Jebel Ali FZCO (Dubai), has been allocated to cash generating units related to the Group's operations in Turkey, America and Dubai for the respective subsidiaries.

The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations are based on cash flow projections, prepared as at **31 December 2012**, which require the use of estimates approved by Management and covering a five year period.

The key assumptions used for the Value-in-use calculation are as follows:
Discount rate (pre-tax): 12%-16%, Gross margins: 9%-18% , Perpetuity growth rate: 2%

As at **31 December 2012**, if any of the assumptions used were 10% lower or higher, the Group would not need to reduce the carrying value of goodwill.

The fair value of trade debtors closely approximates their carrying value. The Group and the Company have a significant concentration of credit risk with specific customers.
The customers of Frigoglass comprise large international groups like Coca - Cola Hellenic, Coca - Cola Amatil, Coca Cola India, other Coca - Cola bottlers, Diageo - Guinness, Heineken , Efes Group. The Group does not require its customers to provide any pledges or collaterals given the high calibre and international reputation of its customer portfolio.

Management does not expect any losses from non performance of trade receivables, other than provides for as at **31/03/2013**.

The extent of the Group's and Parent company's exposure to fluctuations in interest rate due to market or contractual changes is considered to be less than six months.

The fair value of current and non current borrowings closely approximates their carrying value, since the company borrows at floating interest rates, which are renegotiated in periods shorter than six months.

The pledged assets of the Group as at **31/03/2013 were € 2.6 mil.** (31/12/2012: € 3.2 mil).

There are no pledged assets for the Parent Company as at **31/03/2013** and **31/12/2012**.

The Group's bank loans include a syndicated bank loan that amounts to € 51 million as at 31 December 2012 and for which the Group is required to comply with covenants relating to the sufficiency of solvency, profitability and liquidity ratios as described below:
a) Net debt to total equity
b) Net debt to earnings before interest tax depreciation and amortization (EBITDA)
c) EBITDA to net interest expense

On the basis that € 97 million of the Group's bank loans expire in less than 24 months (comprising the aforementioned syndicated bank loan and other bank borrowings of the Parent Company amounting to € 46 million), the Group entered into renegotiations for the extension of these loans with the respective lenders during the last quarter of 2012 and which has continued during the first quarter of 2013.

On 08/04/2013 the Group finalized the agreement with respect to the syndicated bank loan that amounts to € 51 million. The refinancing of this loan will be for a three year tenor with a one year capital repayment grace period. On 26/04/2013 the Group finalized the agreement with Commercial Bank of Greece related to the Parent Company's bank loan of € 6 mil. The amount has been refinanced and extended by an additional amount of € 6 mil by converting overdraft facility to long term borrowings. The Group will proceed into finalizing the remaining agreements with respect to lenders of the Parent Company as soon as possible.

In March 2013, the Parent Company participated 100% in the share capital increase of Frigoinvest Holdings B.V. by contributing its whole shareholding in its subsidiaries Frigorex Cyprus Limited and Coolinvest Holdings Limited.

In its separate financial statements, the Parent Company accounts for investments in subsidiaries at historic cost less any impairment losses.

Following on from the impairment tests that the Group has performed as at **31 December 2012** on its operating activities in Hellas (see note 6) and its operating activities in Turkey, Dubai and America (see note 7), the Group has also test for impairment its participation in the company Frigoglass (Guangzhou) Ice Cold Equipment Co. Ltd. which represents the Group's activities in China.

The recoverable amount of this operation is determined by calculating its value in use that is based on cash flow projections derived from the operation's financial budgets that have been approved by management and which cover a five year forecast period.

Following the completion of the value in use calculation, the Parent Company's management concluded that no impairment is necessary as at **31 December 2012**. The key assumptions for the value in use calculations are as follows:
Discount rate (pre-tax): 15%, Gross margin: 9%-18%, Perpetuity growth rate: 2%

A statutory reserve is created under the provisions of Hellenic law (Law 2190/20) according to which, an amount of at least 5% of the profit (after tax) for the year must be transferred to this reserve until it reaches one third of the paid up share capital. The statutory reserve can not be distributed to the shareholders of the Company except for the case of liquidation.

The share option reserve refers to a share option program with beneficiaries the Company's BoD and employees and is analyzed in Note **15** of the annual financial statements.

The Company has created tax free reserves, taking advances off various Hellenic Taxation laws, during the years, in order to achieve tax deductions, either
a) by postponing the tax liability till the reserves are distributed to the shareholders, or
b) by eliminating any future income tax payment by issuing new shares for the shareholders of the company.
Should the reserves be distributed to the shareholders as dividends, the distributed profits will be taxed with the rate that will be in effect at the time of the profits distributions.
No provision has been created in regard to the possible income tax liability in the case of such a future distribution of the reserves the shareholders of the company as such liabilities are recognized simultaneously with the dividends distribution.

Note 21 - Earnings per share

Basic & Diluted earnings per share

Basic and Diluted earnings per share are calculated by dividing the profit attributable to shareholders, by the weighted average number of ordinary shares in issue during the year, excluding ordinary shares purchased by the company (treasury shares).

The diluted earnings per share are calculated adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share options. For the share options a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options. The difference is added to the denominator as an issue of ordinary shares for no consideration. No adjustment is made to net profit (numerator).

Trading derivatives are classified as a current asset or liability. The full fair value of a hedging derivative is classified as a non-current asset or liability if the remaining maturity of the hedged item is more than 12 months and, as a current asset or liability, if the maturity of the hedged item is less than 12 months.

For 2013, there was no ineffective portion arising from cash flow hedges.

Gains and losses relating to the effective portion of the hedge are recognized in the hedging reserve in the Statement of Comprehensive Income. Subsequently these amounts are recognized in the income statement in the period or periods during which the hedged forecast transaction affects the income statement unless the gain or loss is included in the initial amount recognized for the purchase of inventory or fixed assets. These amounts are ultimately recognized in cost of goods sold in case of inventory or in depreciation in the case of fixed assets.

In terms of an amendment to IFRS 7, for **2013**, the Company and the Group must disclose the basis of determining the fair value of financial instruments that are presented in the Balance Sheet. The only financial instruments at fair value presented in the balance sheet are the derivative financial instruments that are detailed in the tables above. These derivative financial instruments are measured in terms of the "Level 2" fair value hierarchy, that is described in IFRS 7. The "Level 2" fair value hierarchy refers to fair value measurements that are based on inputs that are directly or indirectly observed in an active market.
