## BENEFITS OFFERED TO DATA FEED DISTRIBUTORS

### CONNECTIVITY BENEFITS OFFERED TO DATA FEED DISTRIBUTORS (DATA VENDORS/SUBVENDORS/MEMBERS)

---

#### CONNECTIVITY

ATHEX offers a **highly efficient technical environment** to connect and obtain market information:

#### ALTERNATIVES

- **High availability of provided services**
- **Collocation services at competitive cost**
- **High transmission rates and low latency**

The **ATHEX infrastructure** consists of state of the art of the following data centers:

- **Main Data Center:** allows access to the production and test environment, through the FIC - IOCP service
- **Disaster Recovery Data Center:** allows access to both production and back up services (DR). In case of destructive events at the main premises of Athens Stock Exchange, the DRS will be automatically activated
- **London Hub Data Centers:** Point of presence of Athens Stock Exchange in Citi and Docklands, London. Athens Stock Exchange offers a fully redundant and managed solution (two separate connections from Athens to London)

With the following connectivity options:

- **Leased Lines**
  - **Internet**
  - **Global Extranets**
  - **ATHEX Data Vendors (Subvending case)**
-
