

AXIAWEB

AXIAWEB service is addressed to investors-beneficiaries of Investor Shares and Securities Accounts in the Dematerialized Securities System (DSS), in order to be informed electronically about their data registered in the DSS.

Their Investor Share

The last ten (10) movements of the Securities Account

Beneficiaries
can find details of:

The current statement of balances per security in their Securities Account

The valuation of the current portfolio of their Securities Account, based on the closing price of the securities on the previous business day

Benefits

Immediate monitoring of the balance of the Securities Account as well as the recent movements of the beneficiary through a website.

Checking the personal details of the beneficiary registered in their Investor Share via the website in order to update them through the Participant whenever necessary.
