

# AXIA Shareholders Identification

AXIA Shareholders Identification service is addressed to (listed and unlisted) Issuers of securities and provides the possibility of collecting the identification information of the beneficiaries of their securities.

In the case of listed shares, the service facilitates Issuers, Participants and Intermediaries in the chain of Intermediaries to identify the beneficial shareholders in accordance with the regulatory framework "Shareholders Rights Directive II" (SRD II).

## Benefits

Enhancing transparency and corporate governance by facilitating shareholder participation in the Issuer's General Meetings

Saving time and resources for the collection and verification of identification data of shareholders with securities held in omnibus Securities Accounts

Online monitoring of the shareholder identification results and obtaining of the relevant report with the results via electronic access to the "AXIA e-Shareholders' Meeting" platform

Easy and convenient electronic submission of shareholder identification data by Participants/Intermediaries
