## **Details of the Offers**

### ***Rationale for the Offers***

The Offers are part of the Republic's broader program to manage its external liabilities.

Any Existing Notes purchased or otherwise acquired by the Republic may be held, reissued, resold or, at the option of the Republic, cancelled.

### ***Purchase Price and Accrued Interest***

The cash purchase price (in respect of each Series, the **Purchase Price**) to be paid for Existing Notes validly tendered and accepted by the Republic for purchase pursuant to the Offers will be an amount equal to, (i) in respect of the February 2026 Notes, 98.170 per cent. of the nominal amount of such February 2026 Notes and, (ii) in respect of the July 2026 Notes, 99.770 per cent. of the nominal amount of such July 2026 Notes, as the case may be.

Holders whose Existing Notes are accepted by the Republic for purchase pursuant to an Offer will also receive an Accrued Interest Payment in respect of such Existing Notes.

### ***New Notes Condition and Other Conditions***

The Offers are conditional on the successful pricing and closing of the New Notes Offering in an amount, with pricing and on terms and conditions satisfactory to the Republic (in its sole determination) (the **New Notes Condition**).

The Offers are also conditional on the dealer manager agreement that the Republic has entered into with the Dealer Managers and the Billing and Delivering Bank in relation to the Offers (and the obligations of the Dealer Managers and the Billing and Delivering Bank thereunder) not having been terminated or cancelled prior to or at the time of the settlement of the Offers by the Dealer Managers and/or the Billing and Delivering Bank on the Settlement Date, as well as the other conditions described in the Switch and Tender Offer Memorandum.

**The Republic is not under any obligation to accept for purchase pursuant to the Offers any Existing Notes tendered pursuant to the Offers. The acceptance by the Republic of Existing Notes tendered for purchase pursuant to the Offers is at the sole discretion of the Republic and tenders may be rejected in whole or in part by the Republic for any reason or for no reason. In addition, even in the event that the Existing Notes are validly tendered and accepted for purchase pursuant to an Offer, the Billing and Delivering Bank will not be under any obligation to purchase and pay for such Existing Notes unless both (i) the conditions to the Offers (including the New Notes Condition) have been satisfied or waived on or prior to the Settlement Date and (ii) such Existing Notes are delivered to the Billing and Delivering Bank on or prior to 11:00 am (London time) on the Settlement Date (the Delivery Deadline).**

### ***Tender Procedures – Submission of Tender Instructions***

The period during which Tender Instructions may be submitted by Noteholders (the **Submission Period**) will commence on 13 March 2025 and will end at the Expiration Deadline on 13 March 2025, unless extended, re-opened or terminated as provided in the Switch and Tender Offer Memorandum.

The Expiration Deadline will (subject in each case to the right of the Republic to extend, re-open, amend and/or terminate each Offer) be:

- (a) in connection with any Preferred Instructions (as defined below), the time at which the bookbuilding process for the New Notes closes or such later time on 13 March 2025 as the Republic, in its sole discretion, may determine (subject to the right of the Republic to extend, re-open, amend and/or terminate each Offer); and
- (b) in connection with any Non-Preferred Instructions (as defined below), such time falling at or after the Expiration Deadline applicable to Preferred Instructions (as described in (a) above) on 13 March 2025 as the Republic, in its sole discretion, may determine (subject to the right of the Republic to extend, re-open, amend and/or terminate each Offer).

In order to participate in, and be eligible to receive the relevant Purchase Price and the Accrued Interest Payment pursuant to, an Offer, Noteholders must validly tender their Existing Notes by submitting a valid Tender Instruction during the Submission Period.

Any Noteholder who wishes to submit a Tender Instruction pursuant to an Offer and has an account with a Dealer Manager should call its regular contact at that Dealer Manager at any time during the Submission Period. **A holder of Existing Notes must submit a Tender Instruction to one Dealer Manager only. A separate Tender Instruction must be completed in respect of each Series.** Each Dealer Manager will transmit the Tender Instructions received by it to the Billing and Delivering Bank. No holder of Existing Notes should submit multiple Tender Instructions in respect of the same Existing Notes.

Any Noteholder who wishes to submit a Tender Instruction but does not have an account with a Dealer Manager may do so through any broker, dealer, commercial bank, trust company, other financial institution or other custodian that such Noteholder customarily uses and that has an account with the Billing and Delivering Bank or a Dealer Manager. Such broker, dealer, commercial bank, trust company, other financial institution or other custodian must contact the Billing and Delivering Bank or such other Dealer Manager using the contact details set out below at any time during the Submission Period. Noteholders may be required to pay a fee or commission to any such broker, dealer, commercial bank, trust company, other financial institution or other custodian through whom Existing Notes are tendered for purchase.

*Tender Instructions may be submitted as “Preferred Instructions” or “Non-Preferred Instructions” as further described below and in the Switch and Tender Offer Memorandum.*

*Holders of Existing Notes will NOT be able to submit Tender Instructions through the BOGS System or any other clearing system. Holders of Existing Notes should not send Existing Notes or Tender Instructions to the Republic.*

Tender Instructions will be irrevocable upon submission except in the limited circumstances described in the Switch and Tender Offer Memorandum.

Tender Instructions must be submitted in respect of an integral multiple of €1,000 of the relevant Series of Existing Notes.

#### ***Tender Procedures – Following the Submission of Tender Instructions***

Following acceptance by the Republic of valid tenders of Existing Notes pursuant to the Offers, each relevant Noteholder must (unless otherwise agreed by the Billing and Delivering Bank and the Republic) book a trade ticket with the Billing and Delivering Bank (including in circumstances where the relevant Tender Instruction was submitted to a Dealer Manager other than the Billing and Delivering Bank) or, if the relevant Noteholder does not have an account with the Billing and Delivering Bank, with the Dealer Manager to whom the relevant Noteholder submitted its Tender Instruction (following which the relevant Dealer Manager will then book an equivalent trade ticket with the Billing and Delivering Bank).

Existing Notes accepted by the Republic for purchase pursuant to the Offers will be settled in cash on a delivery-versus-payment basis with the Billing and Delivering Bank on the Settlement Date, in accordance with customary brokerage practices for corporate fixed income securities.

**In the event of a failure to deliver Existing Notes accepted for purchase pursuant to an Offer by the Delivery Deadline, the relevant Noteholder will, if it submitted a Preferred Instruction, remain obliged to purchase its allocation of New Notes in the New Notes Offering in respect of its related Indication of Interest. Failure to deliver Existing Notes accepted for purchase pursuant to an Offer by the Delivery Deadline will also result in (i) the cancellation of such Offer in relation to the Existing Notes not delivered, (ii) the relevant Noteholder becoming liable for any loss or damages incurred by the Republic, the Billing and Delivering Bank or any other Dealer Manager as a result of that failure and/or (iii) the delivery of a buy-in notice for the purchase of such Existing Notes, executed in accordance with customary brokerage practices for corporate fixed income securities.**

Only the Billing and Delivering Bank will be liable for the payment of the relevant Purchase Price and the Accrued Interest Payment for Existing Notes validly tendered and accepted by the Republic for purchase (subject to the conditions described in the Switch and Tender Offer Memorandum). The Republic will not be liable to any Noteholder under any circumstances for the payment of the relevant Purchase Price and the Accrued Interest Payment for any Existing Notes tendered in an Offer by any Noteholder.

#### ***Final Acceptance Amount, Priority of Acceptance and Scaling***

The aggregate nominal amount of Existing Notes the Republic will accept for purchase pursuant to the Offers, subject to the terms and conditions described in the Switch and Tender Offer Memorandum (including the New Notes Condition) (the **Final Acceptance Amount**) will be determined by the Republic in its sole discretion and the aggregate Purchase Price and Accrued Interest Payment for all Existing Notes which are accepted for purchase shall not exceed the aggregate net proceeds of the New Notes Offering.

Subject to the terms and conditions described in the Switch and Tender Offer Memorandum, the Republic will determine the allocation of the Final Acceptance Amount between each Series of Existing Notes in its sole and absolute discretion, and reserves the right to accept significantly more or less (or none) of one Series of Existing Notes as compared to the other Series of Existing Notes (the aggregate nominal amount of Existing Notes of each Series accepted for purchase (if any) pursuant to the relevant Offer being a **Series Acceptance Amount**).

If the Republic, in its sole and absolute discretion, accepts any Existing Notes for purchase pursuant to the Offers and the aggregate nominal amount of Existing Notes validly tendered exceeds the Final Acceptance Amount, the Republic intends to accept validly tendered Existing Notes in the following order of priority:

- (a) Firstly, Tender Instructions from Noteholders who have submitted an Indication of Interest (as defined below) in the New Notes Offering prior to the deadline for receipt of firm orders (**Preferred Instructions**) will be accepted first. Such priority will apply to Preferred Instructions, subject to possible *pro rata* scaling or rounding as described in the Switch and Tender Offer Memorandum, relating to an aggregate nominal amount of Existing Notes that such Noteholder validly tenders as is equal to the nominal amount of the New Notes to which its Indication of Interest relates. **Indication of Interest** means the submission to a Joint Lead Manager of the New Notes Offering, during the bookbuilding process for the New Notes, of a firm bid for a certain amount of New Notes at a price equal to or above the issue price of the New Notes determined through the bookbuilding process; and
- (b) Secondly, (A) Tender Instructions from Noteholders who have not placed a firm order for the New Notes, (B) Tender Instructions from Noteholders to the extent a proportion does not fall within the definition of Preferred Instructions (i.e. where the Noteholder submits a Tender Instruction in respect of an aggregate nominal amount of Existing Notes greater than

the nominal amount of the New Notes to which its Indication of Interest relates), and (C) Tender Instructions submitted by holders after the deadline for receipt of Indications of Interest in the New Notes Offering, (together **Non-Preferred Instructions**).

Accordingly, depending on the aggregate nominal amount of all Existing Notes validly tendered and the Final Acceptance Amount, certain tenders of Existing Notes may be subject to acceptance on a *pro rata* basis, as more fully described in the Switch and Tender Offer Memorandum.
