

## SingularLogic implements the CFMS Legal Management system for Piraeus Leasing

**Athens, December 11, 2024.** SingularLogic, a member of the Space Hellas Group, will implement the CFMS Legal Management system for Piraeus Leasing, utilizing the SingularLogic CFMS - Credit Facilities Management System platform.

Piraeus Leasing, a subsidiary of Piraeus Bank, is a leading player in the financial leasing sector in the Greek market and manages all related activities within the Group. As part of its strategy to save resources and improve productivity, Piraeus Leasing selected the CFMS platform's Legal Management solution to organize, automate, and simplify the management of its Legal Department's cases.

Piraeus Leasing aims to improve operational efficiency through automation, thus reducing the bureaucratic workload, accelerating processing times, and enabling it to implement its legal strategy. The CFMS Legal Management solution connects with Microsoft Office tools (Outlook, Word, Excel), facilitating document management, legal case handling, and the legal calendar. The ability to send automated notifications and reminders significantly improves management and compliance with legal cases and other critical tasks. Additionally, the transparency of legal processes provides a comprehensive framework for oversight and control. The solution incorporates approval workflows and access controls, ensuring the protection of crucial legal data.

By incorporating technology into its legal management processes, Piraeus Leasing significantly enhances productivity while achieving greater efficiency and security.

The long-standing collaboration between the two companies has formulated a relationship characterized by mutual trust. This new initiative further reinforces SingularLogic's role as a reliable technology partner that consistently supports Piraeus Leasing's strategic goals.
