

PRESS RELEASE

METLEN in the Dow Jones Best-in-Class Emerging Markets Sustainability Index and the S&P Global Sustainability Yearbook for the Third Consecutive Year

Athens, Greece – 13 March 2025 – [METLEN Energy & Metals](#) has been included for the third consecutive year in the prestigious **Dow Jones Best-in-Class Emerging Markets Sustainability Index** and the **S&P Global Sustainability Yearbook 2025**.

Consistently at the top of DJSI & S&P Sustainability Yearbook

Improvement in overall performance for the **5th consecutive year**

Maintaining a position in the **top 6%** globally in ESG performance within its sector

METLEN stood out among **780 companies worldwide** and is the **only Greek company** in the Sustainability Yearbook 2025!

Continuous progress in sustainable development practices

Effective compliance with the strict criteria of the Dow Jones Sustainability Indices

Additional distinctions for METLEN in 2024

1st #
TIME

in the top 8% for low ESG risk in the energy sector (Sustainalytics)

1st #
POSITION

in the top 8% for low ESG risk in the energy sector (Sustainalytics)

2nd #
CONSECUTIVE YEAR

among LEADERS, in its sector, in MSCI ESG Ratings

This recognition is based on the results of S&P Global's annual assessment of over **13,000 companies worldwide**, evaluating a broad range of economic, environmental, and social criteria aligned with the expectations of sustainability-focused investors.

In the 2024 assessment, **METLEN improved its overall performance for the fifth consecutive year**, maintaining its position in the **top 6% of companies globally** with the highest ESG performance in its sector. As a result, **METLEN was among only 780 companies worldwide—and the only Greece-based company—selected for inclusion in the Sustainability Yearbook 2025**. This achievement underscores the company's continuous progress in sustainable development practices, meeting the strict criteria of the Dow Jones sustainability indices.

Dimitrios Papadopoulos, Executive Board Member and Chief Corporate Governance & Sustainability Officer of METLEN, stated: *"This recognition validates our Sustainable Development Strategy and reflects the collective efforts of our people, both in our production units and at the corporate level. Our goal is to drive business and economic growth responsibly—toward our employees, the natural environment, society, and the markets in which we operate—while generating and distributing value to our shareholders and broader stakeholder groups."*

Complementing these accomplishments, METLEN secured three more significant ESG distinctions in 2024:

- Recognition as an industry 'LEADER' for the second consecutive year in the MSCI ESG Ratings.
- Ranking in the top 8% of energy sector companies with the lowest ESG risk, according to Sustainalytics' rigorous ESG risk assessment.
- Achieving first place in the Multiline Utilities sector of the ESG Rating Group by the London Stock Exchange Group (LSEG).

These distinctions highlight the Company's consistent commitment to sustainable development and the implementation of responsible business practices.

METLEN:

METLEN Energy & Metals is a multinational industrial and energy company, a leader in the metallurgy and energy industries, focused on sustainability and circular economy. The Company is listed on the Athens Stock Exchange, with a consolidated turnover and EBITDA of €5.68 billion and €1.08 billion, respectively. METLEN is a reference point for competitive green metallurgy at the European and global level, whilst operating the only vertically integrated bauxite, alumina and primary aluminum production unit in the European Union (E.U.) with privately owned port facilities. In the energy sector, METLEN offers comprehensive solutions, covering thermal and renewable energy projects, electricity distribution and trading, alongside investments in grid infrastructure, battery storage, and other green technologies. The Company is active in the markets of all five continents, in 40 countries, adopting a full-scale synergetic model between the Metallurgy and Energy Sectors, while undertaking end-to-end development of major energy infrastructure projects.
